Question on Notice 1

Page 1 of the Service Delivery Statement makes reference to a major initiative to implement the Parliament's digital transformation strategy. Can the Speaker provide a brief outline of what this strategy will deliver to improve the operations of the Parliament and its committees?

SPEAKER'S RESPONSE

The Queensland Parliamentary Service (PS) has commissioned a significant digital transformation program across all its business areas and has established 5 strategic project governance boards with oversight of key ICT projects:

- **LAQ Digital Transformation** – implementation of the new Parliamentary Information Management System (also known as PIMS).
- **Enterprise Resource Planning** – the replacement of the PS's legacy financial management system plus the introduction of new digital forms and workflow of the PS's HR processes.
- **Facility Services Digital Transformation** – uplift of staff rostering capabilities and facilities management systems.
- **IT Modernisation** – Cyber Security uplift, IT Infrastructure Renewal (including network and infrastructure consolidation), workstation modernisation and application remediation.
- **Audio Visual** – modernisation of Parliament TV systems and infrastructure, audio system in Chambers and Committee Rooms, meeting and conference spaces.

The LAQ Digital Transformation program is the largest initiative, and one that is directly focused on improving Chamber and Committee services for Members. The implementation of this strategy is governed by two project boards: the LAQ Digital Transformation Board and the AV Project Board.

The initiatives cover 3 key elements:

- a) The implementation of a new enterprise Parliamentary Information Management System (PIMS) to replace a portfolio of existing bespoke IT applications which supports the operations of the Legislative Assembly of Queensland and parliamentary committees;
- b) The remediation and stabilisation of a portfolio of bespoke, in-house built legacy IT applications; and
- c) The replacement of ageing AV infrastructure associated with the broadcast of parliamentary and committee proceedings.

Over the past decade the Queensland Parliament has developed and maintained 19 bespoke in-house built IT applications to support the operations of the Legislative Assembly and Parliamentary Committees. These bespoke applications support business-critical functions such as the production of the Record of Proceedings (Hansard), Parliament TV, Questions on Notice, Tabled Papers, ePetitions, and Bills and Notice Papers.

These bespoke IT applications were developed in-house using in-house IT developers due to the unique nature of Parliamentary operations, and the lack of available commercial alternatives at the time. In fact, the Queensland Parliament pioneered many of these enhancements which other jurisdictions either licensed or otherwise replicated.

However, these ageing IT applications now present an operational risk. To better identify and manage these risks, the PS engaged an external consultancy group to review the health and stability of these applications, which confirmed that the aged technologies required immediate rectification to maintain stability and improve cyber defences.

Following extensive consultation with other jurisdictions, it was recommended that the Queensland Parliament adopt a commercially available As-A-Service solution (referred to as PIMS) which is

widely used by other Parliaments within Australia and Asia Pacific (the Australian Parliament, New South Wales, Victoria, South Australia and the ACT).

The PIMS solution contains 14 modules digitally supporting unique Parliamentary activities and processes such as Bills, Tabled Papers, Questions and Answers, Petitions, Committee hearings, Procedural Hearings, Hansard and Broadcast (Parliament TV). New additional features not currently available to Members will also be introduced, such as:

- a) A Parliamentary Portal providing Members with a personalised tailored view of their upcoming engagements.
- b) Digital forms and interactions for transactions currently completed and verified via email (e.g. review and approval of Members' speeches).
- c) Productivity and process efficiencies within the PS resulting in improved turnaround times, less manual handling and processing.
- d) A rolling release of Hansard publications and Parliament TV broadcasts rather than at the defined intervals of 2pm and 10pm on a Sitting day.
- e) Improved searching and discovery of Parliamentary artefacts.

As part of addressing immediate risks with service delivery during transition, a two-year remediation plan has been developed for stabilising the legacy bespoke IT applications utilising local IT vendors who have a bank of appropriately qualified developers. This remediation work is critical to ensure the portfolio is stabilised before each relevant application can be transitioned to a corresponding PIMS module in a staged process over the next two to three years.

In 2021-22 CBRC approved funding to deliver Automatic Speech Recognition (ASR) technology to improve existing processes used to produce the official record of parliamentary proceedings (Hansard). This proposed solution was intended to deliver:

- Live closed captioning of parliamentary proceedings to improve accessibility for hearing impaired citizens; and
- Address workforce capacity issues due to the likely retirement of existing Hansard Reporters over the next 5-10 years and the absence of replacement reporters in the labour market.

The proposed PIMS solution includes an automatic speech recognition functionality.

Currently, much of the AV broadcast and audio systems in the Green and Red Chambers, and Committee Rooms are near end-of-life. There are increasing problems with reliability and sourcing replacement parts. These technology components are critical to the operations of the Legislative Assembly and parliamentary committees, ensuring these proceedings can be heard, recorded and broadcast to the general public.

The types of equipment requiring replacement include:

- Self-selecting microphone system in the Green Chamber at each Member's seat.
- The audio and sound distribution systems in each location.
- Broadcast cameras and video editing suites for Parliament TV.
- Hearing Loops for people with hearing impairments.
- Backend supporting infrastructure.

The delivery of PIMS will continue the ongoing evolution of the Queensland Parliament 'E-Democracy' journey that commenced with the first audio broadcast of Parliament in 2003, video broadcast in 2006, and on-demand video archives in 2010.

AV technology has seen a technology shift in the last 10 years, and is now being hosted and distributed on IP networks where previously it operated on legacy distribution systems with dedicated cables and wires. This technology change requires additional investment, with existing distribution systems now being made redundant.

The replacement of AV broadcasting infrastructure will enable the Queensland Parliament to continue to reliably record and broadcast the proceedings of the Legislative Assembly and Parliamentary committees.

The AV broadcast infrastructure used to produce Parliament TV will need to be replaced while the House is not sitting between the last sitting week of the year and the first of the following year (i.e. December 2023 through to February 2024).

The strategy also includes relocating the purpose-built Committee Rooms (currently located on Level 6 of the Parliamentary Annexe) to lower levels of the Annexe as part of the current refurbishment works. Some of the new spaces on the ground floor of the Annexe are currently being used as office decant spaces for Members of Parliament during the construction phase of the Parliamentary Annexe. The AV broadcast infrastructure for these spaces will be best replaced as part of the planned migration of the Committee Rooms in 2024.

Question on Notice 2

Page 1 of the Service Delivery Statement notes that a 3-year modernisation program will commence aligned to the Parliamentary Service Workforce Strategy. Can the Speaker advise what benefits this strategy aims to deliver?

SPEAKER'S RESPONSE

In September 2021, the Parliamentary Service commenced a project to review the key human resources policies within the Parliamentary Service which have a direct impact on the performance of the Service to support the Parliamentary Service's strategic objectives and future direction.

Early in the project it was identified that the Parliamentary Service did not have a standalone workforce strategy; something that has become an expected and important feature of modern workplaces. It was envisaged that a practical workforce strategy would deliver the following benefits:

- a focused and strategic approach to attracting, engaging, developing and retaining a suitable workforce;
- ensuring that our policy settings align with our strategic approach in this area, and
- integrating with other planning processes such as the strategic plan, budget planning and training and development planning.

Following consultation with staff, a workforce strategy was developed. The strategy includes three main objectives:

- Attracting and retaining the best talent
- Supporting our people to develop their capabilities
- Creating and maintaining a positive, productive and safe work environment.

Also coming out of the consultation with staff, a new Parliamentary Service value was added to reflect our focus on our people - *We value our people and their diversity and create a safe environment for them to excel.*

In May 2022, the Workforce Strategy 2022-2025 was launched and also published on the Parliament's website at [WorkforceStrategy_2022_2025.pdf \(parliament.qld.gov.au\)](https://www.parliament.qld.gov.au/WorkforceStrategy_2022_2025.pdf)

In August 2022, the Speaker approved significant changes to the structure and resourcing of the (then) single Human Resources unit. Under the approved changes, Human Resource Services was split into two specialised teams:

- **Payroll Services** team to focus on key tasks associated with the payroll cycle including payment of salary and allowances, leave processing and management, payroll system administration and reporting; and
- **People and Culture** team to focus on the employee lifecycle including recruitment, performance planning and management, industrial relations, training and development, and delivering the *Parliamentary Service Workforce Strategy* approved in 2022.

The People and Culture team has developed a three-year plan to implement the Parliamentary Service Workforce Strategy. The plan has been approved by the Clerk of the Parliament and identifies key priorities in 2023-24 including:

- review and modernisation of employee attraction and retention policies and procedures;
- delivery of an expanded flexible work options framework;
- introduction of a new external employee disclosure hotline;
- streamlining and modernising on-boarding processes and inductions;
- development a new Parliamentary Service Careers webpage.

Question on Notice 3

Page 1 of the Service Delivery Statement refers to the completion of a project to enhance electorate office security through the installation of a CCTV monitoring system. Can the Speaker advise:

- a) When will the project be completed and the CCTV systems operational?**
- b) Has the program been delivered on budget?**

SPEAKER'S RESPONSE

The Parliament's budget for 2022-23 included additional funding to upgrade security in Members' electorate offices through installation of a standardised closed circuit television (CCTV) surveillance system in each of the 97 office sites across Queensland.

Planning for the project included technical system design, developing formal specifications, market evaluation of options, engagement of a delivery and support partner, and scheduling installation across the State.

a) When will the project be completed and the CCTV systems operational?

Of the total 97 electorate office sites, installation has been completed at all but three sites. One site has been delayed pending current negotiations with the landlord's representative, while two other sites are being upgraded from a previously installed system to the current uniform system deployed to all other offices.

Of the sites completed to date, all are now operational.

b) Has the program been delivered on budget?

The final cost of the project is estimated at \$648,000, approximately 6% (\$36,000) over the approved budget.

The cost increase relates to some necessary design variations following individual site visits to each office for items such as additional camera hardware, additional cabling, surface preparations and rectification. These issues were specific to individual sites and could not have been foreseen in advance.

Question on Notice 4

Budget Paper 3 (Capital Statement) makes reference to the Annexe Critical infrastructure and services upgrade program. Could the Speaker advise if the 3-year program outlined in last year's Capital Statement, which was due to be completed in 2022-23, was delivered on time and on budget?

SPEAKER'S RESPONSE

In late 2018, the Parliamentary Service engaged an external consultant (Wilson Architects) to deliver a comprehensive review of the Parliamentary Annexe to assess the current state and future requirements for infrastructure and services, upgrades and refurbishments required to meet future public and client demands, and works necessary to meet current building code benchmarks and obligations. The review was completed in March 2019.

The Wilsons' Review drew on a series of previous reports, investigations and assessments dating back 10-15 years. The review also drew on a number of independent appraisals from other technical experts commissioned as part of the 2019 Review.

Findings from Wilson's Independent Review

1. Key infrastructure services:
 - are nearing or past their usable life expectancy
 - do not meet current code requirements
 - utilise outdated technologies
 - are energy inefficient
2. Significant safety risks exist in respect of Annexe fire protection systems and non-compliant equitable access throughout the precinct.
3. For buildings to achieve their full design life, they require a mid-life refurbishment and upgrade of major infrastructure to extend its life and bring it in line with current safety and technology standards and efficiency.

Building Services Recommendations from Wilson's Independent Review

4. Upgrade fire protection systems in the Annexe to address non-compliance and ageing infrastructure.
5. Major upgrade and replacement of electrical switchboard systems which support integrated building management and security systems.
6. Major upgrade and replacement of central mechanical services supporting air conditioning systems through the Annexe.

Approved Scope of Works

| Category | Description |
|---------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|
| Fire Services | Infrastructure/systems required to ensure compliance with key safety obligations for fire detection, monitoring, alarm, and evacuation. |
| Mechanical Services | Infrastructure/systems required to deliver safe, reliable air conditioning services including pipework backbone, pump systems, air chiller units. |
| Electrical Services | Infrastructure/systems required to deliver safe, reliable mains power distribution for supported building management and security systems. |

Budget Performance

As part of the 2019-20 budget process, CBRC approved total capital funding of \$14.493M over 3 years for a critical infrastructure upgrade program.

The program was completed in 2022-23 at a total cost of \$13.727M.

Savings delivered through the program have assisted meeting some preliminary relocations costs of staff from level 3 of the Parliamentary Annexe as part of the current Annexe Tower refurbishment program.

Question on Notice 5

Budget Paper 3 (Capital Statement) includes a total budget of \$58.021 million for a major Annexe refurbishment project including repairs and upgrades to the external façade and the refurbishment of Members' office and overnight accommodation floors. Can the Speaker advise if the ongoing construction works and restrictions on access to certain areas have had any direct impact on the normal operations of the Catering division?

SPEAKER'S RESPONSE

The ongoing construction works and restrictions on access to certain areas has had a direct impact on function revenue.

The level 7 podium deck has been unavailable for use by Members / commercial bookings from August 2022. This has significantly impacted revenue as the level 7 podium is a large, popular and versatile space.

In addition, across the reporting period there have been occasions where other spaces such as the Undumbi, Dandiir and Speakers' Green have been unavailable for use as they formed part of the exclusion zone as scaffolding and other works took place.

The Committee Rooms have been within the exclusion zone for extended periods so spaces such as the Red Chamber have been used to accommodate Committee hearings rendering these spaces unavailable for sale.

Finally, there have been periods of noisy works whereby some or all of our rooms were not able to be sold due to the impacts of this noise.

Function revenue in 2022/23 declined to \$1,009,449 from \$1,175,450 in 2021/22.

In order to mitigate these expected losses, the below actions have been put into place:

- Development and implementation of our Catering Sales & Marketing Plan that focuses on ticketed and partnership events in Strangers Restaurant. Goals are to engage with new customers and showcase local Queensland producers and Executive Chef – Anthony Naylor.
- Optimisation of new Catering and Dining Microsite that was launched in October 2022. The site drives traffic to Strangers Restaurant, our function spaces and increases awareness of our special events such as Christmas in July.
- Development and marketing of new catering kit including a Wedding package. This is a new target audience for Queensland Parliament that can generate various revenue streams as we can utilise spaces such as Red Chamber and Speakers Green for ceremonies, various locations within the Old House for photos and spaces such as Lucinda Bar for Reception.
- Relocation of key pieces of lounge furniture and creation of enhanced spaces on level 3 colonnade (around Speakers Green).
- Relocation of tables, chairs and high top bar tables to level 3 garden space (facing the river). Area used for school tour morning teas to enable previous location – level 3 colonnade to be reserved for Member / commercial bookings.

Strangers Restaurant and Lucinda Bar revenue has grown from \$303,682 in 2021/22 to \$498,454 in 2022/23.

Question on Notice 6

Page 5 of the Service Delivery Statement indicates there has been an increase of 9 FTEs in overall staffing in Parliamentary Precinct Support Services during 2022-23. Can the Speaker please outline the general reasons for this increase?

SPEAKER'S RESPONSE

The staffing FTE figures reported in the SDS reflects an increase of 9 FTEs from 2022-23 Budget and 2022-23 Estimated Actual.

These staffing increases relate to movements in a number of different operational teams within the parliamentary precinct as follows:

Graduate Program (+4 FTEs)

In July 2022, the Speaker approved that the Parliamentary Service commence planning for its inaugural Graduate Program to commence its first intake in February 2023. This initiative created four new FTE positions that would rotate between different service divisions within the precinct. Note that as at June 2023 only three positions had been filled. Recruitment is underway to fill the current vacancy.

People and Culture and Payroll Services (+3 FTEs)

In August 2022, the Speaker approved significant changes to the structure and resourcing of the (then) single Human Resources unit. Under the approved changes, Human Resource Services was split into two specialised teams:

- **Payroll Services** team to focus on key tasks associated with the payroll cycle including payment of salary and allowances, leave processing and management, payroll system administration and reporting; and
- **People and Culture** team to focus on the employee lifecycle including recruitment, performance planning and management, industrial relations, training and development, and delivering the *Parliamentary Service Workforce Strategy* approved in 2022.

As a result of the review 3 additional FTE positions were established between the two newly configured teams.

Parliamentary Catering Services (+ 1 FTE)

In January 2023 the Clerk approved a temporary change to Catering Services' structure to include an additional Sous Chef role for a period of 12 months to deliver more consistent quality of service as opposed to using various short-term casual chefs sourced through labour hire suppliers.

Parliamentary Reporting (+ 1FTE)

There has been a minor increase in staffing through a combination of increasing hours of work under part-time arrangements and temporary assistance.

Question on Notice 7

Page 1 of the Service Delivery Statement makes reference to the various Parliamentary Service objectives including 'safeguard, promote and strengthen the important institution of Parliament'. Can the Speaker advise of any initiatives to safeguard and promote the various heritage collections of the Parliament?

SPEAKER'S RESPONSE

There were a number of new initiatives in 2022-2023 which supported and advanced heritage conservation. These included:

- The implementation of the new Vernon Collection Management System to manage heritage objects;
- The installation of compactus in the Parliamentary Library's Rare Books Room;
- The digitisation of collections of historical Queensland newspaper clippings and Ministerial media statements;
- The conservation and restoration of a range of heritage artefacts;
- The updating of the Parliament's War Service Honour Board; and
- The implementation of a Digital Preservation Strategy to safeguard the Parliament's digital information collections of enduring value.

1. Vernon CMS Heritage database

The Parliament's bespoke heritage database, built in-house on now unsupported software, was replaced with a commercial off-the-shelf (COTS) solution known as the Vernon Collection Management System (CMS). Vernon CMS is a well-used and well-known product that is fully supported. The previous database, which was at end-of-life, was replaced with this system which has greater functionality and improved security. The new system has additional features such as stocktake and asset management functionality, the ability to publish curated heritage collections to the Parliamentary Service's website, and the capacity to link images, sound files and videos to records in the system.

2. Rare Book Room Storage Upgrade

The Parliamentary Library's Rare Books Room consists of over 3,000 special and rare books and early manuscripts; journals; maps; library records of a non-business nature; and private materials including diaries, letters, photographs, small paintings and other collectable ephemera. It also includes an amazing collection of correspondence with the Government Printers, originally located in William Street. This collection tells the story of Queensland's unique place in the British Empire, as a remote colony and later as a State in a federated nation, as well as the issues, public debates and reforms addressed by the Queensland Parliament from 1860. The storage of this collection is crucial to its environmental protection and to prevent damage to the integrity of the items.

The installation of a purpose-built compactus for this collection has:

- increased storage capacity without increasing the physical footprint;
- allows for more efficient and appropriate storage of bulk items such as maps, manuscripts, albums and images;
- increases physical security of valuable irreplaceable items through locked shelving;
- increases environmental protection with secure closed shelving compactus sides and top (minimise water penetration); and
- brings rare titles together to better manage and prioritise preservation and conservation needs and display potential.

3. Digitisation of Newspaper Clippings and Ministerial Media Statements

From the early 1950's until 1993 the Queensland Parliamentary Library created and maintained an extensive hardcopy newspaper clippings collection stored in boxes and discoverable by a printed subject guide. This collection is currently held in 683+ individual archival boxes and is organised by year and subject. These hardcopy files represent a valuable and unique collection as no commercial database covers these earlier years.

In addition, the Library has a large collection of paper-based Ministerial media statements requiring digitisation to make them full-text searchable. These range in date from the 1970's to the 1980's. These Ministerial media statements are not captured anywhere else and are a unique collection.

The digitisation is nearing completion, with the items being progressively added to the Library's online catalogue to promote access.

4. Conservation of Heritage Items

During this year a number of items were prioritised for conservation and restoration. The selection and priority of these items was coordinated by the Heritage Management Group. The selection consisted of a variety of artworks, furniture, and documents all requiring restoration. Included was:

- the restoration of the unique furniture in the Red Chamber;
- busts of former Premiers currently located in the precinct Carriageway;
- a number of significant paintings;
- several items from the O'Donovan Collection including monographs, maps, and documents;
- the restoration of the "Queen Victoria casket", gifted by Queen Victoria in 1865. Manufactured *"for the purpose of holding the volume of his late Royal Highness the Prince Consort's speeches, recently presented to the Parliamentary Library of Queensland by her Majesty the Queen"*. The casket was made locally by Sinel and Bryer and was included in the Brisbane Exhibition of 1866.

5. War Service Honour Board

As part of the Armistice Day Centenary in 2018, Queensland Parliament commissioned the War Service Honour Board to commemorate the service and sacrifice of former Queensland Parliament Members. The Honour Board is located outside of the Legislative Assembly Chamber and features the names of 110 former Members who saw active service in conflicts up until 1975. There are now 117 entries displayed on the board. One former member having served in 3 conflicts, and five former Members each served in 2 conflicts.

In 2022-2023, the Parliamentary Library undertook extensive research to determine which former members of the Queensland Parliament served in post 1945 military events. This research informed an update to the Parliament's War Service Honour Board in early 2023. As a result, the names of 14 members who served in the following conflicts have been added to the Honour Board:

- Vietnam War (1962-1975),
- Indonesian Confrontation (1963-1966), and
- Malayan Emergency (1948-1960).

6. Restoration of Heritage Maps

During the 2022 Parliamentary Library Collection weeding project, several highly significant maps were rediscovered from various storage locations across the precinct. In total there were 10 maps deemed historically significant. These maps have been held by the Parliament since at least 1899, where they can be found listed in O'Donovan's 'Analytical and Classified Catalogue of the Library of the Parliament of Queensland'. The conservation of these historically significant maps allows them to be displayed from time to time and shared with the people of Queensland.

The conservation works have been carried out by RSM Art Conserve in Brisbane, one of the few large format paper conservation specialists in Australia. RSM Conserve has been contracted previously by the Library for the conservation of the Stanford Maps, which have been successfully restored and once again on display in the O'Donovan Library.

7. Digital Preservation

Approved by the Executive Leadership Team, the Towards a Digital Preservation Strategy is being implemented over the next three years. The strategy seeks to ensure the accessibility and longevity of the Parliament's significant digital information collections (and in particular, those collections with a permanent retention status).

The strategy includes the following actions:

- Establishing an internal digital preservation community of practice to provide a forum to share expertise across the organisation.
- Transitioning to a number of sustainable file formats providing the best chance of managing the risks to content being readable in 50 years or more.
- Defining a minimum set of metadata to enhance discoverability regardless of the system in which the information is stored.
- Conducting an annual digital collection risk assessment focussing on volume, growth, formats and technical dependencies.

8. Heritage Management Group

The Heritage Management Group (HMG) was established in August 2021 as a sub-committee of the Executive Leadership Team. The group meets on a quarterly basis. Chaired by the Director of Information Services and Parliamentary Librarian, the purpose of the group is to:

- Lead the coordination, identification, management, preservation and conservation of the Parliament's heritage collections and assets; and
- To make Parliament and its history more accessible to Queenslanders through exhibitions, historical seminars and online channels – with a view to promote greater understanding of the institution.

The 2023 – 2024 work program for HMG includes:

- Overseeing the implementation of the new Vernon Heritage Management system
- Responding to the findings of the Digital Collections Audit
- Connecting with PS Heritage Collections of importance
- Identifying opportunities for heritage promotion.

Question on Notice 8

Page 1 of the Service Delivery Statement provides that one of the Parliamentary Service's objectives is to 'safeguard, promote and strengthen the important institution of Parliament'. Can the Speaker outline the Parliamentary Service's involvement in the Far North Queensland regional sitting that occurred in May 2023?

SPEAKER'S RESPONSE

The Queensland Parliament held a regional sitting in Cairns during May 2023.

The following electorates were included in the Far North Queensland region for the purposes of the regional sitting:

- Cook
- Barron River
- Cairns
- Mulgrave
- Hill
- Traeger
- Hinchinbrook

The project management and implementation of the regional sitting was a combined effort between the Parliamentary Service and the Executive Government. As in previous regional parliaments, project governance consisted of:

- the Executive Planning Committee (EPC) - comprised of the Speaker, representatives from the Parliamentary Service, the Speaker's Office, the Premier's Office, the Leader of the House's office, DPC and the Queensland Police Service (QPS); and
- the Parliamentary Service Internal Working Group (IWG) - comprising of Parliamentary Service officers involved in the planning of the regional sitting.

The venue for the regional sitting was the Cairns Convention Centre. The parliamentary precinct was established at the Centre, including the Legislative Assembly Chamber, offices and Members' areas, as well as space for education and community engagement activities.

To increase engagement, the Parliamentary Education team coordinated various school visits and a Public Service Seminar in the Far North in the weeks preceding the regional sitting.

The community engagement activities conducted during the sitting week included:

- a Youth Parliament conducted on Monday 8 May 2023;
- a Welcome ceremony on Tuesday 9 May 2023;
- a school education program, across the three days of sittings, with students from the Far North Queensland region attending the sitting and receiving a briefing on the Parliament and Queensland's democratic system and other education activities;
- an evening Question Time from 6:00pm to 7:00pm on Wednesday 10 May 2023;
- a State Reception held on the City Terrace at Cairns Convention Centre on Thursday 11 May 2023; and
- a Junior Indigenous Youth Parliament held on Friday 12 May 2023.

Additionally, there was also information, photograph and parliamentary artefact displays by the Parliamentary Service.

All Members of Parliament's travel and accommodation requirements were coordinated by the Parliamentary Service.

A functional parliamentary precinct, including the Chamber and office accommodation, was delivered on time and the delivery of the operational and logistical aspects of the regional sitting was a success. Members reported strong satisfaction with the Parliamentary Service's delivery of the regional sitting. In response to the survey question - how would you rate the performance of the Parliamentary Service in delivering the Regional Sitting – 90 per cent of Members were satisfied or very satisfied.

The proceedings were recorded by Hansard and broadcast live on Parliament TV. Members and staff were provided with wireless internet access to the Parliamentary network and access to printers, scanners and photocopy devices.

It is estimated that in excess of approximately 3,300 members of the general public, teachers and school children attended the sitting over the five days.

A highlight of the regional sitting was the attendance of Her Excellency the Honourable Dr Jeannette Young AC PSM, Governor of Queensland and Her Excellency's participation in the Junior Indigenous Youth Parliament program.

Question on Notice 9

The Service Delivery Statement makes reference to Parliamentary Precinct Support Services. Could the Speaker detail the Queensland produce included in the dining choices offered at the Parliamentary precinct?

SPEAKER'S RESPONSE

Parliamentary Catering Services continue to be passionate about supporting local Queensland producers.

Our Catering team set aside time each month to research and actively pursue opportunities to work with local businesses. An example of this is a partnering relationship created with Summer Land Camels, whose hand wash we use in our premium dining outlets. Some of our other local suppliers include 9Dorf Farms, Brisbane Valley Quail, Red Ridge Produce, Gold Coast Bakeries, The Cheeseboard, Mountaintop Mushrooms, Burleigh Barr Distributions, Sirromet Wines, Symphony Hill Wines.

The Catering team encourage the suppliers we work with to join the Queensland Government Food and Beverage Directory, if they are not included already to improve their access and profile among other potential public sector clients.

We actively use our Microsite to promote local partnerships with The Cheeseboard, Mineral Water Direct and Passport Speciality Coffee all recently featured in 'Supplier Spotlight' stories on this dedicated Catering and Dining site.

A key strategy in our Catering Sales and Marketing Plan is regular ticketed and partnership events in Strangers' Restaurant. The goal is to engage with new customers and showcase local Queensland producers. An example of this is the upcoming degustation event on 25 August where we are partnering with Golden Grove Estate and Storm King Wine Co.

Question on Notice 10

Budget Paper 3 (Capital Statement) makes reference to the Electorate Office Accommodation Program budget of \$2.110 million. Can the Speaker outline proposed works to be delivered as part of this program?

SPEAKER'S RESPONSE

The Parliament's capital budget for 2023-24 provides for \$2.110 million in 2023-24 for the Electorate Office Accommodation Improvement Program as follows:

| OFFICE | DESCRIPTION |
|--------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Burleigh | <ul style="list-style-type: none"> Office relocation originally scheduled as a result of 2019 Electoral Redistribution. Much of the site work has been completed. Additional works are required to make completed lessor works compliant. |
| Burdekin | <ul style="list-style-type: none"> Site design completed and tender issued for works Relocation expected to be delivered in September 2023 |
| Moggill | <ul style="list-style-type: none"> Current tenancy is part of major shopping centre redevelopment Relocation is required to another tenancy in the new development |
| Miller | <ul style="list-style-type: none"> Site is undersized relative to other offices and does not meet the current fit-out and security standards New site has been identified at Yeerongpilly Green. |
| Noosa | <ul style="list-style-type: none"> Long term lease on tenancy Minor renovation planned to improve quality to current standards, rather than a full relocation |
| Lockyer | <ul style="list-style-type: none"> Long term lease on tenancy Minor renovation planned to improve quality to current standards, rather than a full relocation |
| Clayfield | <ul style="list-style-type: none"> Long term lease on tenancy Minor renovation planned to improve quality to current standards, rather than a full relocation |
| Cairns | <ul style="list-style-type: none"> Relocation planned as current site no longer meets minimum security and fit out standards. |
| Nanango | <ul style="list-style-type: none"> Current site is undersized with lack of suitable parking and amenities Current site no longer meets minimum security and fit out standards. |
| Scenic Rim | <ul style="list-style-type: none"> Site is flood affected and not able to be easily mitigated. |
| Logan | <ul style="list-style-type: none"> Current tenancy is outside the electorate boundary. There have been problems locating suitable new tenancies in preferred location. |
| Maryborough | <ul style="list-style-type: none"> Tenancy is under sized has security and fit out issues that cannot be overcome with a renovation. |

Question on Notice 11

Will the Speaker please provide an itemised list (including cost) of completed capital upgrades to electorate offices for 2022-23, and anticipated upgrades for 2023-24?

SPEAKER'S RESPONSE

Overview of the Electorate Office Accommodation Improvement Plan

Each year, the Parliamentary Service coordinates a variety of improvements to electorate office accommodation. In certain circumstances, it is necessary to relocate an electorate office, or provide significant improvements to an existing office.

Because of the costs associated with relocations or significant improvements, before approving such works, the Speaker will take into consideration a number of issues:

- Existing leasing obligations.
- Availability of suitable alternative accommodation (alternative meets certain criteria including size, location, equitable access, annual rent, and the likely costs to the Parliament to effect the relocation).
- Available funding.

A further complicating factor that can arise is when a landlord elects not to renew a lease at the end of a lease term. This situation results in an unplanned, forced relocation. There have been several such circumstances in recent years and these obviously impact on the planned relocation program.

As a result of these constraints, it is not always possible to deliver the annual relocation/refurbishment program set at the beginning of any given year. Indeed, it is not uncommon for planned relocations/refurbishments to be deferred for one (1) or even two (2) years until suitable circumstances exist in which the works can proceed.

During the 2022-23 year, six (6) electorate office relocations were progressed however no relocations reached full completion. The summary on the following page indicates current status of each approved project and expenditure during 2022-23.

In Progress 2022/23 Electorate Office Relocations

| ELECTORATE | OFFICE STATUS | 2023-23 Expenditure |
|-----------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------|
| Burleigh | <ul style="list-style-type: none"> Office relocation originally scheduled as a result of 2019 Electoral Redistribution. Much of the site work has been completed. Delays occurred due to legal dispute with lessor. Additional work are required to make completed lessor works compliant. | \$6,568 |
| Traeger Mt Isa | <ul style="list-style-type: none"> Increased costs associated with materials and lack of local suppliers to undertake works Expect relocation to occur prior to 30 July 2023. | \$517,966 |
| Pine Rivers | <ul style="list-style-type: none"> Awaiting Lessor certification document for building approval. Lessee defects completed. Expect relocation to occur prior to 30 August 2023. | \$223,713 |

| ELECTORATE | OFFICE STATUS | 2023-23 Expenditure |
|-----------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------|
| Burdekin | <ul style="list-style-type: none"> Tender for building works has closed. Negotiations underway regarding lessor works to be performed. Works to occur in 2023-24 | \$31,216 |
| Miller | <ul style="list-style-type: none"> Lease negotiations at preferred site underway. Office design in progress. Protective Services engaged to commence Threat and Vulnerability assessment. Works to occur in 2023-24 | Nil (planning only) |
| Moggill | <ul style="list-style-type: none"> Lease negotiations at preferred site underway. Office design completed. Works to occur in 2023-24 | Nil (planning only) |

Electorate Office Security Upgrade - CCTV

The Parliament's budget for 2022-23 included additional funding to upgrade security in Members' electorate offices through installation of a standardised closed circuit television (CCTV) surveillance system in each of the 97 office sites across Queensland.

Of the total 97 electorate office sites, installation has been completed at all but three sites. One site has been delayed pending current negotiations with the landlord's representative, while two other sites are being upgraded from a previously installed system to the current uniform system deployed to all other offices.

Total expenditure for the project in 2022-23 is \$626,423.

2023-24 Planned Electorate Office Improvements

The Parliament's capital budget for 2023-24 provides for \$2.110 million in 2023-24 for the Electorate Office Accommodation Improvement Program as follows:

| OFFICE | DESCRIPTION |
|-----------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Burleigh | <ul style="list-style-type: none"> Office relocation originally scheduled as a result of 2019 Electoral Redistribution. Much of the site work has been completed. Additional works are required to make completed lessor works compliant. |
| Burdekin | <ul style="list-style-type: none"> Site design completed and tender issued for works Relocation expected to be delivered in September 2023 |
| Moggill | <ul style="list-style-type: none"> Current tenancy is part of major shopping centre redevelopment Relocation is required to another tenancy in the new development |
| Miller | <ul style="list-style-type: none"> Site is undersized relative to other offices and does not meet the current fit-out and security standards New site has been identified at Yeerongpilly Green. |
| Noosa | <ul style="list-style-type: none"> Long term lease on tenancy |

| OFFICE | DESCRIPTION |
|--------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | <ul style="list-style-type: none"> Minor renovation planned to improve quality to current standards, rather than a full relocation |
| Lockyer | <ul style="list-style-type: none"> Long term lease on tenancy Minor renovation planned to improve quality to current standards, rather than a full relocation |
| Clayfield | <ul style="list-style-type: none"> Long term lease on tenancy Minor renovation planned to improve quality to current standards, rather than a full relocation |
| Cairns | <ul style="list-style-type: none"> Relocation planned as current site no longer meets minimum security and fit out standards. |
| Nanango | <ul style="list-style-type: none"> Current site is undersized with lack of suitable parking and amenities Current site no longer meets minimum security and fit out standards. |
| Scenic Rim | <ul style="list-style-type: none"> Site is flood affected and not able to mitigated. |
| Logan | <ul style="list-style-type: none"> Current tenancy is outside the electorate boundary. There have been problems locating suitable new tenancies in preferred location. |
| Maryborough | <ul style="list-style-type: none"> Tenancy is under sized and has security and fit out issues that cannot be overcome with a renovation. |

Question on Notice 12

Will the Speaker please detail the maintenance costs of electorate offices for 2022-23, by office?

SPEAKER'S RESPONSE

The total maintenance cost for each office is a combination of the following:

- Reactive/Breakdown maintenance (e.g. emergency plumbing, electrical, security repair)
- Service Maintenance (e.g. Test and Tag, Security System, Emergency Lighting, Fire Portables, Auto Door, Testing of the Electrical Circuit Protection)
- Furniture Replacement
- Appliances

| Electorate | Maintenance Costs 2022-23 |
|----------------------------------------|----------------------------------|
| ALGESTER ELECTORATE OFFICE | 3,854.21 |
| ASPLEY ELECTORATE OFFICE | 3,019.99 |
| BANCROFT ELECTORATE OFFICE | 2,059.62 |
| BARRON RIVER ELECTORATE OFFICE | 1,770.23 |
| BONNEY ELECTORATE OFFICE | 4,001.83 |
| BROADWATER ELECTORATE OFFICE | 2,203.58 |

Question on Notice 13

Will the Speaker please advise what progress was made in 2022-23 regarding telecommunication upgrades for the Parliamentary Service and electorate offices?

SPEAKER'S RESPONSE**Improvements under the Electorate Office Technology Model (EOTM)**

In 2021-22, the PS completed significant upgrades to the Electorate Office (EO) telecommunications, including:

- An upgrade of Electorate Offices' internet connection from 20-30Mbps to 100Mbps.
- The establishment of a 4G backup for all EOs that automatically kick in to provide continued Internet access if the 100Mbps link is disrupted.
- The implementation of greater security controls through deployment of an Endpoint Detection and Response Platform to detect and quarantine potentially malicious emails and computer viruses.
- The migration of office productivity tools to Office365, including the provisioning of Microsoft Teams for video conferencing and collaboration.

Improvements in 2022-2023

There were a number of enhancement to telecommunication upgrades at the precinct and/or electorate offices during the past 12 months.

1. Wi-Fi and Switch Replacement

The Wi-Fi and Switch Replacement project was a separate activity funded by the Parliamentary Service. The project involved replacing all Wi-Fi access points in Electorate Offices by May 2022 with the Precinct upgrades completed by November 2022. The SSIDs, the network names that appear on your device when you try to access the PS Wi-Fi, are now consistent across Electorate Offices and the Precinct so that Members can experience a seamless transition when moving between each site.

No switches were needed to be replaced at Electorate Offices as they are a less complex network environment due to their size, and use routers provided by CITEC to access the Internet and PS resources via the Queensland Government Regional Network (QGRN).

2. Integration with Ministerial Services Branch (MSB) networks

The IT teams at Parliament and MSB are working towards greater integration between the two ICT environments to create a more seamless experience for Ministers. This will enable Ministers to securely connect to the MSB network via the Parliamentary Service Wi-Fi on the Precinct and Electorate Offices as if they were in their Ministerial Offices.

Technology has advanced to such a point today that it can permit MSB networks to run securely and separately on PS infrastructure. Planning for this enhancement will be finalised once approvals are in place.

3. Switching infrastructure replacement

IT Services replaced all IT backend switching infrastructure in 2022-23 and in 2023-24 will replace and consolidate the three other distinctly separate networks into the IT network running throughout the precinct.

This will ensure ubiquitous wired connectivity throughout the Precinct, enable MSB to consolidate their networking infrastructure onto PS devices without jeopardising security, and remove duplicate devices no longer required due to advances in technology.

4. Telephony Services

Call routing (as known as IVR) was introduced in some Electorate Offices to automatically route calls to government departments when a high volume of calls were continually being received on a specific issue (for example, during the COVID response).

Question on Notice 14

Will the Speaker please provide a breakdown of the funding and FTE allocation for Parliamentary Committees for 2023-24, by committee?

SPEAKER'S RESPONSE

Support for the committee system is provided through the committee office. The 2023-24 budget for the committee office is \$5,489,973.

The committee office is budgeted for 35.8 FTEs and is the largest service area within the Parliamentary Service.

Generally, each committee is staffed with a Committee Secretary, Assistant Committee Secretary and Committee Support Officer, along with the Technical Scrutiny Secretariat and the three Inquiry Secretary positions, which are shared across portfolio committees. The office implements a flexible approach to resourcing committees, and staffing resources are allocated to reflect the varying workloads of each committee at different times. This approach has proven effective in ensuring committee support needs are met.

The travel budget for committees is a 'pooled' amount of \$304,745. Speaker approval is required for a committee to travel when the cost is anticipated to be over \$30,000 for that committee in any one year. The travel budget and advertising budgets are managed and monitored centrally. Administrative expenditure does not have a centralised approval process so a budget has been allocated to individual committee secretariats for management.

The overall funding breakdown and FTE allocation for committees for 2023-24 is set out in the table below.¹

| | | |
|-------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| Committee Office | Includes salary costs for First Clerk Assistant (Committees) @ SO level, Committee office overheads, committee travel budget of \$304,745, pooled advertising budget of \$10,000. | 580,550 |
| Committee Secretaries | 9 FTEs @ AO8 level plus on-costs | 1,508,999 |
| Inquiry Secretaries | 3 FTEs @ AO7 level plus on-costs | 439,751 |
| Assistant Committee Secretaries | 11.6 FTEs @ AO6 plus on-costs NB the following staff resources are not included in the FTE count: <ul style="list-style-type: none"> 1.0 FTE allocated to Legal Compliance officer (located in Deputy Clerk office but provides support) 0.2 FTE (vacancy allocated to fund external panel of human rights advice when required) | 1,569,583 |
| Committee Support Officers | 1 FTE @ AO5 plus on-costs 1 FTE @ AO4 plus on-costs 8 FTEs @ AO3 plus on-costs | 960,832 |
| Economics and Governance Committee | Minor budget for printing, office telephones, incidentals | 14,780 |

¹ The committee office budget also includes funding for the Office of the Parliamentary Crime and Corruption Commissioner which is not reflected in this table.

| | | |
|------------------------------------------------------------|--------------------------------------------------------------------------------------|--------|
| Education, Employment and Training Committee | Minor budget for printing, office telephones, incidentals | 14,780 |
| Health and Environment Committee | Minor budget for printing, office telephones, incidentals | 15,280 |
| Community Support and Services Committee | Minor budget for printing, office telephones, incidentals | 16,002 |
| Legal Affairs and Safety Committee | Minor budget for printing, office telephones, incidentals | 16,002 |
| State Development and Regional Industries Committee | Minor budget for printing, office telephones, incidentals | 14,780 |
| Transport and Resources Committee | Minor budget for printing, office telephones, incidentals | 14,778 |
| Parliamentary Crime and Corruption Committee | Minor budget for printing, office telephones, incidentals | 10,873 |
| Ethics Committee | Minor budget for printing, office telephones, incidentals | 4,351 |
| Technical Scrutiny Secretariat | Minor budget for human rights panel advice, printing, office telephones, incidentals | 32,343 |

Question on Notice 15

Will the Speaker please provide a list of items confiscated by Parliamentary Security in 2022-23?

SPEAKER'S RESPONSE

All visitors to Parliamentary buildings who do not hold Parliamentary ID access swipe cards must enter through a full security screening.

Signage at each scanner point identifies "restricted or prohibited items" as:

- a) A weapon of any type from which an arrow, bullet, shot or other missile can be discharged;
- b) An explosive device; or
- c) Anything else that could cause or be used to cause-
 - death or grievous bodily harm to a person; or
 - a fire or explosion or damage to property.

If a visitor is found to have a prohibited item which is considered to be an illegal weapon (as outlined in section 2 above) the Sergeant-at-Arms and or Police are contacted immediately.

Visitors found to have prohibited items are advised that the items must be held by security pending their departure from the complex.

When a prohibited item is held at the Security entry point:

- details of the item are recorded in the *Prohibited Items Register* which is signed by the visitor and Parliamentary Security Officer; and
- the visitor is provided with a receipt.

Upon departure, the visitor returns the receipt they were issued, the Parliamentary Security Officer and visitor both sign the *Prohibited Items Register* to note that the item has been returned to the owner.

If the prohibited item belongs to a juvenile, the accompanying adult is asked to complete the entry in the *Prohibited Items Register*. Upon departure, the item is returned to the adult.

In 2022-23 there were a total of 43 visitors who surrendered items to Security pending their departure from the buildings.

| Category of visitor | Number of persons with prohibited items | Types of Items held at Security |
|-----------------------------------------------|-----------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------|
| Students (Approx. 12,500 processed) | 2 | <ul style="list-style-type: none"> • Pocket Knives |
| Visitors (Approx. 77,500 processed) | 41 | <ul style="list-style-type: none"> • Pocket knives • Knife & holster • Scissors • Multi tools |

Question on Notice 16

With reference to page 7 of the Service Delivery Statement, will the Speaker please provide a breakdown of 'user charges and fees' received in 2022-23?

SPEAKER'S RESPONSE

The Parliamentary Service generates revenue from the sale of goods and services such as catering services, corporate services provided to client agencies, and educational activities.

The 2022-23 Actual revenue earned from 'User charges and fees' was \$2.596M from:

| Description | 2021-22 Actual Revenue (\$) |
|--------------------------------------------------------------------------------------------|------------------------------------|
| Catering operations – internal catering, external functions/events | 1,934,000 |
| Education seminar revenue (fee for service) | 243,500 |
| Car parking charges (staff) | 188,700 |
| Shared services revenue (corporate finance, HR and IT services provided to agency clients) | 183,700 |
| Media license fee - access to on-site facilities | 35,600 |
| 10% finance charge (late payment fees) for outstanding catering accounts | 10,500 |
| Total | \$2,596,000 |

Note the revenue earned from increased catering and education activities is used to help offset the cost to the Parliamentary Service of running these activities. Receipts from car parking charges are used to offset related car parking fringe benefits tax costs.

Question on Notice 17

With reference to page 8 of the Service Delivery Statement – specifically the projected \$36 million increase in property, plant and equipment in 2023-24 – will the Speaker please provide a breakdown of this increase by asset type and associated upgrade/project?

SPEAKER'S RESPONSE

The controlled balance sheet on page 8 of the SDS reflects estimated total property, plant and equipment in 2023-24 of \$293.233 million, compared to an estimated value for 2022-23 of \$257.187 million.

The land and buildings in the parliamentary precinct account for the majority of the asset value represented in the balance sheet.

The increase in asset value for 2023-24 (approximately \$36 million) relates mainly to the property, plant and equipment acquisitions budgeted for 2023-34. These include:

- Completion of Parliamentary Annexe Tower Refurbishment (\$32.015 million)
- Electorate Office accommodation improvement program (\$2.110 million)
- Parliamentary Digital Transformation program (\$0.856 million)
- Information technology network infrastructure (\$0.406 million)
- Other items of property plant and equipment (\$1.484 million)

Question on Notice 18

Will the Speaker please provide the total cost to the Parliament to date of legal fees associated with the case involving Mr Peter Carne's attempt to prevent the release of a CCC report and the case involving Ms Jackie Trad's attempt to prevent the release of a CCC report, reported separately?

SPEAKER'S RESPONSE

The total expenditure to date for the Carne matter is \$167,306.53.

The total expenditure to date for the Trad matter is \$14,218.75.

Question on Notice 19

With reference to Questions on Notice, will the Speaker please advise, for 2022-23:

- a) The number of responses received from Ministers after the 30-day deadline;**
- b) The number of responses sent back to Ministers for re-answering prior to tabling;**
- c) The number of letters of complaint received from Members asking for questions to be re-answered; and**
- d) The number of responses sent back to Ministers for re-answering after receiving a letter of complaint?**

SPEAKER'S RESPONSE

In the 2022-23 financial year 1,517 Questions on Notice were asked and due to be answered during the 2022-23 financial year.

- (a) Out of the 1,517 Questions on Notice asked and due to be answered during the period, 114 responses were published after the due date (approximately 7.51%). Of the late responses, 54 (approximately 47%) were the subject of compliance issues raised by the Clerks-at-the-Table or (to a much lesser extent) the Minister appealing to the Speaker about the question asked.
- (b) Out of the 1,517 questions asked and due to be answered during the period, compliance issues were identified by Clerks-at-the-Table in 66 responses and returned to Ministers for re-answering prior to publication (approximately 4.35%). The primary reasons for non-compliance included: responses not providing the information requested by Members, with no explanation provided as to why it was not possible to provide the information in the terms requested by the Member; responses containing gratuitous political statements not relevant to the question asked; and Members being directed to a generic website or series of reports without a specific reference to the location of the answer.
- (c) In 2022-23, 11 letters of complaint were received by the Speaker from Members asking for questions to be re-answered.
- (d) In response to the letters of complaint in (c), responses were sent back to Ministers for re-answering on three occasions.

Question on Notice 20

With reference to the intended modernisation of AV broadcast infrastructure budgeted for 2023-24, will the Speaker provide a list of proposed purchases as part of this upgrade?

SPEAKER'S RESPONSE

Currently, much of the AV broadcast and audio systems in the Green and Red Chambers, and Committee Rooms are near end-of-life. There are increasing problems with reliability and sourcing replacement parts. These technology components are critical to the operations of the Legislative Assembly and parliamentary committees, ensuring these proceedings can be heard, recorded and broadcast to the general public.

The types of equipment requiring replacement include:

- Self-selecting microphone system in the Green Chamber at each Member's seat.
- The audio and sound distribution systems in each location.
- Broadcast cameras and video editing suites for Parliament TV.
- Hearing Loops for people with hearing impairments.
- Backend supporting infrastructure.

The delivery of the Parliamentary Information Management System will continue the ongoing evolution of the Queensland Parliament 'E-Democracy' journey that commenced with the first audio broadcast of Parliament in 2003, video broadcast in 2006, and on-demand video archives in 2010.

AV technology has seen a technology shift in the last 10 years, and is now being hosted and distributed on IP networks where previously it operated on legacy distribution systems with dedicated cables and wires. This technology change requires additional investment, with existing distribution systems becoming redundant.

The replacement of AV broadcasting infrastructure will enable the Queensland Parliament to continue to reliably record and broadcast the proceedings of the Legislative Assembly and Parliamentary Committees.

The AV broadcast infrastructure used to produce Parliament TV will need to be replaced while the House is not sitting between the last Sitting week of the year and the first of the following year (i.e. December 2023 through to February 2024).

The strategy also includes relocating the purpose-built Committee Rooms (currently located on Level 6 of the Parliamentary Annexe) to lower levels of the Annexe as part of the current refurbishment works. Some of the new spaces on the ground floor of the Annexe are currently being used as office decant spaces for Members of Parliament during the construction phase of the Parliamentary Annexe. The AV broadcast infrastructure for these spaces will be best replaced as part of the planned migration of the Committee Rooms in 2024.

**Estimates Question on Notice
No. 1
Asked on 10 July 2023**

QUESTION:

With reference to page 1 of the Service Delivery Statement and the government's objective to support good, secure jobs in our traditional and emerging industries, can the Premier advise on measures in the 2023 budget to deliver on these objectives?

ANSWER:

The Queensland Government's economic recovery plan has supported the strongest jobs growth in the nation out of the pandemic with 278,800 more jobs since March 2020.

Over the next year, Queensland's economy is set to grow at 3% or twice as fast as the nation.

To support more good jobs, the 2023–24 Budget funds a record four-year capital program of \$89 billion. This 'big build' is expected to support 58,000 construction jobs in 2023–24, including 38,500 jobs outside greater Brisbane.

This infrastructure investment includes implementing the *Queensland Energy and Jobs Plan* with around \$19 billion over the forward estimates for renewable energy and storage projects; up to 7,000 megawatts of large-scale, long duration pumped hydro; and CopperString 2032.

Our Government's \$5 billion investment in CopperString 2032 will support around 800 jobs during construction, and thousands more in mining critical minerals and renewable energy industries by unlocking the North West Minerals Province.

In recognition of the ongoing importance of mining, the Budget allocates \$520 million for the Low Emissions Investment Partnerships Program to encourage the industry to fast-track emissions reduction and to maintain a competitive edge. In addition to the \$68.5 million committed under the *Queensland Resources Industry Development Plan* to help guide the industry's diversification, the Budget allocates a further \$21 million for Frontier Gas Exploration grants to help unlock gas resources in the Bowen and Galilee basins.

The Budget also invests \$1.2 billion in skills and training in 2023–24, including the continuing Skilling Queenslanders for Work program, which has offered training to 76,000 people and helped 49,000 people secure a job since 2016. A \$70 million Action Plan 2022–25 under the *Queensland Workforce Strategy 2022–2032* aims to grow skills industry needs.

Government has established the \$520 million Invested in Queensland program (part of the \$5.84 billion Queensland Jobs Fund), the \$100 million Critical Minerals and Battery Technology Fund, and \$200 million Attracting Aviation Investment Fund. The Budget also continues our flagship Advance Queensland initiative, helping to leverage over \$1 billion from industry partners and supported over 27,000 jobs, including 11,200 jobs in the regions.

Queensland's highly competitive tax regime continues as this Budget extends the one per cent payroll tax rate discount for regional employers to 30 June 2030, and the 50 per cent payroll tax rebate for apprentices and trainees for a further 12 months until 30 June 2024.

Estimates Question on Notice
No. 2
Asked on 10 July 2023

QUESTION:

Referring to page 14 of the Service Delivery Statement and the commitment to youth hubs in Mount Isa and Townsville, how does the budget support a whole-of-government response on youth justice to support community safety?

ANSWER:

Page 14 of the Department of the Premier and Cabinet's Service Delivery Statement refers to \$400,000 to scope and support enhanced coordination of youth justice, early intervention and prevention services in Mount Isa and Toowoomba.

The Department of the Premier and Cabinet (DPC) will work with key stakeholders to identify local challenges and issues in these communities, to provide better coordinated and locally relevant responses to the underlying causes of youth offending.

Early intervention and prevention is a key priority and this investment will help identify appropriate place-based responses and programs.

This is part of our Government's significant commitment to responding to youth crime, including addressing the complex needs of serious high-risk offenders, delivering evidence-based programs and increased frontline resources, increasing support to the community to prevent crime, and enhancing assistance to victims.

We continue to fund programs and services that the evidence tells us are effective in reducing reoffending and increasing community safety, working in partnership with community-controlled organisations and communities to deliver services and tailor support for First Nations young people.

In December 2022, the Government announced a 10-point plan including strengthened laws and further investment in youth justice, including boosting policing and investing in programs that respond to the complex needs of serious repeat offenders. The plan is now backed by investment of \$446.4 million over five years, with \$33.7 million per annum ongoing, towards a comprehensive youth justice reform program.

This includes funding of \$132 million over four years to assist Queenslanders with crime prevention and providing support to victims. Of this \$132 million, \$64 million is for policing responses, including the high-visibility patrols and specialist youth crime rapid response squads, up to \$30 million to help seniors secure their homes, \$10 million for the trial of vehicle immobilisers in Cairns, Townsville and Mount Isa, and \$9 million to respond better to victims of property crime where violence or a threat of violence has occurred.

To help break the destructive cycle of offending, the Government's significant investment announced this year includes \$267.5 million in programs that focus on addressing the complex causes of youth crime. Within this is \$96.2 million over four years to continue the co-responder

model and expand teams into Toowoomba, Mount Isa, Ipswich, South Brisbane, and the Fraser Coast.

The Government knows that Queensland's young offenders – especially serious repeat offenders – are young people with a range of complex issues, which can include drug and alcohol use, mental health issues, disability, and childhood trauma. That is why the Youth Crime Taskforce uses intensive multi-agency case management of high-risk repeat youth offenders to ensure the intervention is effective and addresses the underlying causes of offending.

No. 3
Asked on 10 July 2023

QUESTION:

In respect of page 4 of the Service Delivery Statement, can the Premier outline to the committee the integrity reform enhancements implemented by Government and how this budget supports these?

ANSWER:

I am advised that in the 2023–24 Queensland Budget, the government is providing additional funding of \$6.1 million over 4 years and \$1.3 million ongoing to implement recommendations from the *Let the sunshine in: Review of culture and accountability in the Queensland public sector report* (Coaldrake Report) including for Cabinet material to be proactively released in due course.

In addition, funding of \$4.1 million over 5 years from 2022–23 (of which \$2 million is held centrally) and \$958,000 per annum ongoing from 2027–28 is provided to enhance the functions of the Office of the Queensland Integrity Commissioner (OQIC) in relation to capability and competency building across the public sector and support the OQIC's independence.

Ten recommendations from the Coaldrake Report are now complete, with the *Integrity and Other Legislation Amendment Act 2022* (the Act) strengthening the Auditor-General's independence as an officer of the Parliament, with both staffing and operational independence.

The Act also established the Office of the Queensland Integrity Commissioner (OQIC), giving the Integrity Commissioner independent control of their office. The Integrity Commissioner cannot be directed by anyone regarding their function, office and staff.

This budget will assist the OQIC to develop and deliver a compulsory lobbyist training module, training for ministerial and public sector staff, and deliver an uplift of the public-facing OQIC website. The new fit-for-purpose Lobbying Register platform, accessible via the OQIC's website, went live on 30 May this year.

The Public Sector Commission has been provided with funding of \$18.6 million over five years and \$4.2 million per annum ongoing to focus on rejuvenating the capability and capacity of the Queensland public sector.

Stemming from the Coaldrake report recommendation, a policy has been implemented for the Public Sector Commission and an independent Director-General, to oversee the investigation of complaints made against senior public sector employees. In addition, agency chief executives are now initially appointed via fixed-term, five-year contracts under the *Public Sector Act 2022*.

The review of the *Public Interest Disclosure Act 2010* has been completed, with the Honourable Alan Wilson KC delivering their report in June this year, after seeking an extension from government to complete their report.

The Coaldrake Report recommended “*consideration be given to the establishment of a technology-enabled clearing house*” for handling of complaints. This was thoroughly investigated but was found to be unviable, both financially and technologically. In its place, an approach to improving complaints handling has been implemented. To this end a redeveloped whole-of-government complaints webform and new webpage went live in January this year and a new Customer Complaint Management Framework has been developed to ensure complaints across government are managed in a timely, people-focused and proactive manner.

Further to this, a review occurred to ensure the Crime and Corruption Commission can strike the right balance between its prevention and investigative responses to ensure the most critical matters are identified and referred for investigation.

Of the four remaining recommendations, implementation action is well underway. A further Bill has been introduced into the Queensland Parliament which is currently being considered by a parliamentary committee and this budget will support the continued implementation of these integrity enhancements arising from the Coaldrake Report and contribute to enhancing Queensland’s Integrity Framework.

Estimates Question on Notice
No. 4
Asked on 10 July 2023

QUESTION:

With reference to page 22 of the Service Delivery Statement and the objective to deliver the highest quality of services and outcomes for all Queenslanders, can the Premier outline how this budget is supporting public sector employees to deliver for Queensland, in particular growth of frontline staff?

ANSWER:

Our government's investment in essential services lies at the forefront of driving enduring social and economic outcomes for Queenslanders.

The 2023-24 Queensland Budget continues to build on significant investments already made in service delivery, including in health, education, justice (including youth), safety and social services.

I am advised that across Queensland, 91 per cent of Queensland public sector employees are frontline or frontline support.

The Budget includes \$25.791 billion in total health funding and \$21.104 billion in total education and training funding in 2023–24, as well as significant levels of ongoing expenditure to safeguard and protect communities.

Our government has also provided additional funding and resources to the Public Sector Commission to support the Queensland public sector become an even better public sector for Queensland. This important work will ensure that Queenslanders have a public service equipped to deliver the services they need, now and into the future.

I am advised by the Public Sector Commission that between March 2015 and March 2023 our government has delivered:

- 5,945 more teachers
- 1,471 more teacher aides
- 11,227 more nurses
- 5,275 more health practitioners
- 3,407 more doctors
- 1,242 more ambulance officers
- 674 more police officers; and
- 285 more firefighters.

**Estimates Question on Notice
No. 5
Asked on 10 July 2023**

QUESTION:

In respect of page 7 of the Service Delivery Statement, can the Premier advise how the Office for Rural and Regional Queensland is delivering benefits for Queenslanders?

ANSWER:

The Office for Rural and Regional Queensland (ORRQ) was established in 2019 to expand the Queensland Government's regional presence, facilitate inter-agency regional priorities and deliver Regional Community Forums – aimed at strengthening government's partnerships with regional Queensland and creating opportunities for those living in regional, rural and remote locations to influence government decision making.

ORRQ's regional officers engage with their local communities to ensure regional perspectives are included in policy development, decision making and program implementation and communicate local issues to relevant agencies. Through these processes, regional voices support informed decision-making and regionally conscious policy development.

The ORRQ's Regional Community Forum program provides a unique opportunity for community, industry, local government representatives, Queensland Government Ministers and officials to collaborate to improve regional outcomes.

Supported by ORRQ officers, Regional Community Forum members work together to identify local priorities and initiatives that benefit their region.

For example, through the Western Queensland Regional Community Forum, the challenges associated with remote learning were raised – including the cost. These concerns were listened to by Government and addressed through a \$4000 boost to the Remote Area Tuition Allowance. Announced by Minister for Education Grace Grace in June 2023, this increased financial support will help ease cost of living pressures faced by isolated Queensland families.

The North and North West Queensland Regional Community Forum also facilitated grant writing workshops for remote communities to improve their ability to seek funding for community projects. This concept was developed by Forum members and was delivered in partnership with various Queensland Government agencies. Workshops have been delivered in Cloncurry, Hughenden, Richmond, Julia Creek, Croydon and Georgetown.

ORRQ also plays a key role in driving interagency cooperation, including supporting the implementation of government priorities in regional Queensland such as the *Queensland Energy and Jobs Plan*. ORRQ is also supporting inter-agency collaboration designed to strengthen whole of Government delivery of regional priorities.

ORRQ's engagement in regional Queensland reaffirms the Queensland Government's commitment to working closely with community, industry and government agencies to support Queensland's regions.

Estimates Question on Notice
No. 6
Asked on 10 July 2023

QUESTION:

Referring to page 3 of the Service Delivery Statement and support for housing, how does the 2023 budget support social housing supply and unlock further land supply for housing?

ANSWER:

I am advised that the government is investing \$5 billion for the delivery of social and affordable housing, and housing and homelessness supports. This is comprised of \$3 billion to support the Housing and Homelessness Action Plan 2021-2025 and a \$2 billion investment for the Housing Investment Fund.

The 2023–24 State Budget allocates \$1.25 billion over five years for social housing supply and homelessness support. This includes \$322 million in funding to boost the QuickStarts Queensland program target by 500 dwellings to 3,265 social homes.

I am advised that this will increase the number of social and affordable homes that the Queensland Government has committed to delivering to over 13,500 homes since 2015.

The Government is also incentivising the delivery of more affordable housing through tax concessions for Built to Rent developments, with at least 10 per cent affordable housing. This builds on the Government's \$70 million Build to Rent Pilot Project, which will deliver three developments that will include up to 490 dwellings at discounted rent.

The Queensland Government is also unlocking more housing land by supporting the delivery of key infrastructure. For example, we continue to deliver the \$171 million Catalyst Infrastructure Fund to enable construction of trunk road, water, and sewer infrastructure to help unlock 50,000 residential lots in the Ripley Valley and Greater Flagstone Priority Development Areas.

We also continue to work with other levels of government to deliver the South East Queensland City Deal Growth Area Compact, with the Queensland Government allocating \$100 million of a total of \$210 million to support the delivery of trunk infrastructure to enable affordable housing options in Caboolture West.

The Queensland Government is also working with councils and the Local Government Association of Queensland to strengthen local planning for housing. Sixty Local Housing Action Plans are to be developed by March 2024.

Additionally, the Queensland Government has recently completed an audit of surplus and underutilised State-owned land, with more than 2000 parcels of government-owned freehold land reviewed. A shortlist of 27 large sites on which housing could be delivered in a timely way has been identified, with more detailed investigations underway by the Department of State Development Infrastructure, Local Government and Planning.

To further progress this work, the 2023–24 Budget includes \$7.5 million over two years to progress detailed site investigations for mixed tenure residential developments, including developments with social and affordable housing.

Smaller sites are now being examined, particularly in regional centres, and trustee holders of government land have been invited to identify possible housing on their trust land. Five proposals are being investigated.

Estimates Question on Notice
No. 7
Asked on 10 July 2023

QUESTION:

With reference to page 2 of the Service Delivery Statement and the role of the Department of the Premier and Cabinet in coordinating the 2032 Olympic and Paralympic Games, can the Premier update the Committee on procurement opportunities and the benefits for regional Queensland?

ANSWER:

The Queensland Government will invest some \$180 billion on goods and services over the next 9 years. This is separate to the \$7.1 billion put aside for Games infrastructure. But collectively this massive investment represents a generational opportunity for businesses across all of Queensland to supply to Brisbane 2032 and beyond.

To help Queenslanders capitalise on the Games, I released the Q2032 Procurement Strategy just over a week ago (July 20). It outlines what businesses need to do now, to tender for 2032 and more broadly across Government. It provides Queensland companies with a timeline for Games business opportunities over the next nine years. Everything from construction to electric buses, signage and printing services, sports equipment, flooring, etc.

Importantly, the procurement strategy makes it clear Queensland businesses can win gold, just like our athletes. That's because our Government's incredibly successful *Buy Queensland* policy is written into the Brisbane 2032 Olympic and Paralympic Games Arrangement Act. This means by law, Queensland businesses will be prioritised for Games related contracts issued by Government and the Brisbane 2032 Organising Committee (OCOG).

Since 2017, our Buy Queensland policy has seen our Government invest \$57.8 billion, in more than 70,000 Queensland businesses with 44% of those businesses being in regional Queensland. Our Q2032 Procurement Strategy will help ensure these big benefits keep flowing to regional Queensland and that they also share in the opportunity, 2032 represents. Businesses that are based in Queensland, that are ethical, sustainable and diverse in their employment practice, will be prioritised. These are areas that businesses can improve on now, to make them a more attractive supplier for the Games.

Key initiatives under the Q2032 Procurement Strategy include:

- developing a MyGamesPlan tool for businesses to test their preparedness and access integrated support
- appointing a Q2032 Small Business Procurement Advisor
- establishing a Brisbane 2032 Industry Reference Group, which will engage with peak industry bodies across Queensland on Brisbane 2032 business issues and opportunities.

These initiatives and the Q2032 Procurement Strategy shows the Queensland Government is committed to maximising the opportunities for Queensland businesses to supply to the Games.

Outside of the Games, the Queensland Government continues to invest heavily in regional Queensland. Each of the last four budgets has seen more than half of total infrastructure

investment outside of greater Brisbane. In the 2023–24 State Budget, a record 65.5 per cent or \$13.3 billion of capital investment will be spent outside of greater Brisbane, in the next financial year.

Estimates Question on Notice
No. 8
Asked on 10 July 2023

QUESTION:

In respect of page 14 of the Service Delivery Statement and funding to Screen Queensland, can the Premier outline how this budget is supporting local productions in Queensland?

ANSWER:

The Queensland Government has committed \$68.2 million in grant funding for Screen Queensland, representing ongoing commitments as well as new budget initiatives.

The Queensland Government is providing \$28 million for the Production Attraction Strategy to help grow a pipeline of large-scale film and high-end television productions in Queensland. Training and attachment opportunities are provided on large scale film productions offering on-the-job training for up and coming Queensland screen practitioners.

Funding of \$8 million has been allocated to continue the Post, Digital and Visual Effects (PDV) Incentive to harness the economic, industry and employment benefits of Queensland's PDV industry. At 15 per cent, the PDV incentive is one of the most competitive in Australia. Screen Queensland also supports attachment opportunities for emerging practitioners to ensure a pipeline of talent to keep pace with this rapidly expanding area of local screen production.

The government is providing new funding of \$2 million in 2023-24 for the Digital Games Program, designed to harness the economic, industry and employment benefits of Queensland's growing games industry. Further funding of \$2 million in 2023-24 is being met internally by Screen Queensland, bringing total funding for this program to \$4 million in 2023-24.

The Queensland Government is providing new additional funding of \$500,000 to develop an Aboriginal and Torres Strait Islander Screen Program to build, expand and empower Queensland's Aboriginal and Torres Strait Islander screen industry.

Local productions are also being supported by capital grants to provide the facilities for local production and include \$14.6 million in 2023–24. This includes \$8.1 million to complete the Screen Queensland Studios in Cairns and \$5 million held for the development of a production facility supporting TV and film projects in the Gold Coast Region.

The North Queensland Regional Program is focussed on building industry capacity in North and Far North Queensland by delivering skills, training and employment opportunities for regional practitioners to capitalise on increased local demand when the Screen Queensland Studios, Cairns facility opens in early 2024.

The Queensland Government is also providing increased funding of \$7 million over three years to continue the operation of the Screen Queensland Studios in Hemmant.

**Estimates Question on Notice
No. 9
Asked on 10 July 2023**

QUESTION:

In respect of page 1 of the Service Delivery Statement to ‘deliver world-class frontline services in key areas such as health’, can the Premier outline how this budget is supporting hospital builds in Queensland?

ANSWER:

The Queensland Government's 2023–24 Budget delivers record health funding of \$25.8 billion to drive a strong health care system for all Queenslanders, including a 9.6 per cent uplift in operational funding. This is on top of last year's investment in new hospitals and new beds, which was the largest in Queensland's history.

The total Queensland Health portfolio capital program in 2023-24 is \$1.638 billion. These investment includes capital works and purchases across a broad range of areas including hospitals, ambulance stations and vehicles, health technology, research and scientific services, mental health services, staff accommodation, and ICT.

The Queensland Health capital program supports more than 4,000 full-time equivalent jobs for the 2023-24 financial year.

I am advised that 145 projects are forecast to achieve practical completion in 2023-24, with approximately half of these projects being delivered outside of Queensland's major cities. I am further advised that a total of 127 projects are forecast to commence construction in 2023-24.

Under the *Queensland Health and Hospitals Plan* our \$9.785 billion Capacity Expansion program over six years includes new hospitals for Bundaberg, Coomera and Toowoomba, and the new Queensland Cancer Centre.

We are also investing in expansions across the state at eleven sites – Cairns, Robina, Mackay, Redcliffe, Ipswich, Logan, Townsville, Hervey Bay, the Princess Alexandra Hospital, QEII, and the Prince Charles Hospital

The Accelerated Infrastructure Delivery Program also under the *Queensland Health and Hospitals Plan*, has already or is scheduled to deliver during 2023–24:

- Queen Elizabeth II Hospital Modular Wards
- Redland Hospital Modular Wards
- Robina Hospital Transit Lounge Expansion
- Princess Alexandra Hospital Renal Refurbishment
- Cairns Sub-Acute Expansion.

The Caboolture Hospital redevelopment delivers 110 additional beds in 2023, including a new emergency department, new intensive care unit, an additional operating theatre, and a further 20 additional beds in 2024.

For the Satellite Hospitals Program completed construction has been achieved for three of the seven Satellite Hospitals - Ripley, Redland, Caboolture - scheduled to open in August 2023. Construction for the Kallangur, Eight Mile Plains and Tugun sites will be completed by the end of 2023 and the Bribie Island is planned for completion in the first quarter of 2024.

The Building Rural and Remote Healthcare Program announced in 2022-23 for \$943.5 million will deliver 26 new facilities in rural and remote Queensland. The program progressed significantly in 2022-23 with tenders awarded for replacement facilities at Moranbah, Blackwater, St George, Charleville and Morven.

Tender processes are underway for replacement facilities at Tara, Millmerran, Camooweal and Normanton, and commencing shortly for Pormpuraaw and Doomadgee.

The 2023–24 Budget also invests \$5 million for a Detailed Business Case on the redevelopment of the Spinal Injuries Unit at the Princess Alexandra Hospital.

Over the next 15 years, the demand on Queensland's public health system is projected to increase significantly.

Facilities are planned and built to respond to the health service needs of communities and include emergency department enhancements, increased community based and acute mental health facilities, upgraded maternity facilities, projects to increase hospital capacity, and multipurpose health care facilities.

Our Government's strategic objective in planning and delivery of infrastructure is to ensure healthcare infrastructure and equipment programs are delivered to the right place, at the right time, for Queensland communities.

**Estimates Question on Notice
No. 10
Asked on 10 July 2023**

QUESTION:

Further to page 3 of the Service Delivery Statement and the support being provided to the Queensland veterans' community, can the Premier update the committee on support for veterans in the budget, including in response to national cost of living pressures?

ANSWER:

The Queensland Government is providing a record \$8.224 billion in concessions in 2023–24, an increase of more than 21 per cent compared with 2022–23.

This figure includes \$1.483 billion for additional electricity bill support to households and small businesses. It will see all Queensland households automatically receive a \$550 Cost of Living Rebate on their electricity bill in 2023–24, with eligible concession holders to receive a higher \$700 rebate. Vulnerable households will continue to receive the existing \$372 Queensland Electricity Rebate, bringing the total electricity rebate for this group to \$1,072 in 2023–24. This includes Department of Veterans' Affairs Pensioner Concession Card and Gold Card holders who receive the War Widow/er Pension or special rate Totally and Permanently Incapacitated (TPI) Pension.

The Queensland Government also offers a range of other concessions to help ease cost of living pressures for veterans, subject to certain eligibility requirements such as holding a Department of Veterans' Affairs Pensioner Concession Card, Gold Card (all conditions) or White Card (specific conditions).

For example, Pensioner Concession Card and Veteran Gold Card and White Card holders are entitled to a concession fare for travel on Translink, qconnect and regional ferry services. TPI and Extreme Disablement Adjustment (EDA) Gold Card holders can apply for a TransLink TPI/EDA Veteran Travel Card and receive unlimited free travel on approved Translink, qconnect and regional ferry services.

Pensioner Concession Card and Gold Card holders marked as War Widow/Widower are eligible for four long distance Queensland Pension rail travel entitlements per calendar year. Queensland TPI or EDA Veteran Gold Card holders who have a TPI/EDA Veteran Travel Card receive one free return trip each fortnight on long distance Queensland rail travel.

Pensioner Concession Card holders and veterans receiving at least 70 per cent Disability Compensation Payment or who have at least 50 impairment points also may be eligible for a discount on the registration fee for one vehicle and one boat.

Veterans may also be eligible for Queensland Government energy and property concessions offered to Pensioner Concession Card and Gold Card holders, including:

- a rates subsidy of 20 per cent (up to a maximum amount of \$200 each year) off the gross rates and charges levied by their local council
- a water subsidy of up to \$120 (maximum) each year off the cost of water access and usage charges for properties in the South East Queensland Water Grid.

In addition to concessions, in 2020 the Queensland Government committed \$10 million over four years to enhance support for veterans and the broader veterans' community, including funding to address veteran homelessness, support for ex-service organisations to assist veterans affected by COVID-19, and legal and advocacy services based in Townsville. The Queensland Government also committed to supporting veteran employment through initiatives including free TAFE and apprenticeships for up to 300 veterans and employment services at The Oasis Townsville.

Through the 2023–24 State Budget, the Queensland Government committed a further \$1.9 million over three years for a fourth round of the Queensland Remembers Grants Program. This program provides capital works funding to organisations that assist veterans and their families and supports projects and activities that commemorate our servicemen and women.

**Estimates Question on Notice
No. 11
Asked on 10 July 2023**

QUESTION:

Can the Premier provide a breakdown of funding by financial year for the Defence to Civilian Success Training Program?

ANSWER:

The Defence to Civilian Success Training Program aims to provide free TAFE and apprenticeships for up to 300 veterans transitioning to civilian employment.

I am advised the government allocated \$950,000 over four years and to date the funding breakdown by financial year for the Defence to Civilian Success Training Program is as follows:

2021/22 Financial Year - TAFE Queensland received funding of \$320,000 (excluding GST).

2022/23 Financial Year - TAFE Queensland received funding of \$415,000 (excluding GST).

2023/24 Financial Year – TAFE Queensland is scheduled to receive funding of \$205,000 (excluding GST).

**Estimates Question on Notice
No. 12
Asked on 10 July 2023**

QUESTION:

Will the Premier list the number of departmental employees as of March 2023, broken down by Australian and New Zealand Standard Classification of Occupations code and for each:

- a. the occupation code description; and
- b. whether it is a frontline, frontline support, or corporate service role?

ANSWER:

The Queensland Public Sector Workforce Profile report was published on 13 June 2023. This provides a summary of the Queensland public sector workforce as at 31 March 2023 with a breakdown of frontline, frontline support, and corporate service roles. The occupation code description is also covered within this report.

The report can be viewed here – <https://www.forgov.qld.gov.au/human-resources/workforce-planning/workforce-statistics-and-tools/workforce-statistics>.

I am advised that at March 2023, DPC comprised 38% corporate services FTEs and 62% frontline and frontline support FTEs.

I am also advised that for the same period in 2015, DPC comprised 52% corporate services FTEs and 48% frontline and frontline support FTEs.

Estimates Question on Notice
No. 13
Asked on 10 July 2023

QUESTION:

Can the Premier provide a breakdown of the 68 staff (as per the 2023/24 budget forecast) in the Brisbane 2032 Coordination Office, by position description?

ANSWER:

I am advised that the Service Delivery Statement for the Department of the Premier and Cabinet allocates 63 Full Time Equivalent (FTE) positions in the Brisbane 2032 Coordination Office (Coordination Office) to support the Brisbane 2032 Olympic and Paralympic Games (Brisbane 2032).

As the Committee would appreciate, delivering Brisbane 2032 is complex and the Coordination Office leads the integration of planning and delivery responsibilities for the Games across the three levels of Government. This includes overseeing key aspects of Games preparations, including portfolio coordination across activities such as venues and villages, transport, environment, legacy, security, and First Nations. The Coordination Office also works closely with the Brisbane 2032 Organising Committee for the Olympic Games to meet contractual commitments to the International Olympic Committee.

Given this, it is important that the Queensland Government scales up required resources to ensure that these important tasks are undertaken in a timely manner. In particular, the Coordination Office will oversee deliverables such as:

- development of a Games Coordination Plan that will integrate delivery of work across three levels of government in preparing for the Games.
- the planning and design of the venues and athletes' villages infrastructure program, in conjunction with the Department of State Development, Infrastructure, Local Government and Planning, with Project Validation reports being prepared to ensure that all projects meet Games and legacy requirements.
- continuing the development of the Brisbane 2032 Legacy Strategy, leading to development and delivery of the key Legacy outcomes for Queenslanders, in conjunction with the Department of Tourism, Innovation and Sport.
- the Brisbane 2032 Sustainability Program, which will be developed and implemented to deliver commitments for a Climate Positive Games, in conjunction with the Department of Environment and Science.
- the Brisbane 2032 First Nations Program, which will provide First Nations led input into policy development and implementation, engagement and promotion, in conjunction with the Department of Treaty, Aboriginal and Torres Islander Partnerships, Communities and the Arts.

I am advised by the Coordination Office that of the 63 allocated FTEs, 17 are outposted to other agencies providing expert input on infrastructure, legacy, sustainability and first nations programs. A further 13 FTEs represent the allocation of the corporate service functions provided by the Department of the Premier and Cabinet.

I am advised that staff are recruited through the usual process or seconded from departments, where possible, to provide key advice and linkage with existing government services. I am further advised that the above approach is minimal when compared to alternative coordination and oversight models, which would require additional resources and funding.

Estimates Question on Notice

No. 14

Asked on 10 July 2023

QUESTION:

With reference to the committee's pre-hearing Question on Notice No. 4 asked on 30 June 2021 (for Estimates 2021-22) regarding the Special Commissioner for Equity and Diversity, can the Premier provide an update on the Commissioner's investigations into the reestablishment of the Sexual Harassment Referral Office and the development of a Sexual Harassment Code of Practice?

ANSWER:

My government is committed to providing women with equal access to rewarding careers in safe and supportive work environments across Queensland.

No level of sexual harassment is acceptable and as a government we treat this very seriously.

At the 2021 election my government committed to investigate the re-establishment of a sexual harassment referral officer network.

In early 2022, the Special Commissioner investigated the concept of a sexual harassment referral officer network, consulting other jurisdictions and the Sex Discrimination Commissioner, Kate Jenkins. This investigation confirmed that a much broader response was appropriate, as previous approaches had not been successful in Queensland or elsewhere.

The Office of the Special Commissioner (OSC) and the then Public Service Commission (PSC) co-sponsored a broader project, and established working groups to progress the issue through multiple initiatives including:

- Embedded respect as a value in the *Public Sector Act 2022*, and introduced obligations for chief executives to promote respect and inclusion.
- Development of a new stand-alone directive focused solely on preventing and responding to sexual harassment. This directive was issued in July 2023.

The directive embeds principles of the 2020 Respect @Work: Sexual Harassment National Inquiry Report recommendations of being gender-informed and trauma-informed. Features include:

- person-centred, to ensure the complainant feels safe, heard, and with some control over the process
- complainants are not moved unless as a last resort, or unless they support that as part of the response
- better communication with all parties around process and outcomes
- improved timeframes to ensure prompt response to issues raised
- agencies to develop their own policy (with a model policy template provided) to operationalise the new principles by 1 February 2024

- agencies to implement training by 1 July 2024. New training is being scoped and will be made available for leaders, managers and employees across the sector by July 2024.

The directive requires each agency to ensure that employees reporting sexual harassment are offered support options and access to person centred support and advice appropriate to the circumstances. The proposed Sexual Harassment Referral Officer network was not suited to contemporary circumstances and a new approach looking at peer support networks is being developed. The Public Sector Commission will continue to work with agencies to support implementation.

This is nation-leading change, with Queensland ahead of other states in such a progressive approach.

This is just one example of our progress towards safe and equitable work environments in the Queensland public service. Other achievements include:

- A continuing reduction in the gender pay gap, from 7.82 in 2021 to 7.01% in March 2023
- Raising the profile of the sector as an employer of choice focused on equity and diversity
- A suite of *women in leadership* initiatives - including sector-wide targets of 50% at every leadership level - to address the under-representation of women at senior levels.
- Increasing the number of women leading public service agencies
- Inclusion of equity initiatives in enterprise bargaining agreements
- A review of employment conditions, and proposals to enhance working conditions and position the sector as an employer of choice for women and parents
- An innovative new approach to recruitment and selection that combines merit and equity, and supports special measures for under-represented groups
- Legislated accountability for chief executives to progress equity, diversity, respect and inclusion under the new *Public Sector Act 2022*
- Greater availability of workforce data to ensure that chief executives have evidence of potential inequities and areas to be addressed
- Greater awareness of equity and the gender gap across the sector, through ongoing dialogue with agency leadership teams and HR teams.
- Initiation of an LGBTIQ+ project, to improve data collection about their representation in the sector and to understand their experience in the sector.

The Special Commissioner will continue to implement her workplan, drive sector activity, and monitor improvements to equity and diversity in the sector.

**Estimates Question on Notice
No. 15
Asked on 10 July 2023**

QUESTION:

In reference to the Premier's previous advice that the September 2022 biannual Queensland Public Sector Workforce Profile release was delayed to confirm the accuracy of corporate services data – can the Premier provide the unvalidated frontline and frontline support roles and corporate services roles breakdown as show in the tables on page 9 of the final report.

ANSWER:

I am advised by the Public Sector Commission that the unvalidated data consists of over 291,000 lines of data, one for each Queensland public sector employee, and up to 73 fields of data for each individual. This represents over 20,000 million data points.

Providing this quantity of information would be impractical and would require a significant diversion of resources, including any de-identification of personal information contained within the data.

However I can advise that the Queensland Public Sector Workforce Profile Report for September 2022 can be accessed at www.forgov.qld.gov.au/human-resources/workforce-planning/workforce-statistics-and-tools/workforce-statistics.

**Estimates Question on Notice
No. 16
Asked on 10 July 2023**

QUESTION:

Regarding the Screen Queensland Studios Cairns, can the Premier advise the reason for the increase in the original budget from \$6.8 million and if construction commenced in early 2022 as originally announced?

ANSWER:

I am advised the increase from the original \$6.8m budget allocation for the construction of Cairns studio was predominately due to the following:

- the original budget was based on a different site which, upon completion of a due diligence exercise, was found to be not viable for a working studio.
- once a new site was selected the scope of works required to adapt it into a studio had to change to suit the structure and size of the existing building. This allowed for more facilities to be incorporated into the project including an increase in production offices and dedicated space for departments such as hair and makeup and costume. The change in scope also allowed for permanent tenancies and a possible co-working space to be built, expanding the potential uses of the studios once operational.
- an increase in the cost of materials due to the material and labour shortages across the construction industry.

I am further advised the project commenced construction in January 2023.

Estimates Question on Notice
No. 17
Asked on 10 July 2023

QUESTION:

Can the Premier provide the deliverables for the Brisbane 2032 Coordination Office for 2023/24?

ANSWER:

The Brisbane 2032 Coordination Office is responsible for overseeing the integration of all three levels of government on the planning and delivery of the Games. This includes hosting the Intergovernmental Leaders Forum, the CEO Integration Group, and scaling up the extensive program of work required to deliver the Brisbane 2032 Games.

The Coordination Office also just launched Q2032 Procurement Strategy, to help Queensland businesses capitalise on billions of dollars of investment and contracts the Games will unleash. Queensland businesses will also be prioritised thanks to Government's Buy Queensland policy being written into the Brisbane 2032 Olympic and Paralympic Arrangements Act 2021.

I am advised that the Brisbane 2032 Coordination Office is progressing foundation work in 2023/24 for the planning and successful delivery of government responsibilities for the Games, including:

- implementing governance arrangements to support regular strategic Games partner meetings (e.g. Brisbane 2032 Intergovernmental Leaders Forum);
- developing the Brisbane 2032 Games Coordination Plan to provide a portfolio-level view of all government planning and delivery across program areas for the Games;
- working on new and existing initiatives including developing Project Validation Reports, our Legacy Strategy, and implementing Q2032 procurement strategy.
- progressing the Brisbane 2032 program structure for areas such as transport, security, sustainability, legacy and venues and villages.
- developing foundation policies and processes to ensure the various components of Brisbane 2032 are delivered in a consistent manner, enabling integration across all Games partners;
- overseeing and implementing government commitments under the Olympic Host Contract; and
- working closely with the Brisbane 2032 Organising Committee to ensure integrated and seamless planning across the board.

Estimates Question on Notice
No. 18
Asked on 10 July 2023

QUESTION:

With reference to page 13 of the Service Delivery Statement, can the Premier explain the reasons for the discrepancy between the budgeted and actual capital outlays for 2022-23?

ANSWER:

The budgeted capital program for 2022-23 totalled \$16.983 million and included a combination of capital grants (\$16.1 million) and minor capital works (\$883,000).

I am advised that the variance for capital grants of \$10.592 million relates predominately to capital grants to Screen Queensland for the development of Screen Queensland Studios, Cairns and the Gold Coast Production Hub. Budgets for both projects were reviewed in February 2023 and subsequently \$10.426 million was re-profiled to align with the revised project timelines into 2023-24.

I am further advised the original capital grants budget for the Queensland Remembers grant program was revised to \$1.334 million to meet the projected completion of grant milestone payments in 2022-23. The remainder of the budget has been re-aligned across the forward estimates.

I am also advised by my department that the \$506,000 variance in capital purchases relates to the timing of development and procurement activities for information technology projects expected to be completed in 2023-24.

Estimates Question on Notice
No. 19
Asked on 10 July 2023

QUESTION:

With reference to note 2 on page 12 of the Service Delivery Statement, can the Premier provide advice of the purpose of ‘all-hazards and crisis management capability’ and deliverables for the 2023/24 financial year?

ANSWER:

The Queensland Government is committed to enhancing Queensland’s capacity and capability in responding to disasters and making this state the most disaster resilient in Australia.

The state group, the Queensland Disaster Management Committee (QDMC), established under section 17 of the *Disaster Management Act 2003* (Qld), is a critical part of Queensland’s well-proven disaster management arrangements. The Premier is Chair of the QDMC, which among other functions, is responsible for coordinating State and Commonwealth assistance for disaster management and disaster operations.

Disaster management coordination is part of the core business for the Department of the Premier and Cabinet (DPC). As part of their other duties, staff from The Cabinet Office, Governance and Engagement and the Office of the Director-General also support the Premier in her role as Chair of QDMC, as well as other Cabinet Committees established to support response and recovery to a disaster.

In response to recommendations from the Inspector General of Emergency Management’s review of the Queensland Disaster Management Arrangements, the government is now establishing a new all-hazards policy and strategic leadership body to manage and prepare for crisis and disasters in Queensland. This body will be the State Disaster Management Group (SDMG) and will be chaired by the Director-General of DPC, supported by the department. In the 2023–24 State Budget, DPC was also allocated \$1 million per annum to deliver an enhanced all-hazards crisis capability for future disaster responses and to support QDMC and this new leadership body in the SDMG.

Prior to establishing this capability in DPC, there were no dedicated staff in DPC to perform the existing disaster management or crisis response (including counter terrorism) functions. There were also no dedicated roles in DPC to perform DPC’s critical role in leading whole-of-government crisis communication and engagement.

With the ever-increasing risk of extreme natural weather events occurring more frequently, as well as other security and major events, there is a heightened need for Queensland to be prepared. Its response and recovery activities must also continue to reflect best practice. This dedicated all-hazards crisis coordination and communications function is designed to enhance this capability for future disaster responses in Queensland.

Estimates Question on Notice
No. 20
Asked on 10 July 2023

QUESTION:

With reference to the Premier's commitment to a First Nations Cultural Centre in Cairns, could the Premier advise where funding for this project is referenced in the 2023/24 budget?

ANSWER:

The vision for First Nations Cultural Centres in Cairns and Brisbane is to showcase and celebrate the rich history, unique stories, and truth telling of Aboriginal and Torres Strait Islander Peoples, and build on the Queensland Government's commitment to elevate First Nations arts.

As part of the 2019–20 State Budget, the Queensland Government committed \$2 million to develop a preliminary business case to consider options for a First Nations Cultural Centre in Brisbane.

In March 2022, the Queensland Government signed the South East Queensland City Deal with the Federal Government and the Council of Mayors of south east Queensland, which included a \$3 million investment for a detailed business case for a First Nations Cultural Centre in Brisbane.

The development of a business case for a First Nations Cultural Centre in Cairns, announced in May this year, acknowledges the significant opportunity to recognise the contributions of First Nations people in Far North Queensland and the Torres Strait. The business case for the Cairns Centre is being delivered within the Queensland Government's original 2019–20 Budget allocation.

Any further funding for the progression of the First Nations Cultural Centres will be considered by the Queensland Government following completion of business cases.

Questions on notice and responses –
Treasurer and Minister for Trade and Investment

Economics and Governance Committee

Estimates Question on Notice Asked on 10 July 2023

Question No. 1

THE COMMITTEE ASKED THE TREASURER AND MINISTER FOR TRADE AND INVESTMENT (HON C DICK)—

QUESTION:

With reference to Chapter 6 of Budget Paper 2, can the Treasurer advise what is the valuation of the Titles Office?

ANSWER:

On 18 June 2021, when Titles Queensland was transferred to the Debt Retirement Fund, it was valued at \$7.986 billion.

I am advised by QIC that they applied the same rigorous process for the valuation as they do for any transaction they undertake for a client, whether that client is the Queensland Government or an Australian superannuation fund or a global sovereign wealth fund.

They also engaged the best qualified, independent expert advisors to support this process, including financial advisory, consulting, modelling and legal. These advisors included:

- Bank of America, which provided financial advisory services;
- BIS Oxford Economics, which provided macroeconomic, volume and property price forecasting advice;
- Deloitte, which provided financial, tax, accounting and IT due diligence;
- Allens Linklaters, which provided legal advice; and
- Two independent reviews to validate the valuation.

QIC further advises that Titles Queensland is revalued every quarter by an independent valuer in accordance with QIC's Investment Valuations Policy. The independent valuer makes a recommendation to QIC's Infrastructure Investment Committee, which is chaired by an independent non-executive director. Following this review the valuation is adopted by the Audit Committee of the QIC Ltd Board, which is comprised of independent non-executive directors.

QIC advises that the enterprise value of Titles Queensland as at 30 June 2023 is approximately \$9.1 billion.

Economics and Governance Committee

**Estimates Question on Notice
Asked on 10 July 2023**

Question No. 2

THE COMMITTEE ASKED THE TREASURER AND MINISTER FOR TRADE AND INVESTMENT (HON C DICK)—

QUESTION:

With reference to pages 103, 157, 162, 164 and 171 of Budget Paper 2, can the Treasurer please provide expenditure details for the Pioneer Burdekin Pumped Hydro project?

ANSWER:

A new government-owned entity, Queensland Hydro, will plan, deliver, own and operate the publicly owned long duration pumped hydro assets.

On behalf of the government, Queensland Hydro is progressing with detailed analysis for the 5-gigawatt Pioneer--Burdekin pumped hydro, located approximately 75 kilometres west of Mackay.

The detailed analytical report for Pioneer--Burdekin pumped hydro will be brought to government for consideration in mid-2024.

The investment required to complete the detailed analytical report and associated activities is aggregated within the 'Other' category in Budget Paper 2 equity and borrowings tables (Table 8.3 on page 166 and Table 8.8 on page 171).

Supported by additional revenue from coal royalties, the 2023–24 Budget also includes a provision for a \$1 billion equity investment for the Pioneer--Burdekin pumped hydro project. This equity investment for Queensland Hydro is aggregated within the 'Other' category of Table 8.8 in Budget Paper 2 (page 171).

Subject to government consideration of the detailed analytical report, forecast capital expenditure for Pioneer-Burdekin will be included within Budget Paper 3. This is consistent with the approach taken for Borumba, which is included Budget Paper 3.

For the \$14.2 billion Borumba pumped hydro project, it is expected that total equity of \$6 billion will be invested over the construction life of the project. The estimated full cost to deliver Borumba is reflected in Budget Paper 3 (page 47). The investment required for Queensland Hydro to deliver Borumba pumped hydro is aggregated within the 'Other' category (Budget Paper 2, Table 8.3 on page 166 and Table 8.8 on page 171).

**Estimates Question on Notice
Asked on 10 July 2023**

Question No. 3

THE COMMITTEE ASKED THE TREASURER AND MINISTER FOR TRADE AND INVESTMENT (HON C DICK)—

QUESTION:

With reference to Budget Paper 2, Chapter 1, can the Treasurer please provide details of funding arrangements for the CopperString 2032 project?

ANSWER:

The Queensland Government is investing \$5 billion in Copperstring 2032, a 1,100-kilometre transmission line from Townsville to Mount Isa that will connect Queensland's North West Minerals Province to the National Electricity Market. CopperString 2032 will unlock billions of dollars of new critical minerals mining in the North West Minerals Province and significant new renewables around Hughenden.

Powerlink, the state's transmission network business, is delivering the project and investing \$594 million on initial construction works in 2023-24.

The 2023-24 Budget allocates \$1.06 billion equity funding towards CopperString 2032, made available from progressive coal royalties.

The 2023-24 Capital Statement (Budget Paper No. 3 pages 12 and 47) and the Budget Strategy and Outlook (Budget Paper 2, Box 8.2, page 159) outline the CopperString 2032 project and funding arrangements in detail.

Asked on 10 July 2023**

Question No. 4

THE COMMITTEE ASKED THE TREASURER AND MINISTER FOR TRADE AND INVESTMENT (HON C DICK)—

QUESTION:

With reference to Budget Paper 2, Chapter 1, can the Treasurer please provide a breakdown of funding and costs for the Low Emissions Investment Partnerships Program?

ANSWER:

The 2023-24 Budget supports regional jobs and the state's emissions reduction targets through funding of \$520 million to deliver Low Emissions Investment Partnerships.

Low Emissions Investment Partnerships with our metallurgical coal mines will fast track capital investments that rapidly reduce emissions.

Funding for partnerships is allocated from 2023-24 to 2029-30.

Economics and Governance Committee

**Estimates Question on Notice
Asked on 10 July 2023**

Question No. 5

THE COMMITTEE ASKED THE TREASURER AND MINISTER FOR TRADE AND INVESTMENT (HON C DICK)—

QUESTION:

With reference to Budget Paper 4, can the Treasurer provide details of how the Budget supports the Towards Tourism 2032 Program?

ANSWER:

The ongoing transformation of Queensland's rebounding visitor economy is again a key focus of the 2023-24 State Budget. The details can be found in Budget Paper 4, page 93.

The government is providing increased funding of \$271.9 million over 4 years to deliver on its objectives for the *Tourism and Events Queensland Act 2012* and to contribute to the delivery of the Towards Tourism 2032: Transforming Queensland's visitor economy future strategy.

The 2023-24 Budget also includes \$20 million in 2023-24 to progress Towards Tourism 2032, including the Tourism Experience and Infrastructure Grants program, designed to support tourism experience development in priority areas over two rounds. It will focus on First Nations, sustainability, eco/nature, accessibility and paleo.

Further to these 2023-24 Budget measures, the Queensland Government is partnering with the private sector through the Attracting Aviation Investment Fund (AAIF) to deliver \$200 million in funding to secure more flights into key tourism destinations. The Government's \$100 million investment will be matched at least dollar-for-dollar by the four largest airports (Brisbane, Gold Coast, Sunshine Coast and Cairns).

Economics and Governance Committee

**Estimates Question on Notice
Asked on 10 July 2023**

Question No. 6

THE COMMITTEE ASKED THE TREASURER AND MINISTER FOR TRADE AND INVESTMENT (HON C DICK)—

QUESTION:

With reference to Budget Paper 2, Chapter 1, can the Treasurer advise what are the details of any new mining projects being progressed by BHP?

ANSWER:

According to analysis by the Bank of America, BHP has been a net disposer of coal assets over more than 20 years, consistent with BHP's broader strategy to move away from hydrocarbons.

In recently announcing it would sell its Daunia and Blackwater mines, BHP specifically noted that the sale was consistent with its strategy of focusing its coal portfolio on the highest quality metallurgical coal.

However, in its latest Operational Review for 2022–23, released on 20 July 2023, BHP indicated it would “sustain and optimise [its] existing operations”. Media coverage of this report indicated this statement suggested BHP will continue to invest in its Queensland coal mines for the long term.

Media coverage also indicates there has been strong interest from investors in the two mines up for sale. Recent media reports have speculated the combined sale price could be up to \$9 billion – considerably higher than the \$2 billion initially speculated when BHP announced it would sell the mines.

This demonstrates there remains significant appetite from mining companies to invest in the high-quality metallurgical coal found in Queensland's Bowen Basin.

Importantly, BHP continues to seek approvals for Queensland coal projects through Queensland Government processes.

In particular, BHP Mitsubishi Alliance (BMA) has two declared coordinated projects being assessed by the Queensland Government's Office of the Coordinator-General – Blackwater South Coking Coal project and Peak Downs Mine Continuation Project.

BMA has confirmed with the Queensland Government's Office of the Coordinator-General that they are committed to the projects, and has indicated that they would be looking to sell the projects with approvals in place.

The Coordinator-General's environmental impact statement (EIS) process for coordinated projects delivers a comprehensive whole-of-government evaluation of the environmental and

social impacts of major projects. The process is driven by proponents in accordance with the Coordinator-General's EIS terms of reference, and proponents of a project with relevant characteristics may apply to have it declared a coordinated project by the Coordinator-General.

A coordinated project declaration does not imply government approval of, support for, or commitment to the project in question. Rather, it means the project requires a rigorous and comprehensive environmental assessment, involving whole-of-government coordination.

On 3 May 2022, the Queensland Coordinator-General, by gazettal, declared the Blackwater South Coking Coal project a coordinated project. Following a public consultation period, the final terms of reference for its EIS were published in March 2023, and a draft EIS is currently being prepared by the proponent.

As outlined by the Coordinator-General, an investment of \$1 billion is anticipated for this project, which has an indicated yield of up to 8 million tonnes of product coal per annum for approximately 90 years.

Similarly, on 27 January 2023, the Queensland Coordinator-General declared BMA's Peak Downs Mine Continuation project a coordinated project. The investment noted for this project on the Coordinator General's website is \$2 billion, producing up to 18 million tonnes of product coal per annum for approximately 93 years.

Terms of reference for this EIS were published by the Coordinator-General on 27 July 2023, with the next stage being for BMA to prepare the draft EIS.

Separately, BMA and other BHP entities are among the proponents for the proposed Saraji East Mining Lease Project, currently being assessed under the State Government's EIS process under the *Environmental Protection Act 1994*.

This project involves development of an underground metallurgical coal mine and associated infrastructure, and the EIS process is currently at the stage where the proponents are responding to submissions following public notification of the EIS. As noted on the State Government page for this EIS process, extraction of up to 11 million tonnes per year is anticipated from the project with a lifespan of approximately 25 to 30 years.

Further, BMA continue to seek an amendment to its environmental authority (EA) for its Caval Ridge mine relating to the expansion of Horse Pit. The Horse Pit Extension Project proposes to extend the mine's life to 2056.

Public consultation on the EA amendment application closed on 8 May 2023, with a decision expected before the end of 2023.

BHP has continued to make the significant financial and time commitment required to progress these projects through the relevant environmental approval processes to obtain access to the States' valuable and finite resources and ensure environmental and other impacts are effectively managed.

A 2020 Australian Productivity Commission Study on Resources Sector Regulation noted that the direct financial costs to proponents of preparing economic impact assessments—including the collection of environmental, social, heritage and economic information—can be in the millions of dollars. Industry submissions to earlier Australian Government inquiries in 2013

and 2014 indicate that for major mining projects, costs can be up to \$15 million. That would suggest BHP is continuing to spend at least \$30 million progressing environmental approvals, even following the introduction of coal royalties.

Queensland continues to offer an attractive environment for investment in coal, reflecting its numerous competitive advantages including its high-quality hard-coking coal, proximity to the fast-growing Asian region, efficient supply chain, world-class infrastructure, and skilled workforce.

This is demonstrated by the numerous developments and announcements from a wide range of coal companies since the new progressive royalty tiers were announced in the 2022–23 Queensland Budget.

Economics and Governance Committee

**Estimates Question on Notice
Asked on 10 July 2023**

Question No. 7

THE COMMITTEE ASKED THE TREASURER AND MINISTER FOR TRADE AND INVESTMENT (HON C DICK)—

QUESTION:

With reference to Budget Paper 2, Chapter 1, can the Treasurer advise how the Government is ensuring ongoing investment in mineral resources?

ANSWER:

Queensland's resources companies are expected to do the right thing and develop Queenslanders' resources in line with their obligations under the State's rigorous regulatory framework.

In particular, the Queensland Government uses active tenure management to ensure that companies meet their obligations to explore for and develop our mineral and energy resources in a responsible manner.

Where companies do not deliver on the commitments made to the State with respect to the exploration and development of the State's resources, there are a range of appropriate and proportionate compliance actions that can be taken by the regulator, including in certain circumstances, cancellation of tenure, which could create opportunities for others to take on the area.

In particular, under s.318DQ, and 318DR of Mineral Resources Act (MRA), holders of mining leases are expected to prepare, maintain and comply with development plans. Under s317N 2 D, the plan should outline how the minerals will be optimised in the best interests of the state. Section 308 of the MRA provides power for the Minister to cancel a lease if obligations are not complied with.

These provisions are consistent with the former Federal LNP Resources Minister and Queensland Senator, Matt Canavan, who has publicly supported mechanisms to ensure that resources companies "use it or lose it" when it comes mineral resources.

Pursuant to the above legal provisions, the Queensland Government expects holders of valuable mining tenure, who have been allocated the exclusive right to extract coal owned by the people of Queensland, should act on that authority in a timely manner to maximise the benefits for the people of Queensland. Failure to do so can and will be acted upon.

Economics and Governance Committee

Estimates Question on Notice

Asked on 10 July 2023

Question No. 8

THE COMMITTEE ASKED THE TREASURER AND MINISTER FOR TRADE AND INVESTMENT (HON C DICK)—

QUESTION:

With reference to Budget Paper 2, Chapter 1, can the Treasurer please provide details of relevant mining company investments made since the announcement and introduction of progressive coal royalties?

ANSWER:

Since the introduction of the new progressive royalty tiers, there have been ongoing announcements and developments that demonstrate continued strong investor interest in Queensland's coal industry.

Whitehaven Coal indicated in its 2022 Annual Report that it was progressing its Winchester South project *'to be "shovel ready" so that investment decisions can be made when appropriate hurdles are met'*. The project continues to progress through the Coordinated Project approval process, with the Coordinator-General accepting a revised draft environmental impact statement (EIS) as the final EIS on 7 July 2023, and commencing preparation of the EIS evaluation report.

Whitehaven further indicated in January 2023 that if there were further assets which had similar coal qualities to Winchester South, that these would be *'interesting to look at [in] the future'*.

Peabody Energy indicated its North Goonyella mine is still its *'best organic growth opportunity'* and a *'very high priority for [it] in the list of all of [its] projects...'*, and subsequently approved US\$140 million to redevelop North Goonyella with a further US\$240 million investment flagged to bring operations into production in 2026.

Stanmore, after acquiring the final 20 per cent stake in the South Walker Creek and Poitrel mines, noted in January 2023 that it was *'exploring options to expand South Walker Creek by addressing some of the existing bottlenecks'*. In early 2023, Stanmore approved \$183 million for a project to further its resource development strategy at South Walker Creek, with *'robust economic returns and short pay back based on conservative pricing assumptions'*.

Coronado indicated *'capital plans at the Curragh mine continue in accordance with existing expansion plans...'*. Coronado also confirmed in April 2023 that results from its Curragh North Underground Met Coal Project pre-feasibility study were *'positive'*, with the project *'now forming part of the mines plans to reach 13.5Mtpa [megatonnes per annum] by 2025'*.

Coronado's CEO further indicated in an investor call in January 2023 that he saw investment opportunities in the southern Bowen Basin.

Pembroke Resources started mining at its Olive Downs mine on 6 June 2023, with first exports expected in early 2024. Pembroke's CEO further noted in an interview in February this year that the Bowen Basin was the '*best basin in the world*' and that it '*is going to be very strong*'.

Bowen Coking Coal received Australian Government approval under the *Environment Protection and Biodiversity Conservation Act 1999 (Cth)* for the Isaac River Project in the Bowen Basin on 31 May 2023.

Bowen Coking Coal's CEO noted in a media release that this approval was a '*significant milestone*' and that the project would enable the company to '*deliver much needed metallurgical coal to growing market demand*'.

Further, in June 2023, Sumitomo, Bowen Coking Coal's joint venture partner in the Hillalong Coal Project, increased its investment in the project and approved commencement of the next phase of works. Bowen Coking Coal's CEO noted this was '*testament to the strength of the Hillalong Coal Project*'.

Idemitsu recently received Australian Government approval for its Ensham Life of Mine Extension Project, which will extend the operating life of existing underground operations by up to nine years to approximately 2037.

Thungela Resources, which will take a controlling interest in the Ensham Mine by mid-2023, described the mine as '*a highly cash-generative thermal coal asset with long-life potential*', and stated that the acquisition provided it with an '*attractive entry point into Australia, a leading mining geography with a successful track record of thermal and metallurgical coal production...*'.

BHP Mitsui Alliance (BMA) has two declared coordinated projects being assessed by the Office of the Coordinator-General – Blackwater South and Peak Downs Mine Continuation Project. BMA has confirmed with the Office of the Coordinator-General that they are committed to the projects and have indicated that they would be looking to sell the projects with approvals in place.

These commitments demonstrate continued strong investor interest in Queensland's coal industry, reflecting Queensland's numerous competitive advantages including its high-quality hard coking coal, proximity to the fast-growing Asian region, efficient supply chain, well-established infrastructure and skilled workforce.

These commitments also provide clear evidence in support of the expectation that the new progressive royalty tiers introduced in the 2022-23 Queensland Budget will not impact on the viability of Queensland's coal industry or investment, given they only raise material revenue when coal prices reach high levels and coal producers are benefitting from substantially increased revenues.

Asked on 10 July 2023**

Question No. 9

THE COMMITTEE ASKED THE TREASURER AND MINISTER FOR TRADE AND INVESTMENT (HON C DICK)—

QUESTION:

With reference to Budget Paper 2, Chapter 6, can the Treasurer please provide details of the QIC investment in Thames Water?

ANSWER:

I am advised that in December 2006, QIC acquired an interest in Thames Water on behalf of multiple clients, including Queensland Government portfolios. In April 2017, part of this interest was sold to the QIC Infrastructure Portfolio, which is owned by a range of clients, including Queensland Government portfolios.

While it is commercially sensitive and inappropriate to reveal details of the investment, I am advised that accounting for transaction proceeds, dividends received and the current holding value of the asset, Queensland Government portfolios have received a positive since inception return, with returns exceeding the initial investment amount.

QIC advises that they continue to work closely with regulators and other investors on the future of Thames Water on behalf of all clients, including Queensland Government portfolios.

Question No. 10

THE COMMITTEE ASKED THE TREASURER AND MINISTER FOR TRADE AND INVESTMENT (HON C DICK)—

QUESTION:

With reference to Budget Paper 2, Chapter 6, can the Treasurer please provide details of the involvement of any portfolio agencies or entities in the case of *Issa v Owens & Ors (No 2)* [2023] QSC 96?

ANSWER:

I am advised that there are several portfolio entities involved in statutory claim matters such as in the case of *Issa v Owens & Ors (No 2)*, which includes the Department of Resources, the Registrar of Titles (“the Registrar”) (within the Department of Resources), Crown Law and the operator of the titles registry.

Following the enactment of the *Queensland Future Fund (Titles Registry) Act 2021* (the Act), Queensland Titles Registry Pty Ltd (“the operator”) was established and declared under this enabling Act to be the operator of the titles registry, with requisite resources, systems and expertise transferred to it.

I am further advised that one of the specific functions of the operator under the Act is to act as the agent for the Registrar under an arrangement under s. 46. The Act provides that the State, through the Registrar, may enter into an arrangement with the operator to act as the Registrar’s agent, including for legal proceedings relating to a titles register. The Registrar appointed the operator under an arrangement (“the agency arrangement”) to act as their agent for claims involving the Registrar (including compensation claims made against the State).

Under the agency arrangement the operator manages claims involving the Registrar. This includes the responsibility to engage legal representatives and counsel to act and to obtain any necessary legal advice.

I am advised that, for the purposes of the legislative, commercial and other arrangements described above, the Treasurer, Queensland Treasury, Queensland Investment Corporation, and all other entities within this portfolio have no role in determining land titles policy in relation to claims or directing the conduct of litigation or claims for compensation. In all those circumstances, the operator is acting as the agent for the Registrar, and the Registrar is responsible for direction to the operator as required under the agency arrangement.

I am further advised that, accordingly, in the case of *Issa v Owens & Ors (No 2)*, the operator acts as agent of Registrar in accordance with the agency arrangement and that there is no further involvement from the Treasurer or portfolio agencies in this matter.

Notably, *Issa v Owens & Ors (No 2)* is subject to an appeal that is before the Courts, and it is not possible to provide any details of the specific matter.

Economics and Governance Committee

Estimates Question on Notice Asked on 10 July 2023

Question No. 11

THE COMMITTEE ASKED THE TREASURER AND MINISTER FOR TRADE AND INVESTMENT (HON C DICK)—

QUESTION:

In relation to the State Penalties Enforcement Registry (SPER), will the Treasurer please provide:

- (a) outstanding debtors for SPER as at 31 May 2023, broken up in the following buckets by dollar figures and number of unpaid debts in tabular form: 1-30 days, 31-60 days, 61-90 days, 90-365 days, 1-3 years, 3-5 years, 5-10 years, and 10 years plus; and
- (b) outstanding debtors for SPER as at 30 June 2022, broken up in the following buckets by dollar figures and number of unpaid debts in tabular form: 1-30 days, 31-60 days, 61-90 days, 90-365 days, 1-3 years, 3-5 years, 5-10 years, and 10 years plus?

ANSWER:

I am pleased to report to the Committee the successes of the Queensland Revenue Office in managing outstanding debts. I am advised that, in the last financial year, even though the number of referrals to QRO have increased by 37 per cent, the amount and value of debts up to 60 days remains stable.

Similarly, over the same period, Debts aged between 60 days and 1 year have had a stable number but increased in value by 7 per cent, reflecting higher value debts emerging from higher mobile phone and seatbelt fines, and higher value traffic offences. Higher fines are typically more difficult to collect initially, and more likely to be subject to payment plans which have an average life of around 1 year.

In response to the question, I am advised the following:

- (a) The number of unpaid SPER debts and the outstanding balance broken up in debt age buckets as at the end of the 2022-23 financial year are set out in the following table.

| Age of debt | Number of unpaid debts | Outstanding balance |
|------------------------|------------------------|----------------------|
| Up to 30 days | 103,172 | \$ 48.48 M |
| 31 to 60 days | 83,412 | \$ 38.91 M |
| 61 to 90 days | 71,370 | \$ 30.89 M |
| 91 days to 1 year | 488,610 | \$ 218.96 M |
| Between 1 and 3 years | 772,510 | \$ 266.11 M |
| Between 3 and 5 years | 483,051 | \$ 153.15 M |
| Between 5 and 10 years | 1,054,693 | \$ 314.68 M |
| More than 10 years | 616,952 | \$ 198.04 M |
| Total | 3,673,770 | \$ 1,269.21 M |

(b) The number of unpaid SPER debts and the outstanding balance broken up in debt age buckets as the end of the 2021-22 financial year are set out in the following table.

| Age of debt | Number of unpaid debts | Outstanding balance |
|------------------------|-------------------------------|----------------------------|
| Up to 30 days | 97,183 | \$ 49.92 M |
| 31 to 60 days | 77,029 | \$ 36.39 M |
| 61 to 90 days | 68,965 | \$ 28.11 M |
| 91 days to 1 year | 484,684 | \$ 164.64 M |
| Between 1 and 3 years | 725,884 | \$ 242.27 M |
| Between 3 and 5 years | 600,115 | \$ 183.91 M |
| Between 5 and 10 years | 1,271,859 | \$ 381.01 M |
| More than 10 years | 634,744 | \$ 193.94 M |
| Total | 3,960,463 | \$ 1,280.19 M |

Economics and Governance Committee

**Estimates Question on Notice
Asked on 10 July 2023**

Question No. 12

THE COMMITTEE ASKED THE TREASURER AND MINISTER FOR TRADE AND INVESTMENT (HON C DICK)—

QUESTION:

With reference to the Montague Road, South Brisbane Property as referenced on page 17 of the Queensland Treasury Service Delivery Statement, what was:

- (a) the book value of the property as at 30 June 2022;
- (b) depreciation expenses for 2022-23;
- (c) the book value of the property as at 30 June 2023?

ANSWER:

As at 30 June 2022, the South Brisbane property's book value was \$160 million.

Reflecting independent valuation outcomes, depreciation and write-off expenses of \$83 million were recorded in 2022-23. These have been fully offset by a concomitant increase in the balance sheet value of the land asset, reflecting the value of the site inhering in land rather than fixtures, with the independently determined book value of the property being \$165 million as at 30 June 2023.

Asked on 10 July 2023**

Question No. 13

THE COMMITTEE ASKED THE TREASURER AND MINISTER FOR TRADE AND INVESTMENT (HON C DICK)—

QUESTION:

With reference to the ‘reprofiling of expenses associated with the Mental Health Levy, Debt Recovery and Compliance Program and Fine Modernisation Program’ as outlined on page 9 of the Queensland Treasury Service Delivery Statement, in what way were these expenses reprofiled?

ANSWER:

Existing funding allocated to Queensland Revenue Office in 2022-23 was deferred to 2023-24 for ongoing administration of the Mental Health Levy and the Debt Recovery and Compliance Program and delivery of the Fine Modernisation Program Foundation Phase.

Question No. 14

THE COMMITTEE ASKED THE TREASURER AND MINISTER FOR TRADE AND INVESTMENT (HON C DICK)—

QUESTION:

With reference to the \$15.5 million revenue impact over 4 years from the tax concessions for eligible build-to-rent developments, as outlined on page 203 of Budget Paper 4, on how many developments and concessions is this forecast based?

ANSWER:

I refer the Committee to the response to Question on Notice 872 asked on 16 June 2023 that can be found here: [872-2023.pdf \(parliament.qld.gov.au\)](#).

Economics and Governance Committee

**Estimates Question on Notice
Asked on 10 July 2023**

Question No. 15

THE COMMITTEE ASKED THE TREASURER AND MINISTER FOR TRADE AND INVESTMENT (HON C DICK)—

QUESTION:

With reference to ‘the revision of the timeframes and changes in the operating model for Queensland Revenue Office’s Debt Management System’ as mentioned on page 11 of the Queensland Treasury Service Delivery Statement, for each intended change, what is:

- (a) the nature of the change;
- (b) the original intended completion date for the change; and
- (c) the current intended completion date for the change?

ANSWER:

Queensland Revenue Office’s new operating model has been designed to increase proactive penalty debt management measures, including by establishing a dedicated debt management centre for increased collections, while leveraging the existing core debt management system.

Debt management centre officers proactively contact people with outstanding debts to receive payment and increase collections. Queensland Revenue Office is also undertaking more field enforcement activities across Queensland, such as vehicle immobilisation and seizure and sale of property, to enforce payment of outstanding debts.

To date, changes to the debt management system under this reform program have been organisational rather than related to information technology. Specific changes to information technology, and any dates for making any changes, have yet to be determined. Queensland Revenue Office intends to use existing funding available for systems improvement.

Economics and Governance Committee

**Estimates Question on Notice
Asked on 10 July 2023**

Question No. 16

THE COMMITTEE ASKED THE TREASURER AND MINISTER FOR TRADE AND INVESTMENT (HON C DICK)—

QUESTION:

With reference to increased staffing in the Fiscal service area of Queensland Treasury relating to ‘additional resources to administer child abuse claims’, as outlined on page 12 of the Queensland Treasury Service Delivery Statement:

- (a) How many claims were administered in 2021-22;
- (b) How many claims were administered in 2022-23; and
- (c) How many claims are budgeted to be administered in 2023-24?

ANSWER:

1,707 claims were administered in 2021-22
1,753 claims were administered in 2022-23
1,787 are budgeted to be administered in 2023-24.

For broader context, 1076 claims were administered in 2019-20.

The additional resources will provide the means to manage these claims in a way that enhances support for survivors and victims.

Economics and Governance Committee

**Estimates Question on Notice
Asked on 10 July 2023**

Question No. 17

THE COMMITTEE ASKED THE TREASURER AND MINISTER FOR TRADE AND INVESTMENT (HON C DICK)—

QUESTION:

With reference to property, plant and equipment on the balance sheet of Queensland Treasury, will the Treasurer provide a list of lot and plan numbers of land owned by the State through Queensland Treasury?

ANSWER:

Queensland Treasury owns land on Montague Road, South Brisbane. The land was acquired in the 2021-22 financial year as part of the State's planning for the delivery of the Brisbane 2032 Olympic and Paralympic Games.

The lot and plan numbers of the land are:

- Lot 1–5, 9-12 on RP10756
- Lot 2 on RP61667
- Lot 2 on RP65330
- Lot 10-12 on RP73327
- Lot 8 on RP73328
- Lot 6, 9 on RP76836
- Lot 8 on RP806186
- Lot 13-16 on CP SL8980
- Lot 2 on SP223966

Economics and Governance Committee

**Estimates Question on Notice
Asked on 10 July 2023**

Question No. 18

THE COMMITTEE ASKED THE TREASURER AND MINISTER FOR TRADE AND INVESTMENT (HON C DICK)—

QUESTION:

With reference to the interest and distributions from managed funds as outlined on the controlled income statement of Queensland Treasury, what is the breakdown of this value by source fund for:

- (a) 2022-23 Adjusted Budget;
- (b) 2022-23 Estimated Actual; and
- (c) 2023-24 Budget?

ANSWER:

The breakdown of the interest and distributions from managed funds are:

- (a) 2022-23 Adjusted Budget
 - \$1.907 million for the interest relating to a finance lease arrangement
 - \$0.914 million for the interest earned and investment returns on the balance for the Financial Provisioning Fund and Financial Provisioning Cash Surety held.
- (b) 2022-23 Estimated Actual
 - \$2.148 million for the interest relating to a finance lease arrangement
 - \$6.500 million for the interest earned and investment returns on the balance for the Financial Provisioning Fund and Financial Provisioning Cash Surety held.
- (c) 2023-24 Budget
 - \$1.675 million for the interest relating to a finance lease arrangement
 - \$9.890 million for the interest earned and investment returns on the balance for the Financial Provisioning Fund and Financial Provisioning Cash Surety held.

In regard to the interest relating to a finance lease arrangement, this is the notional interest recognised as required by the relevant accounting standards.

Economics and Governance Committee

**Estimates Question on Notice
Asked on 10 July 2023**

Question No. 19

THE COMMITTEE ASKED THE TREASURER AND MINISTER FOR TRADE AND INVESTMENT (HON C DICK)—

QUESTION:

With reference to finance/borrowing costs as outlined on the controlled income statement of Queensland Treasury, what explains the discrepancy between 2022-23 Adjusted Budget and 2022-23 Estimated Actual?

ANSWER:

The \$1.746 million finance/borrowing costs relate to a finance lease arrangement. As required by the relevant accounting standard, a finance/borrowing cost is recognised if the finance lease arrangement implies a concessional interest rate.

At the time of the 2022-23 Budget, the finance/borrowing cost had been expected to be recognised in 2021-22, but is now recognised in 2022-23.

Economics and Governance Committee

**Estimates Question on Notice
Asked on 10 July 2023**

Question No. 20

THE COMMITTEE ASKED THE TREASURER AND MINISTER FOR TRADE AND INVESTMENT (HON C DICK)—

QUESTION:

With reference to losses on sale/revaluation of assets as outlined on the controlled income statement of Queensland Treasury, what is the breakdown of the \$58.667 million by asset?

ANSWER:

Losses on sale/revaluation of assets relate to the write-off of building assets associated with the Montague Road, South Brisbane property.

This follows the completion of independent valuation received by Queensland Treasury during 2022-23 which confirmed that the market value of the property was \$165 million (as expected), and the subsequent write-off of building values to reflect the valuation outcomes. The write-off has since been fully offset by a concomitant increase in the balance sheet value of the land asset, reflecting the value of the site inhering in land rather than fixtures. Depreciation expenses and write-offs are non-cash expenses recognised in accordance with the requirements of relevant accounting standards and Non-Current Asset Policies for the Queensland Public Sector.

ECONOMICS AND GOVERNANCE COMMITTEE

2023 ESTIMATES HEARING

QUESTION ON NOTICE

No. 1

THE ECONOMICS AND GOVERNANCE COMMITTEE ASKED THE MINISTER FOR TOURISM, INNOVATION AND SPORT AND MINISTER ASSISTING THE PREMIER ON OLYMPICS AND PARALYMPICS SPORT AND ENGAGEMENT (HON S HINCHLIFFE) —

QUESTION:

With reference to page 3 of the Department of Tourism, Innovation and Sport Service Delivery Statement, and the reference to driving the return and growth of a sustainable and competitive tourism industry, will the Minister provide an update on the Queensland Destination Events Program?

ANSWER:

The Queensland Destination Events Program (QDEP), administered by Tourism and Events Queensland (TEQ), is designed to provide a growth pathway for events across Queensland that play a role in attracting visitors to the region and promoting the host destination. These destination events work to drive visitation, generate local economic activity and development, promote destinations, and engage communities.

2023 marks eight years since the QDEP was launched, with the program continuing to go from strength to strength. Since 2015, QDEP has invested more than \$19 million across 650 events in Queensland. In 2022-23, 115 destination events were supported by TEQ, with 60 being staged outside of South East Queensland.

Some of the events supported through QDEP in 2022-23 include:

- Abbey Medieval Festival
- Airlie Beach Festival of Music
- BLEACH* Festival
- Boyne Tannum HookUp
- Cairns Indigenous Art Fair
- Caloundra Music Festival
- Childers Festival
- Julia Creek Dirt n Dust Festival
- Kingaroy BaconFest
- North Queensland Elite Rodeo
- Queensland State Cup
- Relish Food and Wine Festival
- Yeppoon Running Festival
- Rumble on the Reef
- Sunshine Coast Marathon Festival

Applications received for Round 25 of the QDEP are currently under assessment, with applications for Round 26 for events to be staged from May 2024 to May 2025 now open.

The QDEP underpins the growth pathway for homegrown events across Queensland which is a key component of the *Towards Tourism 2032: Transforming Queensland's visitor economy future* strategy. The Queensland Government continues to work with the events industry to attract and retain events to ensure Queensland's events calendar remains attractive to visitors.

QUESTION ON NOTICE

No. 2

THE ECONOMICS AND GOVERNANCE COMMITTEE ASKED THE MINISTER FOR TOURISM, INNOVATION AND SPORT AND MINISTER ASSISTING THE PREMIER ON OLYMPICS AND PARALYMPICS SPORT AND ENGAGEMENT (HON S HINCHLIFFE) —

QUESTION:

With reference to page 2 of the Department of Tourism, Innovation and Sport Service Delivery Statement, and the reference to providing opportunities for Queenslanders of all ages and all abilities to be physically active, will the Minister provide an update on the participation rates for Queenslanders in sport and recreation activities?

ANSWER:

The Department of Tourism, Innovation and Sport (DTIS) continues to deliver a wide range of opportunities to Queenslanders of all ages and abilities by providing access to a broad range of sport and recreation activities. DTIS also works collaboratively with the active industry to get more Queenslanders, more active, more often.

The *Activate! Queensland 2019–2029 Strategy* (Activate! Queensland) is the Queensland Government's 10-year approach to further enrich the Queensland way of life through physical activity. The second action plan under Activate! Queensland, *Accelerate 2022-2025* (Accelerate) is delivering a range of initiatives and programs to increase opportunities for physical activity participation including:

- The FairPlay program which provides vouchers of up to \$150 for low-income families, to be used towards sport and active recreation membership, registration or participation fees with registered activity providers. Over 70 percent of FairPlay voucher recipients reported that FairPlay had a positive influence on their children's physical activity, and 93 percent reported that it was likely that the program would contribute to their child being physically active in the future.
- The recently announced SwimStart program will aim to make swimming lessons more affordable for children aged 0-4 years.
- Our First Nations Sport and Recreation Programs fund projects that coordinate and facilitate delivery of community-led physical activities for Aboriginal and Torres Strait Islander peoples across the State including in discrete communities.
- DTIS co-contributes to infrastructure funding providing spaces that enable inclusive, accessible, quality and safe community sport and recreation participation opportunities.
- The Emerging Athlete's Program supports eligible young athletes, coaches and officials aged 10-18 years to progress on a development pathway by providing financial assistance to help alleviate the costs associated with attending state, national and international events.

- The ActiveKIT program, in partnership with Health and Wellbeing Queensland, provides funding to support innovative products or services to enable more Queenslanders to be physically active.
- Our Queensland Active Precincts provide a diverse range of sport and outdoor recreation opportunities.
- The Active Clubs program provides funding to not-for-profit local and regional sport and active recreation organisations to support volunteers and provide flexible and safe physical activity opportunities.

The initiatives and programs DTIS drive under Activate! Queensland and Accelerate are working. DTIS funded state sporting organisations have reported that, in 2022 alone, at least 1,105,915 participation opportunities have been afforded to Queenslanders across all parts of the state, with many sports also reporting increased participation levels.

Female participation in Queensland sport is also breaking records, with more Queensland girls and women participating in sport or active recreation than at any time in the state's history.

According to the Australian Sport Commission's *AusPlay Survey* which tracks national participation trends:

- In 2022, 58.5 percent of Queensland adults (aged 15 and over) participated in sport or physical activity at least three times per week.
- Children's participation in sport or physical activity in Queensland has been steadily increasing since the disruptions of COVID-19.
- In 2022, Queensland children (aged 0 to 14) who participated in sport and physical activity at least three times per week (outside of school hours) increased to 21.2 percent, which is greater than the national average of 18.5 percent and up from 15.1 percent in 2021 and 16.6 percent in 2020.

DTIS will continue to address the varied and complex barriers that prevent Queenslanders from being more physically active, as well as drive the creation of innovative and exciting opportunities that encourage individuals to participate.

QUESTION ON NOTICE

No. 3

THE ECONOMICS AND GOVERNANCE COMMITTEE ASKED THE MINISTER FOR TOURISM, INNOVATION AND SPORT AND MINISTER ASSISTING THE PREMIER ON OLYMPICS AND PARALYMPICS SPORT AND ENGAGEMENT (HON S HINCHLIFFE) —

QUESTION:

With reference to page 4 of the Department of Tourism, Innovation and Sport Service Delivery Statement, and the reference to driving a world-class connected and sustainable innovation ecosystem throughout Queensland, will the Minister provide an update on Ignite Ideas?

ANSWER:

The Queensland Government's significant investment in backing Queenslanders to build our innovation economy is continuing to drive economic growth and create jobs.

The Advance Queensland initiative plays a key role in the Queensland Government's plan to grow innovative Queensland businesses, generate new economic opportunities and develop high value knowledge-based jobs.

The Advance Queensland – Ignite Ideas Fund (the Fund) supports Queensland based small to medium businesses with high growth potential to undertake commercialisation projects.

Since its launch in 2016, the Fund has committed over \$49 million to support more than 400 Queensland businesses who have reported over 6,000 jobs being supported.

The Fund's recipients are from a diverse range of sectors throughout Queensland including tourism, agriculture, advance manufacturing, renewable energy, technology, engineering and construction industries.

Round 9 of the Fund was completed in late 2022, with 22 Queensland businesses sharing in a total of \$2.61 million. These businesses are not only based in South East Queensland but also represent Townsville and Rockhampton, which is a great indicator for innovation across the State.

The latest round of recipients are undertaking innovative projects such as:

- a world first respiratory monitor to aide healthcare staff when undertaking respiratory assessments;
- Australia's first natural, waterproof render coating made from tree resin and crushed limestone;
- an app using voice cloning artificial intelligence which synthesizes a natural voice for more than 160 million of the voice impaired community; and

- a Virtual Paediatric Ward which will assist overburdened emergency and hospital departments.

Round 10 of the Fund is in the final stages of assessment, with plans underway for opening Round 11 later this year.

The Fund will continue supporting Queensland startups and innovators to grow and drive employment for years to come.

ECONOMICS AND GOVERNANCE COMMITTEE

2023 ESTIMATES HEARING

QUESTION ON NOTICE

No. 4

THE ECONOMICS AND GOVERNANCE COMMITTEE ASKED THE MINISTER FOR TOURISM, INNOVATION AND SPORT AND MINISTER ASSISTING THE PREMIER ON OLYMPICS AND PARALYMPICS SPORT AND ENGAGEMENT (HON S HINCHLIFFE) —

QUESTION:

With reference to page 7 of the Department of Tourism, Innovation and Sport Service Delivery Statement, and the reference to \$53 million allocated to the Community Recreational Assets Recovery and Resilience Program to support sport and recreation organisations' clean up and repair of equipment and facilities damaged from the South East Queensland rain and flooding event, will the Minister provide an update on the projects?

ANSWER:

Of the 197 projects funded under the joint State-Federal Government Community Recreational Assets Recovery and Resilience Program (the Program), 70 have works either underway or completed, including:

- \$2.25 million to rebuild a clubhouse with change rooms at Wynnum Wolves football;
- \$2.97 million to rebuild the synthetic playing surface and repair of ancillary facilities at Mitchelton Sports Club;
- \$2.78 million for facility repair works at Tansey Polocrosse Complex in Gympie; and
- \$2.06 million for flood repairs at the Gold Crest Cricket Club Newmarket – Commercial Hockey Club facility.

Works completed include projects at the Gatton Campdraft Association, Caboolture Netball, Pine Rivers Swans AFL, Albany Creek Excelsior Football Club and Pine Rivers Golf Club.

Due to the operational requirements of some organisations and the level of damage at some sites, there are projects yet to commence construction. These projects are undertaking planning and scoping to determine the best outcomes for the organisation within the available funding. The Department of Tourism, Innovation and Sport (DTIS) expects all projects to be completed by 30 June 2024, subject to any exceptional circumstances.

In acknowledging the current capacity of volunteer-run sport and recreation organisations (along with some local government authorities), DTIS will oversee delivery of 38 projects to reduce the administrative burden on these organisations and instead allow them to focus on the operational requirements of their clubs and keeping their community engaged in sport and active recreation.

In partnership with the Queensland Reconstruction Authority, additional funding under the Program of \$3.79 million for works at Golden Beach Seawall Caloundra and \$2.06 million for Gympie Netball, has been provided to deliver more resilient and longer lasting outcomes for these organisations and the broader community.

No. 5

THE ECONOMICS AND GOVERNANCE COMMITTEE ASKED THE MINISTER FOR TOURISM, INNOVATION AND SPORT AND MINISTER ASSISTING THE PREMIER ON OLYMPICS AND PARALYMPICS SPORT AND ENGAGEMENT (HON S HINCHLIFFE) —

QUESTION:

With reference to page 2 of the Department of Tourism, Innovation and Sport Service Delivery Statement, and the reference to the Queensland Innovation Precincts and Places Strategy 2022-2032, will the Minister provide an update on the implementation of the strategy?

ANSWER:

Queensland is home to over 300 innovation places located across our State focusing on growing sustainable regional economies, our competitive strengths, emerging sectors and new jobs.

The Queensland Government has invested in key innovation places across the State, including the Herston Health Precinct, the Boggo Road Precinct, and the Gold Coast Health and Knowledge Precinct.

The 10-year *Queensland Innovation Precincts and Places Strategy: A Place to Innovate* (the Strategy) sets out the pathway for a highly connected, inclusive and collaborative system of innovation places.

The Strategy is driving opportunities through three key pillars: empowering people to collaborate and thrive; maximising innovation from the infrastructure in our places; and harnessing opportunities and achievements through targeted purpose.

A new \$15 million Queensland Innovation Precincts and Places Fund has been established as part of the Strategy to assist innovation place leaders and stakeholders to achieve their goals.

QUESTION ON NOTICE

No. 6

THE ECONOMICS AND GOVERNANCE COMMITTEE ASKED THE MINISTER FOR TOURISM, INNOVATION AND SPORT AND MINISTER ASSISTING THE PREMIER ON OLYMPICS AND PARALYMPICS SPORT AND ENGAGEMENT (HON S HINCHLIFFE) —

QUESTION:

With reference to page 2 of the Department of Tourism, Innovation and Sport Service Delivery Statement, and the reference to the Brisbane 2032 Legacy Plan, will the Minister provide an update on the development of the plan to date?

ANSWER:

Hosting the Brisbane 2032 Olympic and Paralympic games (Brisbane 2032) will create a lasting legacy for our community, our economy and our environment in the lead up to Brisbane 2032 and for the 10 years after.

The Brisbane 2032 Legacy Strategy (the Legacy Strategy) is being developed to set a strategic vision for the legacy outcomes we want to achieve as a city, state, nation and Oceania region because we're hosting the Olympic and Paralympic Games.

A phased approach has been taken to develop the Legacy Strategy. Importantly, each phase is intended to build on the previous, starting with the commitments made during the candidature.

To assist with the development of the Legacy Strategy, an Urbis-led consortium was appointed by the Department of Tourism, Innovation and Sport on 24 August 2022.

In the first few phases of the Legacy Strategy's development, workshops were held with targeted stakeholders including representatives from Queensland Government departments and Games Delivery Partners. The Brisbane 2032 Legacy Committee, which was appointed by the Premier and Minister for the Olympic and Paralympic Games on 21 July 2022 and comprises 12 Queenslanders from a range of diverse backgrounds, also participated in a workshop to develop the Legacy Strategy.

Following the targeted stakeholder engagement, a number of public engagement activities have been undertaken to help shape the Legacy Strategy, including:

- The Hopes and Dreams Campaign which opened on 5 December 2022 and closed on 3 March 2023. Over 12,000 ideas were gathered as part of this campaign from all over Queensland, Australia and beyond.
- The Brisbane 2032 Legacy Forum, a key milestone in the development of the Brisbane 2032 Legacy Strategy, was held at the Royal International Convention Centre in Brisbane on 22 March 2023.

- Around 500 of Australia’s best, brightest and boldest minds attended the Brisbane 2032 Legacy Forum, where four legacy themes were explored in depth and another 1000 ideas were shared.
- The nearly 14,000 ideas that have been shared through the Hopes and Dreams survey, stakeholder engagement and the Brisbane 2032 Legacy Forum were summarised in *Elevate 2042: The Brisbane 2032 Legacy Consultation Paper* (Elevate), which was released for consultation on 26 May 2023 and closed on 25 June 2023.
 - Elevate sought feedback on the draft vision for our Brisbane 2032 legacy aspirations – “By 2042, a child born today has more opportunities in life, in an inclusive society and a connected region” – as well as the four legacy themes that emerged strongly through the engagement process including:
 - Sport, Health and Social Inclusion
 - A Better Future for our Environment
 - Connecting Regionally and Globally
 - Economy, Jobs and Innovation.
 - Feedback was also sought on two important lenses that will run through each of the legacy themes and sit at the heart of the Legacy Strategy – “Celebrating the World’s Oldest Living Cultures” and “Creating a Barrier-Free Society for People with Disability”.
 - Some of the ideas heard through the engagement process and showcased in Elevate include:
 - Building the most sustainable venues
 - A First Nations Cultural Centre
 - Sport for Every Child
 - Construction of innovation clusters focussing on augmented reality, bio-medical and environmental technology; and
 - South East Queensland being the world’s first Inclusive Tourism Destination.
 - Elevate received 498 responses, comprising 424 individuals and 74 organisations representing over 20,000 staff and members. The responses indicated overall support for the themes and focus areas, with around 2000 practical steps or suggestions generated to help deliver legacy themes and focus areas.

The feedback is currently all being considered as the Legacy Strategy is finalised for release later this year.

No. 7

THE ECONOMICS AND GOVERNANCE COMMITTEE ASKED THE MINISTER FOR TOURISM, INNOVATION AND SPORT AND MINISTER ASSISTING THE PREMIER ON OLYMPICS AND PARALYMPICS SPORT AND ENGAGEMENT (HON S HINCHLIFFE) —

QUESTION:

With reference to page 2 of the Department of Tourism, Innovation and Sport Service Delivery Statement, and the reference to Phase 1 of the Towards Tourism 2032: Transforming Queensland's visitor economy future strategy, will the Minister provide an update on the implementation of the strategy?

ANSWER:

Under the *DestinationQ Partnership*, the Queensland Government and Queensland tourism industry committed to provide an annual progress report on implementation of *Towards Tourism 2032: Transforming Queensland's visitor economy future* (TT32) at the *DestinationQ* Forum in November 2023.

With industry, we are six months into delivering the first three-year (2023-25) TT32 implementation plan to 'build and focus' – a sustained effort to grow industry now and lay foundations for future growth. There has already been good progress and outcomes, including:

- Achieving a record \$32.9 billion annual overnight visitor expenditure (OVE) in the year ending March 2023, with industry well on track to meet the TT32 interim target of \$34 billion annual OVE by 2027, and final target of \$44 billion annual OVE by 2032.
- The \$200 million joint Attracting Aviation Investment Fund has landed an additional 22 services estimated to deliver more than 1.69 million inbound international seats, up to \$1.37 billion in overnight visitor expenditure and supporting up to 15,266 good Queensland jobs.
- Launch of the \$20 million Music Trails with six trails annually from 2023 to 2025.
- Announcement of 2023 as the Year of Accessible Tourism, including \$12 million of initiatives to help industry and operators improve their accessibility and inclusiveness.
- Boosting Queensland's nature-based tourism experiences and sustainability credentials through programs such as the \$9.2 million Activate Ecotourism Infrastructure initiative and the \$2 million Eco-certified Tourism Destination Program, funding 13 destinations.
- Funding delivery of 77 national business events under the \$7 million Queensland Government Convention and Exhibition Centre Economic Recovery Bid Support Program to increase Queensland's attractiveness as a business event destination.

- Delivering the Great Barrier Reef Education Experience Program.
- Queensland hosting the 43rd edition of the Australian Tourism Exchange on the Gold Coast, with over 2300 international delegates, buyers and media attending.
- Delivering successful tourism promotion and campaigns such as 'Days Like This', 'Queensland is Calling', and the Airbnb Live and Work Campaign.
- Delivery of the Young Tourism Leaders Program with 70 engagements in 2023.
- Extending the Our Country Advisory Service, with five business development officers based from South East Queensland to Thursday Island.

Challenges remain, including ongoing workforce and skills shortages, and rebuilding international tourism to pre-COVID pandemic levels. However, Queensland's visitor economy is well positioned to transform and grow, ensuring Queensland is a global destination of choice.

ECONOMICS AND GOVERNANCE COMMITTEE

2023 ESTIMATES HEARING

QUESTION ON NOTICE

No. 8

THE ECONOMICS AND GOVERNANCE COMMITTEE ASKED THE MINISTER FOR TOURISM, INNOVATION AND SPORT AND MINISTER ASSISTING THE PREMIER ON OLYMPICS AND PARALYMPICS SPORT AND ENGAGEMENT (HON S HINCHLIFFE) —

QUESTION:

With reference to page 7 of the Department of Tourism, Innovation and Sport Service Delivery Statement, and the reference to \$17 million in funding for sport and active recreation facilities at the Gold Coast, Sunshine Coast and Townsville, will the Minister provide an update on the enhancements?

ANSWER:

The Department of Tourism, Innovation and Sport (DTIS) own and operate five Sport and Recreation Venues that influence and inspire active experiences for Queenslanders, including the Gold Coast Recreation Precinct, Sunshine Coast Recreation Precinct and Townsville Sports Precinct (the Venues).

In 2022-23, the Venues collectively achieved the following outcomes with:

- more than 500,000 people visiting
- 97 percent overall client satisfaction
- 92 percent overall catering satisfaction
- 411,961 hours of instructor-led activity delivered, achieving physical literacy outcomes for all participants
- 370,815 meals served to our clients
- 366 units of internal training completed for staff
- over 4000 events hosted in our venues.
- 45 regionally significant events with over 63,650 patrons turning out to experience events, including the Turf Games at the Gold Coast, Rugby Australia Women's Rugby sevens in Toowoomba and the Far North Queensland Festival of Athletics in Townsville.

2023-24 is shaping up to be just as successful, with continuing high demand for bookings at the Venues.

In 2022-23, DTIS delivered the following capital works (as part of *Our Active8 2019-2022*, the first three-year Action Plan under *Activate! Queensland 2019-2029* – the Queensland Government's 10-year strategy to enrich the Queensland way of life through physical activity) at the Venues:

- lighting upgrade to an indoor court and replacement of the pool filtration system and heaters at the Gold Coast Recreation Precinct; and
- completion of the indoor multipurpose courts project at the Sunshine Coast Recreation Precinct.

As part of the second three-year Action Plan, *Accelerate 2022-2025*, \$28.5 million has been committed over three years to undertake the following capital projects at the Venues:

- athletic track refurbishment and multipurpose indoor court cooling at the Townsville Sports Precinct
- final stage of the accommodation redevelopment and new car park at the Gold Coast Recreation Precinct
- administration office, gymnasium and recovery facilities at the Sunshine Coast Recreation Precinct
- upgrades to Brisbane Sports House.

In 2022-23, DTIS updated the master planning for the Venues and completed program planning and costings in readiness for delivery of the approved projects in 2023-24 and 2024-25.

QUESTION ON NOTICE

No. 9

THE ECONOMICS AND GOVERNANCE COMMITTEE ASKED THE MINISTER FOR TOURISM, INNOVATION AND SPORT AND MINISTER ASSISTING THE PREMIER ON OLYMPICS AND PARALYMPICS SPORT AND ENGAGEMENT (HON S HINCHLIFFE) —

QUESTION:

With reference to page 2 of the Department of Tourism, Innovation and Sport Service Delivery Statement, and the reference to the 2032 High Performance Strategy, will the Minister provide an update on the QAS vision of 'Inspiring Extraordinary Sporting Success'?

ANSWER:

The Queensland Academy of Sport (QAS) is the Queensland Government's high-performance sports agency that provides and delivers world-leading performance support services for elite athletes to achieve podium success on the world stage.

The QAS 2032 High-Performance Strategy (the Strategy) has transformed the way the Queensland Government invests in high-performance sport by adopting an evidence-based, targeted approach to deliver a wider range of medal opportunities for Queensland's athletes.

The Strategy is supported by QAS taking a 'team behind the team' approach, with a well-developed Performance Support Team that includes Doctors, Physiotherapists, Strength and Conditioning Coaches, Performance Scientists and Athlete Wellbeing and Engagement Practitioners engaged to support our medal winning athletes, along with access to world-class facilities and performance equipment.

Notable achievements by QAS over the last year include:

- 49 percent of all Australian medals at the Birmingham 2022 Commonwealth Games (Birmingham 2022) were won by Queensland athletes. This included 33 Gold Medals.
- Supported 21 para-athletes and three First Nations athletes within the Birmingham 2022 team.
- Supported athletes have won 152 medals at World Championships, with 57 of those medals being Gold.
- QAS has partnered with 20 national and/or state sporting organisations that aim to prepare 750 Queensland athletes for medal winning success at the Paris 2024 Olympic and Paralympic Games (Paris 2024), the Los Angeles 2028 Olympic and Paralympic Games, and/or the Brisbane 2032 Olympic and Paralympic Games (Brisbane 2032).

- With Paris 2024 less than a year away, eight QAS Performance Support Staff have been confirmed as members of the Australian Olympic and Paralympic Performance Support Teams. This number is anticipated to increase to between 15 to 20 staff by the time Paris 2024 commences, reflecting the confidence the Australian Olympic Committee has in the QAS Performance Support Team and the work they are doing in preparing our athletes.
- The largest ever state-wide search for Queensland's future Olympians and Paralympians, Youfor2032, has travelled to 23 regional locations and South-East Queensland, testing over 3400 candidates. 190 people have progressed to further explore their Brisbane 2032 medal potential.
- Delivery of a bespoke, accelerated coach development program, with 24 of Queensland's future Brisbane 2032 coaches, in partnership with the Australian Institute of Sport and national sporting organisations, with 12 participants being female.
- Hosted the inaugural high-performance sport conference, IGNITE 2032, engaging more than 500 people across the high-performance community.
- Achieved a 2.6 to 1 co-contribution ratio for partnership investment into research projects.
- Participated in a CSIRO Next Generation Graduates Program, with the Queensland University of Technology, to develop the pipeline of career ready graduates across Queensland in AI and emerging technologies.
- Construction of a new National Throws Centre of Excellence at the Queensland Sport and Athletics Centre, Nathan, to service throwing disciplines including javelin, discus, shot put, hammer throw and para throws, in partnership with Athletics Australia, the Australian Institute of Sport and Stadiums Queensland.
- Exploring opportunities for a world leading, Action Sports Centre of Excellence on the Gold Coast in partnership with the Australian Institute of Sport and the City of Gold Coast.

As preparations continue towards Paris 2024, Queensland athletes are smashing the competition at events around the world. At the X Games California 2023:

- QAS supported Gold Coast 13-year-old, Chloe Covell became the youngest female to win the X Games Street Skateboarding competition and also went on to claim the bronze in the best trick event.
- Fellow Gold Coaster, and member of the QAS Talent Support Program, Arisa Trew, also 13, became the youngest female to win two X Games events when she won the Vert event and Park event.

At the recent World Aquatics Championships in Japan, Queensland athletes have dominated the podium including:

- Cassiel Rousseau won a Gold Medal and was the first Australian man to medal in the 10-metre platform event at a World Championships.
- Maddison Keeney joined Queenslander Domonic Bedggood to win Silver Medals in the Mixed 3-metre springboard.
- Brisbane based teammates, Mollie O'Callaghan, Shayna Jack, Brianna Throssell and Ariarne Titmus broke the world record to take the Gold Medal in the 4x200-metre Freestyle relay.
- Sam Short won a Gold Medal in the 400-metre Freestyle and a Silver Medal in the 800-metre Freestyle events.
- Ariarne Titmus blew the competition away with a World Record and a Gold Medal in the women's 400-metre Freestyle.

- Mollie O'Callaghan broke the longest standing women's swimming record winning the Gold Medal in the 200-metre Freestyle with Ariarne Titmus winning the Silver Medal in the same event.
- Mollie O'Callaghan, Shayna Jack, Emma McKeon and Brianna Throssell won the Gold Medal and broke the world record in the Women's 4x100-metre Freestyle relay.
- Jack Cartwright, Flynn Southam and Kai Taylor won the Gold Medal for the 4x100-metre Freestyle relay.
- 19-year-old Elizabeth Dekkers won the Silver Medal in the 200-metre Butterfly event.
- Kaylee McKeown won the Gold Medal for the 100-metre and 50-metre Backstroke events, and is now the only woman in the world to win the 100-metre backstroke events at both the World Long and Short Course Championships, the Olympic Games, and the Commonwealth Games.
- Shayna Jack, Zac Stubblety-Cook and Kaylee McKeown won the Silver Medal in the 4x100-metre Mixed relay.

This week we also have our Queensland Para swimmers competing at the Para World Swimming Championships in Manchester and we can't wait to see what stunning results they can achieve.

QUESTION ON NOTICE

No. 10

THE ECONOMICS AND GOVERNANCE COMMITTEE ASKED THE MINISTER FOR TOURISM, INNOVATION AND SPORT AND MINISTER ASSISTING THE PREMIER ON OLYMPICS AND PARALYMPICS SPORT AND ENGAGEMENT (HON S HINCHLIFFE) —

QUESTION:

Regarding the Tourism Activation Fund, could the Minister provide a breakdown of funding by financial year (including for the 2023/24 financial year) as well as a list of recipients?

ANSWER:

The \$20 million Tourism Activation Fund (TAF) is a key commitment within the Queensland Government's \$74 million *Rebuilding Queensland Tourism* policy and will deliver strategic initiatives and enhance tourism experiences that accelerated economic recovery through and beyond COVID-19. TAF funding breakdown by financial year is as follows:

- 2021-22 - \$0.086 million
- 2022-23 - \$5.745 million
- 2023-24 - \$9.169 million
- 2024-24 - \$5.000 million.

The TAF supports the following Queensland Government programs:

- **Convention and Exhibition Centre Economic Recovery Bid Support Program** – Supporting the Cairns, Brisbane and Gold Coast Convention Centres to attract national business events.
- **Eco-certified Tourism Destination Program** – Supporting the following 13 local government authorities and regional and local tourism organisations to assist their tourism destinations with achieving globally recognised certification:
 - Brisbane Economic Development Agency
 - Bundaberg Regional Council
 - Cassowary Coast Regional Council
 - Etheridge Shire Council
 - Gladstone Area Promotion and Development Limited
 - Gympie Regional Council
 - Livingstone Shire Council
 - Moreton Bay Regional Council
 - Murweh Shire Council
 - Noosa Shire Council
 - Scenic Rim Regional Council
 - Townsville City Council
 - Winton Shire Council.

- **Activate Ecotourism Infrastructure** – Delivering, with the following organisations, ecotourism and nature-based tourism infrastructure adjacent to, or near, a public protected area, world heritage area, timber reserve or state forest:
 - Australian Tourist Park Management Pty Ltd (trading as NRMA Parks and Resorts)
 - The Queensland Walking Company
 - Pandana Capital Pty Ltd
 - Jarramali Rock Art Tours
 - Carnarvon Gorge Park Pty Ltd
 - Marine Media Group.
- **Great Barrier Reef Marine Infrastructure Package** – Supporting development of marine infrastructure to connect visitors and residents to the Great Barrier Reef Islands.

The TAF also supports development of First Nations tourism and eco-tourism through targeted initiatives.

QUESTION ON NOTICE

No. 11

THE ECONOMICS AND GOVERNANCE COMMITTEE ASKED THE MINISTER FOR TOURISM, INNOVATION AND SPORT AND MINISTER ASSISTING THE PREMIER ON OLYMPICS AND PARALYMPICS SPORT AND ENGAGEMENT (HON S HINCHLIFFE) —

QUESTION:

Regarding meetings held in 2022/23 between the Department of Tourism, Innovation and Sport and the Department of Environment and Science regarding approvals for the Wangetti Trail project, can the Minister provide for each:

- a. the date of the meeting;
- b. whether the meeting involved a Director-General or Deputy Director-General of either department; and
- c. any action items and the responsible parties?

ANSWER:

The Wangetti Trail (the Trail) forms part of the Queensland Ecotourism Trails Program (the Program) which is a Queensland Government initiative being delivered by the Department of Tourism, Innovation and Sport (DTIS) and the Department of Environment and Science (DES).

The Trail is set to be the most technically complex and longest trail development ever delivered in Queensland. The Trail itself spans a World Heritage area, three national parks, two local government areas, three separate native title claims, along with freehold and reserves held in trust landholdings.

Noting those complexities, DTIS and DES, as the key responsible parties, are working closely and meeting often to address matters ranging from policy level queries down to the operational level of ecotourism trail delivery.

As detailed in the responses to Question on Notice 474 asked on 20 April 2023 and Question on Notice 787 asked on 14 June 2023, approvals and assessments lie across a range of entities and DTIS-DES meetings regarding these key deliverables would be inappropriate.

There have been 16 meetings held between DES and DTIS at the Deputy Director-General or Director-General level over the course of the past year, this includes regular scheduled ecotourism project meetings.

DTIS works in close collaboration with DES to confirm project expectations, progress and outcomes, and meet on a regular basis, usually weekly, alongside representatives from a broad range of stakeholders to discuss the Program (which includes the Trail).

DTIS and DES staff, of course, meet regularly and these meetings can include other Queensland Government agencies, Traditional Owners, regional councils, tourism businesses and local members, and cover a range of topics.

DTIS appreciates DES' position to act as independent assessors for these important projects and assists in providing status updates and regular project briefings.

No. 12

THE ECONOMICS AND GOVERNANCE COMMITTEE ASKED THE MINISTER FOR TOURISM, INNOVATION AND SPORT AND MINISTER ASSISTING THE PREMIER ON OLYMPICS AND PARALYMPICS SPORT AND ENGAGEMENT (HON S HINCHLIFFE) —

QUESTION:

With reference to page 8 of the Department of Tourism, Innovation and Sport Service Delivery Statement, and the reference to the Tourism Experience Development Fund, will the Minister provide an update on the number of projects allocated funding and the amount of total investment secured through the program?

ANSWER:

In 2022, the Tourism Experience Development (TED) Fund was established to rebuild visitor confidence, drive demand for Queensland destinations and meet the changing preferences of consumers through enhanced tourism products.

Through the TED Fund, 50 projects were successful through the open funding round.

The TED Fund has secured a total investment from the tourism industry of \$48,630,829.

ECONOMICS AND GOVERNANCE COMMITTEE

2023 ESTIMATES HEARING

QUESTION ON NOTICE

No. 14

THE ECONOMICS AND GOVERNANCE COMMITTEE ASKED THE MINISTER FOR TOURISM, INNOVATION AND SPORT AND MINISTER ASSISTING THE PREMIER ON OLYMPICS AND PARALYMPICS SPORT AND ENGAGEMENT (HON S HINCHLIFFE) —

QUESTION:

Regarding the Attracting Aviation Investment Fund, could the Minister provide the 2022/23 actual expenditure and the 2023/24 budgeted expenditure for the program?

ANSWER:

On 11 February 2022, the Queensland Government announced a partnership with the private sector to deliver \$200 million in funding to secure more flights into key tourism destinations.

The Queensland Government's \$100 million boost to the Attracting Aviation Investment Fund (AAIF) is being matched dollar for-dollar by airports, regional tourism organisations and tourism operators. This enables our airports to negotiate with airlines to fast-track more direct flights into Queensland.

International aviation connectivity is critical to the economic recovery of Queensland's tourism industry – more flights mean more tourists. The combined \$200 million investment is estimated to deliver up to 5.3 million airline seats per year, generating almost \$4 billion in overnight visitor expenditure.

Queensland's airports now have greater certainty to negotiate flights with airlines to facilitate the speedy return of international tourists back into the State.

The Department of Tourism, Innovation and Sport will continue to work with airports to grow international aviation capacity into Queensland and is continuing to consider Attracting Aviation Investment Fund proposals from airports.

The 2022-23 Actual Expenditure for the AAIF is \$4,793,122.95, with a 2023-24 Budgeted Expenditure of \$10,255,000.

The budgeted expenditure amount is greater in 2023-24 as incentive payments to airports are paid in arrears, subject to evidence of first year performance objectives being met.

2023 ESTIMATES HEARING

QUESTION ON NOTICE

No. 15

THE ECONOMICS AND GOVERNANCE COMMITTEE ASKED THE MINISTER FOR TOURISM, INNOVATION AND SPORT AND MINISTER ASSISTING THE PREMIER ON OLYMPICS AND PARALYMPICS SPORT AND ENGAGEMENT (HON S HINCHLIFFE) —

QUESTION:

With reference to the 2022 Innovation for a Future Economy roadmap's objective of increasing expenditure on research and development (R&D), can the Minister provide a breakdown of the State Government's expenditure on R&D broken down by year and by department for the last five years?

ANSWER:

The State Government's expenditure on research and development (R&D) is documented in the Queensland Government R&D expenditure reports developed by the Office of the Queensland Chief Scientist and published on their website at www.chiefscientist.qld.gov.au/publications/rnd-expenditure-reports.

In addition, detailed spreadsheets regarding Queensland Government R&D expenditure are published on the Open Data Portal at www.data.qld.gov.au/dataset/queensland-government-research-and-development-expenditure-data.

QUESTION ON NOTICE

No. 16

THE ECONOMICS AND GOVERNANCE COMMITTEE ASKED THE MINISTER FOR TOURISM, INNOVATION AND SPORT AND MINISTER ASSISTING THE PREMIER ON OLYMPICS AND PARALYMPICS SPORT AND ENGAGEMENT (HON S HINCHLIFFE) —

QUESTION:

Can the Minister detail how the ‘over 28,000 Jobs supported across Queensland as a result of Advance Queensland investment’ cited in the Innovation for a Future Economy roadmap was calculated, with a breakdown of the number of jobs created by year, location and field?

ANSWER:

The Advance Queensland initiative plays a key role in the Queensland Government’s plan to create employment, generate new economic opportunities and develop the knowledge-based jobs of the future.

Advance Queensland jobs data is based on information provided by funding recipients through application processes, regular milestone reporting and other contractual reports. This comprises:

- jobs reported by recipients as being established as a direct result of Advance Queensland funding; and
- additional jobs reported by recipients as forecast, but yet to be established as a direct result of Advance Queensland funding.

Recipient reporting varies in timing and frequency, depending on the nature of the program and project. Therefore, there may be a delay between real-time job creation and jobs reported. In addition, some jobs forecasted by recipients may not come to fruition or contracts with recipients may be terminated, which may result in a drop in number of total jobs supported.

Whole of initiative reporting on jobs supported by Advance Queensland, using the above methodology, commenced in December 2016, with over 1,400 jobs reported by recipients.

Total jobs supported by Advance Queensland at the end of each subsequent financial year are as follows:

- 30 June 2017: more than 4,800 jobs
- 30 June 2018: more than 12,500 jobs
- 30 June 2019: more than 16,400 jobs
- 30 June 2020: more than 23,500 jobs
- 30 June 2021: close to 27,000 jobs
- 30 June 2022: more than 28,000 jobs.

It is not possible to provide a regional breakdown for jobs supported by Advance Queensland programs administered by other agencies. However, the regional breakdown of the jobs supported by Advance Queensland programs administered by the Department of Tourism, Innovation and Sport (as at July 2022) is as follows:

- Brisbane and Redlands: 10,520
- Central Queensland: 839
- Darling Downs: 952
- Far North Queensland: 1,162
- Gold Coast: 1,373
- Ipswich: 445
- Logan: 163
- Mackay-Whitsunday: 125
- Outback Queensland: 100
- Sunshine Coast and Moreton Bay: 745
- Townsville: 778
- Wide Bay: 77.

Advance Queensland programs address a range of Queensland Government priorities and priority industries including:

- Advance Manufacturing
- Aerospace
- Agriculture and food
- Biofutures
- Biomedical
- Defence
- Hydrogen
- Mining equipment, technology and services
- Screen industry
- Resource recovery
- Tourism.

As it was not compulsory for Advance Queensland applicants or recipients to indicate which priority industry, if any, their project was contributing towards, it is not possible to provide a breakdown of jobs against these industries.

QUESTION ON NOTICE

No. 17

THE ECONOMICS AND GOVERNANCE COMMITTEE ASKED THE MINISTER FOR TOURISM, INNOVATION AND SPORT AND MINISTER ASSISTING THE PREMIER ON OLYMPICS AND PARALYMPICS SPORT AND ENGAGEMENT (HON S HINCHLIFFE) —

QUESTION:

With reference to all sport grants and funding administered by the department in 2021/22, and 2022/23, will the Minister provide the following details in tabular form:

- a. organisations provided with a grant/s or funding;
- b. the purpose of the grant/s or funding;
- c. the value of the grant/s or funding given to the organisation; and
- d. the state electorate of the organisation which received a grant/s or funding?

ANSWER:

In the 2021-22 and 2022-23 financial years, the Department of Tourism, Innovation and Sport (DTIS):

- approved a total of \$51.2 million (excluding GST) in competitive application funding grants to community sport and active recreation organisations (**Attachment 1**) (information excludes 2020 Government Election commitments, funding approved to individuals and non-competitive grants);
- managed projects approved over \$49.6 million (excluding GST) as a result of Queensland Government commitments (**Attachment 2**);
- processed more than \$17.3 million (excluding GST) in funding to support individual young Queenslanders and families through the Emerging Athlete Pathways program and the FairPlay voucher program (**Attachment 3** details funding under these programs); and
- administered more than \$78.1 million (excluding GST) approved to projects supporting sport organisations in Queensland through the Australian Government and Queensland Government jointly funded programs administered by DTIS under the Disaster Recovery Funding Arrangements (**Attachment 4**) (excluding state-wide funding).

ECONOMICS AND GOVERNANCE COMMITTEE

2023 ESTIMATES HEARING

QUESTION ON NOTICE

No. 18

THE ECONOMICS AND GOVERNANCE COMMITTEE ASKED THE MINISTER FOR TOURISM, INNOVATION AND SPORT AND MINISTER ASSISTING THE PREMIER ON OLYMPICS AND PARALYMPICS SPORT AND ENGAGEMENT (HON S HINCHLIFFE) —

QUESTION:

With reference to the discrepancy between the actual and budgeted capital expenditure in 2022/23 (Page 7 of the Department of Tourism, Innovation and Sport Service Delivery Statement), can the Minister provide in tabular form:

- a. the projects which recorded an underspend; and
- b. the value of the underspend?

ANSWER:

The variance between the 2022-23 Estimated Actual and the 2022-23 Budget is detailed by capital project and amount in **Attachment 1**.

The net variance of \$45 445 000 includes projects where underspends of \$71 562 000 occurred due to the reprofiling of funding required to match the anticipated timing of projected capital expenditure.

Offsetting these underspends are new projects which have received additional funding during the 2022-23 financial year of \$26 117 000, this includes the FIFA Women's World Cup 2023 and the Community and Recreational Assets Recovery and Resilience Program a jointly funded initiative between the Australian and Queensland Governments to assist in the clean-up and repair of community and recreational assets damaged by the extraordinary disaster events of 2021-22.

ECONOMICS AND GOVERNANCE COMMITTEE

2023 ESTIMATES HEARING

QUESTION ON NOTICE

No. 19

THE ECONOMICS AND GOVERNANCE COMMITTEE ASKED THE MINISTER FOR TOURISM, INNOVATION AND SPORT AND MINISTER ASSISTING THE PREMIER ON OLYMPICS AND PARALYMPICS SPORT AND ENGAGEMENT (HON S HINCHLIFFE) —

QUESTION:

With reference to the department's capital expenditure — will the Minister provide, in tabular form:

- a. a list of all current capital projects due to exceed their initial project completion date;
- b. the updated project completion date;
- c. a list of all current capital projects with a budgeted overspend; and
- d. the value of the overspend for each project?

ANSWER:

As per Budget Paper 3, with reference to capital expenditure for the Department of Tourism, Innovation and Sport, the following projects are expected to exceed their initial expected completion date:

| Project | Current Project Completion Date | Updated Project Completion Date | Budgeted Overspend |
|-------------------------------------|----------------------------------------|----------------------------------------|---------------------------|
| Wangetti Trail | 30 June 2026 | 31 December 2026 | No |
| Tourism Experience Development Fund | 30 June 2024 | 30 June 2025 | No |
| Pajinka Infrastructure | 30 June 2024 | 31 December 2024 | No |

ECONOMICS AND GOVERNANCE COMMITTEE

2023 ESTIMATES HEARING

QUESTION ON NOTICE

No. 20

THE ECONOMICS AND GOVERNANCE COMMITTEE ASKED THE MINISTER FOR TOURISM, INNOVATION AND SPORT AND MINISTER ASSISTING THE PREMIER ON OLYMPICS AND PARALYMPICS SPORT AND ENGAGEMENT (HON S HINCHLIFFE) —

QUESTION:

In relation to expenditure undertaken by the department, or statutory authorities which the Minister has carriage for, will the Minister provide a contract disclosure log for the following:

- a. Stadiums Queensland, for financial years 2019/20 to 2022/23;
- b. Tourism and Events Queensland, for financial year 2022/23; and
- c. Department of Tourism Innovation and Sport, for financial years 2019/20 to 2022/23?

ANSWER:

The Queensland Procurement Policy (QPP) provides for the disclosure of basic details regarding awarded contracts valued at \$10,000 (including GST) and over for all 'budget sector agencies', 'large statutory bodies', and 'special purpose vehicles'.

Regarding each component of this question, I can advise the Economics and Governance Committee the following:

- a. Stadiums Queensland contract data is disclosed under the QPP and published online via the Queensland Government Open Data Portal (<https://www.data.qld.gov.au/>).
- b. As per Clause 31 of the QPP, Tourism and Events Queensland (TEQ) does not meet the definition of 'large statutory body'. As such, the QPP requirement to disclose contract data does not apply to TEQ.
- c. Department of Tourism, Innovation and Sport (DTIS) contract data (noting DTIS was created on 12 November 2020 as per *Administrative Arrangements Order (No.2) 2020*, with 2020-21 data covering the period of 1 December 2020 to 30 June 2021) is disclosed under the QPP and published online via the Queensland Government Open Data Portal (<https://www.data.qld.gov.au/>).

New QPS aircraft fleet has Queensland covered

Published Sunday, 02 October, 2022 at 12:35 PM

Minister for Police and Corrective Services and Minister for Fire and Emergency Services

The Honourable Mark Ryan

A fleet of replacement aircraft to be delivered to the Queensland Police Service Aviation Capability Group will provide enhanced life-saving organ retrieval capabilities and further bolster community safety across Queensland.

The new aircraft will provide the operational capability to conduct organ retrieval flights to locations anywhere in Australia and New Zealand.

Highlighting the importance of these life-saving missions, in the last 18 months alone, the Queensland Police Service Aviation Capability Group has conducted more than 100 organ retrieval operations.

That's around six organ retrievals per month or around one per week.

Acting Police Minister Mark Furner joined Acting Assistant Commissioner Marcus Hill today to announce the QPS' purchase of the new aircraft which will replace its ageing and antiquated fix-wing aircraft fleet.

"Following extensive consultation and evaluation, the QPS has purchased two new mid-sized jets and five new turbo prop aircraft to replace the current outdated fleet," Minister Furner said.

"The modern aircraft will boost capacity and capability across its extensive government operations which includes life-saving organ transfers, specialist police operations, general transportation to remote areas and prisoner transfers.

"This investment will ensure regional communities and the south-east corner alike are safeguarded with versatile aircraft capable of deploying specialist police, assisting in search and rescues and providing disaster relief at a moment's notice."

Acting Assistant Commissioner Marcus Hill said the purchase includes five Beechcraft King Air 360 turboprops which will be based in Cairns, Mount Isa and Brisbane and two Gulfstream G280 jets which will be based in Brisbane.

"The modern turboprops will have cargo accessibility to help transport important supplies during disasters and special police equipment which can be transported anywhere in Queensland or Australia.

“They will also be pressurised, allowing them to travel higher and faster and attend to urgent jobs quicker.”

A/Assistant Commissioner Hill said the two jets replace the old Citation and Hawker jets which were recently sold after reaching the end of their economic and operational life.

“The new jets have been purposely designed with a utility interior fit out to ensure they are adequate for a range of transportation requirements while representing value-for-money,” he said.

He said the Aviation Capability Group was responsible for providing aviation services for multiple government departments across Queensland including QPS, Queensland Ambulance Service, Queensland Corrective Services, Queensland Fire and Emergency Services, Queensland Health and other agencies.

“Demand for aviation services continues to rise significantly and this replacement fleet will ensure we have the capacity and capability to effectively manage these services for communities across the state now and into the future,” Acting Assistant Commissioner Hill said.

“Our fixed-wing aircraft are extremely versatile and enable specialist police officers and equipment such as the dive squad, our Special Emergency Response Team (SERT) and the Explosive Ordinance Response Team (EORT) to be deployed virtually anywhere in Queensland or Australia.

“The new fleet will mean a reduction in the number of different aircraft type, gaining efficiencies by having pilots and engineering capability more able to be spread across a common fleet rather than having a complex mix of different aircraft.”

The new aircraft will be introduced over the next two years and will bring the total fixed wing fleet to nine aircraft in addition to the rotary wing and remotely piloted aircraft systems.

Fast Facts

- Seven new QPS aircraft purchased to replace ageing fleet
- ACG’s fixed-wing aircraft have been involved in more than 100 life-saving organ retrievals in past 18 months
- Gulfstream G280 jets can travel more than 6,000km in one trip

Cracks show in the Queensland LNP over coal royalties

Opposition leader David Crisafulli says he supports the government's revenue measures, including the new royalties, but some members are grumbling.

The future shape of Queensland's lucrative coal royalty regime is uncertain, with opposition LNP members split in their support for the high-taxing measures.

In his budget reply speech, Opposition Leader David Crisafulli said he backed the government's revenue measures, which include the three new royalty tiers [Treasurer Cameron Dick introduced in June 2022](#), but still slammed the tax increases.

"It was a betrayal of Queensland families and those investing in our state," he said.

"A deliberately deceitful plan but one tied to the attempt to revive service delivery and the cost-of-living relief Queenslanders need because of the failings of this Government.

"I will never stand in the way of these things."

Queensland LNP leader David Crisafulli speaks in parliament on June 15. Picture: Tertius Pickard

When this publication pressed the leader's office for clarity on whether an LNP government would maintain the same rates if elected, a spokesman returned to Mr Crisafulli's speech.

But though LNP leadership is presently backing the new regime, which forces coal businesses to pay out 20 cents, 30 cents and 40 cents on the dollar as prices rise, some LNP members are grumbling.

Burleigh MP Michael Hart expressed direct opposition to the royalties in a tete-a-tete with Assistant Health Minister Brittany Lauga in parliament on June 15.

"I call on those opposite to answer this very basic question: do you or do you not support progressive coal royalties?" Ms Lauga asked.

Mr Hart interjected: "No".

Later, Mr Hart dismissed [the budget's \\$15.3bn royalty haul](#) as a "one-off sugar hit".

Burdekin MP Dale Last has also raised [the possibility of consultation](#) between a future LNP government and the mining industry over the rates.

Queensland's Coal Royalty Structure (From July 1, 2022)

| Price per tonne (\$AUD) | Royalty Rate |
|---------------------------------|--------------|
| Up to \$100 | 7% |
| More than \$100 and up to \$150 | 12.5% |
| More than \$150 and up to \$175 | 15% |
| More than \$175 and up to \$225 | 20% |
| More than \$225 and up to \$300 | 30% |
| More than \$300 | 40% |

"We have given a commitment that we will sit down with the Queensland Resources Council, we will sit down with these mining companies and we will genuinely consult with them before we make any decision on coal royalty hikes and changes," he said at the Queensland Mining and Engineering Exhibition in Mackay on July 20, 2022.

But even if an LNP government does consult with miners, it is unlikely royalties will fall to their pre June 2022 levels.

BHP CEO Mike Henry, speaking on the sidelines of the World Mining Congress in Brisbane last week, suggested he would be willing to negotiate higher rates.

"I think as we demonstrated in Chile, of course we understand the pressures governments face and want to work collaboratively towards solutions that meet the needs of governments but also meet the needs of industry," he said.

"There is always going to be an interest in ensuring that our business is as profitable and competitive as possible but we generally try to work in the national interest as well, in this case the state interest."

The next election is set for 2024.

The TEQ Blueprint

A PLAN TO SUPPORT THE TOWARDS TOURISM 2032 STRATEGY

TOURISM
& EVENTS
Queensland

Acknowledgement of Country

Tourism and Events Queensland acknowledges the Traditional Owners of Country, the Aboriginal and Torres Strait Islander peoples of Queensland. Queensland is the only place where these unique cultures meet, living side-by-side, and we recognise their traditional custodianship over the lands and waters on which we at TEQ carry out our work.

We pay our respect to the Elders past, present and future and we are grateful for their continual connection to Country which enriches the ongoing work we do at TEQ. It is through this knowledge and connection to Country that we can inspire the world to experience the best address on Earth.

Executive Summary

Goal

To inspire travellers to choose Queensland as their **destination of choice through bold and globally recognised marketing and events** that support **growing overnight visitor expenditure to \$44B by 2032**

Overview

Tourism and Events Queensland (TEQ) is the state's lead marketing, tourism experience and destination development and major events agency. Together with our industry and government partners, TEQ works actively in our key source markets to drive demand for Queensland tourism and event experiences.

For the past three years, our work has been focused on the industry imperatives of responding to the pandemic, driving recovery and building resilience. This Blueprint describes TEQ's long-term strategy which lays out the foundations for our future growth.

Queensland's tourism industry has established an aspirational target of \$44 billion in overnight visitor expenditure by 2032. It is a bold target and proudly signals Queensland's intent to grow our visitor economy, realising economic growth, creating jobs and prosperous communities throughout the state. It's a target that can only be achieved by all partners – government and industry – working together. Achieving this goal will require bold marketing to stand out in a crowded market, new experiences that are on trend for the consumer of today and into the future, and an increase in room stock and airline capacity to provide for the increased number of visitors and room nights required to achieve the target.

A bold target requires bold new thinking.

This Blueprint has been developed to guide TEQ's role in generating demand and driving conversion to realise the industry's aspirational goal of increasing Queensland's overnight visitor expenditure to \$44 billion by 2032.

Five Point Plan

1. Gain the dominant share of **Australia's domestic holiday market**
2. Assist industry to grow **international Overnight Visitor Expenditure to \$11 billion**
3. Build a **\$2 billion global events calendar**
4. Use the **strength and Influence of Queensland's destinations and industry** to maximise opportunities in market
5. Deliver **cutting-edge, high-impact marketing campaigns** to drive consumer demand

All underpinned by the opportunity the Brisbane 2032 Olympic and Paralympic Games presents for Queensland, as a catalyst for greater global awareness, appeal and visitation to the state

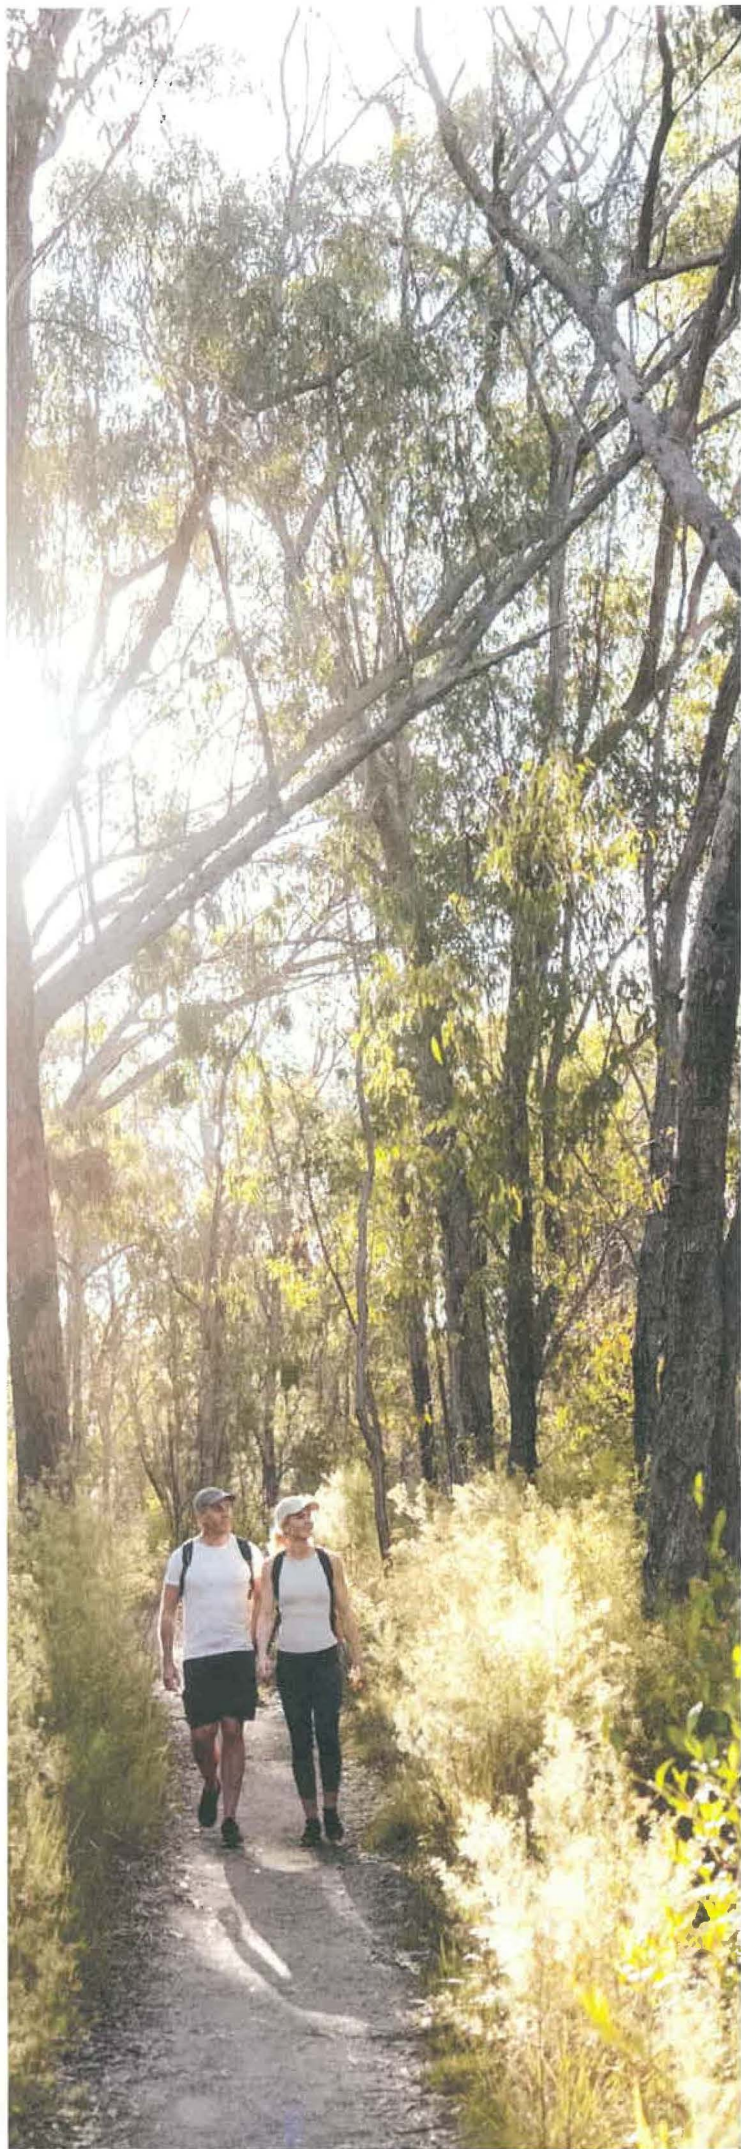

This Blueprint and the TEQ five-point plan have been developed following extensive consultation with industry partners across the state as well as our key government partners. Overwhelmingly there is a desire for TEQ to be bold, to cut through in a crowded market and in doing so, ensure that Queensland gets more than its fair share of visitation.

In order to achieve this, TEQ has reviewed its internal structure and budget with a focus on ensuring that we are set-up to deliver against the five-point plan and that our budget is heavily skewed to demand-driving activity.

Finally, long-term goals have been developed that align with our priorities and will enable us to measure progress.

The TEQ team are excited by the opportunities for Queensland over the next decade. We are energised by industry's \$44 billion aspirational goal and the promise of the green and gold runway to the Brisbane 2032 Olympic and Paralympic Games. This is Queensland's time to shine.

| 08 Measuring success | 13 |

02 TEQ's Strategic Framework

The framework illustrates TEQ's strategic positioning and the way that TEQ creates unique value for the state's tourism and events industry. TEQ uses a tiered approach to strategy development and implementation to create a clear line of sight between TEQ's overall objectives, key strategies and plans. The Blueprint forms an integral part of TEQ's Strategic Framework as illustrated below:

03 Developing the Blueprint

The Blueprint has been developed in consultation with Department of Tourism, Innovation and Sport (DTIS), the Department of the Premier and Cabinet (DPC) and Queensland Treasury (QT), along with key industry stakeholders.

A TEQ Blueprint Working Group met as required to guide the development of the Blueprint with a final draft approved by the TEQ Board in July 2023.

04 Towards Tourism 2032 Opportunity

Tourism is a driving force in Queensland's economy. The TT32 Strategy raises the profile of tourism and its importance to the economy. It directly supports growing Queensland's economy via good jobs, better services and great lifestyle. The vision is for Queensland to be Australia's destination of choice for domestic and global visitors seeking the world's best experiences by 2032.

The industry is aiming to more than double the state's tourism overnight expenditure to **more than \$44 billion in OVE a year by 2032**.

TEQ is committed to working closely with government and industry to support tourism and events businesses to achieve the ambitious targets set out in the TT32 Strategy.

Prior to the COVID-19 pandemic, the economic contribution of the tourism industry in Queensland was \$28.4 billion, or 7.7

per cent of Gross State Product (GSP). The COVID-19 global pandemic changed the tourism landscape, and as such, new projections have been forecast to accommodate the new environment. TT2032 forecast Queensland OVE at \$38.5 billion by year ending December 2027 and \$44.4 billion by year ending December 2032. Of the predicted \$38.5 billion by December 2027, total holiday OVE will contribute \$19.0 billion, made up of domestic holiday OVE of \$14.9 billion and international holiday OVE of \$4.0 billion. This is outlined in Figure 3.

Figure 3: The Tourism Opportunity

Sources and data timeframe: TEQ forecast projections on BDA forecasts, Holiday OVE, Domestic Holiday OVE, International Holiday OVE - year ending December.

05 TEQ's Opportunity

Vision

To inspire travellers to choose Queensland as their destination of choice through bold and globally recognised marketing and events that support growing OVE to \$44B by 2032.

Five-point plan

Guiding priorities of the Blueprint to achieve the \$44 billion target

1. Gain the dominant share of Australia's domestic holiday market

Queensland has a proud history of being Australia's favourite holiday destination. Our pristine beaches, iconic Great Barrier Reef, tropical islands, world heritage rainforests and amazing Outback have long been a favourite destination for many Australians.

The travel market is highly competitive. Up to 2009, Queensland dominated market share in terms of Holiday OVE, with more than 30 per cent market share. Over the last 10-15 years there has been a significant growth in our competitive set both internationally and domestically with consumers having more choice than ever before. Queensland continues to enjoy the highest intention to travel in our domestic market and over the last few years, Australians once again embraced a Queensland holiday in big numbers.

In 2019, the domestic market accounted for 75 per cent of our total OVE. Continued growth in domestic holiday numbers is critical to ensure Queensland can achieve the \$44 billion target by 2032.

TEQ will continue to work hard with our industry partners to ensure continued success to own the domestic market by taking a visitor first mindset.

2023-24 Priority Actions

- Implement the new Global Marketing Strategy 2032
- Execute commercial partnerships with aviation and trade partners
- Use cutting edge digital and data intelligence to win domestic market share
- Provide experience development thought leadership, with a focus on Aboriginal and Torres Strait Islander, Great Barrier Reef, nature based, sustainable and accessible experiences

2. Assist industry to grow international Overnight Visitor Expenditure to \$11 billion

International recovery will be aviation-led and TEQ will target and convert global consumers using digital platforms and through partnerships with airlines and new global trade partners.

International inbound travel is a key contributor to the growth of our visitor economy. International consumers typically travel more widely, enjoy more experiences and spend more than a domestic traveller. On average, international holiday visitors spend 74 per cent more per trip than a domestic holiday visitor.

Whilst many of our international visitors are returning visitors to Queensland, many more are first time visitors enjoying a bucket list holiday on the other side of the world.

For some, international travel can feel daunting. Travel agents and other travel trade help consumers to navigate what can be complex travel itineraries. We also know that whilst international travellers tend to have multi-stop itineraries, direct international aviation connectivity greatly enhances the ease of travel to Queensland and increases visitor nights in our state.

TEQ will work with our Regional Tourism Organisations (RTOs), airports, airlines and operators to ensure Queensland destinations and experiences are prominent with our trade partners in priority international markets. Getting more than our fair share of support from our international trade partners will position Queensland for success with international inbound travel.

Our Brisbane, Gold Coast, Cairns and Sunshine Coast international airports, supported by the Attracting Aviation Investment Fund, are also critical in growing our international aviation connectivity. These destinations account for approximately 80 per cent of Queensland's international visitor nights so it is important to harness the power of these gateways into TEQ's strategies with a focus on dispersing travellers throughout Queensland. International visitors are generally multi-stop travellers so increasing length of stay and spend through a dispersal strategy through the state would have significant benefits longer term. Our approach, working closely with Tourism Australia and Trade and Investment Queensland, gives confidence to airlines that new routes will be supported by strong passenger numbers as well as freight. Both are critical factors in a highly commercially competitive environment.

2023-24 Priority Actions

- Support airports and broader Government with an aviation-led recovery program which supports dispersal across the State
- Deliver coordinated international marketing plans, aligning Government, RTOs and the private sector
- Leverage partner investment to ensure strong Queensland presence and share of voice

3. Build a \$2 billion Global Events Calendar

Events support vibrant Queensland communities and our wonderful Queensland lifestyle. They also provide a compelling reason for visitation, driving urgency and filling room nights in low and shoulder seasons.

Queensland has a strong Events Calendar, showcasing the best events in the best destinations. From blockbuster and homegrown major events, thriving destination events showcasing our regional and rural communities and business events filling our conference and convention venues, the Queensland Events Calendar has it all.

TEQ will continue to harness the power of our diverse Events Calendar to drive visitation throughout the State and build on brand Queensland. As the home of the Brisbane 2032 Olympic and Paralympic Games, Queensland has never had a bigger opportunity to attract world-class blockbuster events to our state in the lead in and post 2032.

TEQ will aim high to leverage its investment in the Events Calendar to drive future consideration for Queensland as a destination.

2023-24 Priority Actions

- Deliver and implement a new TEQ Events Strategy 2032
- Identify and attract a pipeline of major and blockbuster events
- Deliver a Business Events Industry Strategy that harnesses the strength of Queensland industry sectors and leisure offerings
- Evolve the Queensland Destination Events Program to better meet the needs of industry and foster a growth pathway for iconic homegrown events

4. Use the strength and influence of Queensland's destinations and industry to maximise opportunities in market

For Queensland to meet its \$44 billion target, we need to build strong commercial partnerships and attract further cooperative investment into our marketing and events activities.

Queensland's strength lies in its regions, and the broad range of meaningful and diverse tourism experiences. It is also important to acknowledge the role Brisbane will play as our capital city in the growth of the state and with the opportunity of hosting the Brisbane 2032 Olympic and Paralympic Games.

We rely on the industry to deliver on the brand Queensland promise through transformational experiences. Our industry creates jobs in our regional and rural communities and our visitors add to their social fabric. Our events add to the vibrancy of our destinations, creating compelling reasons to visit.

TEQ will continue to harness the strength of our regions, the wonderful experiences they offer and the world class operators that bring these to life. The power of our regions will be reflected in our marketing and events activities.

TEQ will also focus efforts on ensuring strong commercial partnerships are secured for Queensland, doubling current partnership investment into our activities.

2023-24 Priority Actions

- Pursue cooperative partnerships with operators and all levels of government
- Strengthen the partnership between TEQ and Tourism Organisations
- Support the review and/or development of Destination Management Plans

5. Deliver cutting-edge, high-impact marketing campaigns to drive consumer demand

The tourism market has never been more competitive. Destinations around the world recognise the economic and social benefits of vibrant visitor economies and consumers have never been more blessed for choice.

And whilst for an Australian domestic or outbound holiday traveller Queensland has the strongest brand in our competitive set, cut through to convert intention to a booking has never been more challenging.

TEQ has a proud history of innovative, ground-breaking marketing campaigns, showcasing our natural assets and iconic experiences. From the iconic 'Beautiful one day, perfect the next,' through to globally recognised campaigns such as 'Best Job in the World' and 'ScUber', TEQ has demonstrated the value of high impact marketing campaigns.

TEQ will be bold in its marketing activity, seeking to break new ground, be innovative and to cut through in a crowded market. TEQ campaigns will provide a platform for industry and our RTO partners to convert.

2023-24 Priority Actions

- Deliver globally renowned marketing campaigns
- Invest in and evolve our digital and technological capabilities
- Deliver global conversion partnerships across key markets

All underpinned by the opportunity the Brisbane 2032 Olympic and Paralympic Games presents for Queensland as a catalyst for greater global awareness, appeal and visitation for the State

In 2032, Queensland will take centre stage as we host the Olympic and Paralympic Games. The Games will provide an unparalleled opportunity to showcase Queensland to a new audience. Global recognition of Brisbane and Queensland will be significantly elevated as a consequence of hosting the largest and most significant events on earth.

But this opportunity doesn't start and end in 2032. Global recognition of Brisbane and Queensland commenced as soon as we were awarded the Games, and will continue to grow as we journey along the green and gold runway to 2032.

Letting it happen all by itself is not enough. TEQ will leverage the Brisbane 2032 Olympic and Paralympic Games to elevate the Queensland brand and our wonderful tourism offerings to the world, driving a visitation benefit pre, during and post the 2032 Games. TEQ will also leverage the Games to secure a green and gold runway of sporting, cultural and business events through to and beyond 2032. Developing new global partnerships, working with new media partners and using cutting edge technology will ensure we maximise this once-in-a-generation opportunity.

06 TEQ Structure

Change is required to the TEQ organisational structure to ensure that TEQ is best set-up to deliver on the five-point plan. The new structure provides clear lines of accountability for delivery of functions and elevates the importance of commercial and partnership functions which are more critical than ever as we strive to accelerate our industry's recovery through the return of travellers.

There are four groups in the new structure, each led by a group executive.

Marketing

The Marketing portfolio has been structured to ensure a clear and sharp focus on the **delivery of consumer marketing**. The Global Marketing Strategy will be the framework to deliver consumer marketing activities. **Experience Development** has been retained in this portfolio to ensure the design of TEQ's experience development activities are aligned to the **Global Marketing Strategy**. It also ensures that marketing activities are connected to industry and that what is being promised to consumers is being delivered by the private sector/industry.

Events

The Events portfolio has been structured to **identify, attract, and develop events** that deliver value against TEQ's event investment objectives. Guided by the **TEQ Events Strategy**, the portfolio administers TEQ's connected pathway of **event investment programs** that attract new and retain and grow existing events across Queensland. The Events portfolio is already working to leverage Brisbane 2032 to secure a **green and gold runway of sporting, cultural and business events**. A new **Queensland Business Events Industry Strategy** – expected to be delivered in late 2023 – will define the role the Events portfolio plays in optimising the value business events can drive for the visitor economy and across Queensland's key industry sectors. It will also work closely with Events Management Queensland on the development of events across Queensland.

Corporate and Strategy

The Corporate and Strategy portfolio has been structured to ensure a strong foundation for the **business to operate and deliver activities**. Strong financial, legal and compliance functions are a priority for this portfolio. In addition, a newly formed and consolidated **Strategy, Research and Innovation** function will ensure activities are being delivered based on consistent and **solid research and cutting edge insights** and **integrated** in strategy and business planning across the business. This portfolio will also lead TEQ's work in driving innovative solutions and technology to deliver benefits for the organisation as well as industry.

Commercial and Partnerships

The Commercial and Partnerships portfolio has been structured to **drive visitation through partnership and commercial conversion activities**. It will also have a focus of leveraging **Government investment with private sector** investment into marketing and events. The **Global Marketing Strategy and the TEQ Events Strategy** will be the frameworks to deliver these activities. Partnerships with Government, industry, RTOs, trade, aviation and Aboriginal and Torres Strait Islander stakeholders will form the foundation of this portfolio.

07 Working with Industry

A strength of tourism in Queensland is our highly engaged industry. Queensland's tourism industry represents the length and breadth of the state. Our operators deliver world class experiences in a unique Queensland way, reflective of regional and rural communities across the state.

TEQ's role is to drive consumer demand to our operators. This is where our high travel intention and consideration converts to a sale and the economic boost to our visitor economy begins.

TEQ's collaboration with industry is therefore critical in ensuring a connected and consistent approach to the market.

We are stronger working together and leveraging our collective presence in-market. Such an approach is powerful when dealing with our trade partners including airlines and a collective approach to consumers provides the opportunity to amplify our message, cutting through in a crowded market.

Operators

TEQ will seek to increase and expand our cooperative and collaborative marketing activity. Bigger, bolder campaigns and a published forward-marketing schedule will provide the scale and certainty that industry are looking for. The Queensland brand and our primary destination brands have cut through in the domestic market. Tactical campaigns at scale will provide a platform for our industry to leverage.

TEQ created IMATE in 2019 as an opportunity to better align TEQ and industry marketing activity. The IMATE program has recently transitioned to a new provider and our agreement with that provider incentivises them to work proactively with industry. This new agreement plus the change to a smaller number of large campaigns and certainty in planning will provide a platform to increase industry participation in TEQ campaign activity.

Opportunities for partnerships with industry will also be explored for event investments. Historically TEQ has partnered with RTOs and government agencies such as Stadiums Queensland, Arts Queensland and the Queensland Art Gallery to secure events for Queensland. Event proponents have independently sought private sector investment in events through sponsorship.

TEQ will explore opportunities to partner with the private sector to secure events for Queensland noting that agreement with proponents will be required to ensure that commercial objectives can be achieved by both the event proponent and private sector investors.

Regional and Local Tourism Organisations

Queensland has an engaged network of 13 RTOs and more than 40 Local Tourism Organisations (LTOs) across the state.

TEQ engages extensively with the RTO network to drive demand to Queensland's regions and is a funder of the network through the \$7 million Tourism Network Fund (TNF). LTOs are usually engaged by TEQ through the RTO network. LTOs do not receive grant funding from TEQ, however some LTOs are event proponents and may receive event investment from TEQ.

The RTO/LTOs are critical partners in our approach as outlined in the five-point plan. The RTOs/LTOs connect the very many micro and small businesses that make up industry throughout our regions to the state-wide tourism industry ecosystem.

The RTOs are funded by a mixture of membership contributions, local government grants and grants from the Queensland Government through the TNF. Some RTOs will also receive special purpose grants from the Commonwealth Government.

Allocations under the TNF are historically based. During 2022 TEQ worked with the RTO network to reform the TNF processes and in doing so, provide a stronger connection between funding invested and outcomes. This work is ongoing.

The release of the TT32 Strategy and the \$44 billion target provides an opportunity to further enhance the relationship with the RTO network.

During 2023-24 TEQ will work with the network to review our strategic partnership with RTOs. The review will include how we work together, shared priorities and role clarity. TEQ will work with the network to develop targets for each region, translate these into up-to-date Destination Management Plans and develop a KPI reporting framework similar in nature to the the TT32 Strategy balanced scorecard.

This work will help to transition the funding arrangement with RTOs to a stronger focus on outcomes and our shared commitment to realising the \$44 billion industry target. Connecting the TNF funding to these targets will help to drive accountability across the network.

Creating a shared commitment with RTOs/LTOs to the goals and objectives of the TT32 Strategy and a collaborative approach to market is critical to efficiently leverage TEQ's investment in market.

08 Measuring success

The industry goal is clearly established in the TT32 Strategy with the aspirational goal to achieve \$44 billion in OVE by 2032. This is a shared goal that can only be delivered in true partnership between industry and government. Much needs to happen to achieve this goal. The Industry Reference Panel in its Action Plan for Tourism Recovery identified 75 recommendations that would help to drive success of Queensland's visitor economy.

From new and reimagined experiences to increased room stock and more inbound aviation seats through to bold and imaginative marketing campaigns and inspiring events. All facets of the visitor economy must work together to achieve the \$44 billion target.

TEQ's role is clear: to drive visitor demand for Queensland experiences. We will do this through the five-point plan outlined above.

Measuring success is critical.

The following long-term aspirational targets are established across each of the key activities in the five-point plan to drive outcomes that will collectively position Queensland's demand-driving activity to meet the expectations outlined in the TT32 Strategy.

| Priority | How | Where were we in 2019 | Where are we going by 2032 |
|----------------------|------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------|
| Domestic | Gain dominant share of Australia's domestic holiday market | #2 Market Share in 2019 | #1 Market Share ≥30 per cent |
| International | Grow international Overnight Visitor Expenditure to \$11 billion | 2.8 million international visitors in 2019 \$6 billion international OVE in 2019 | 4.4 million international visitors in 2032 \$11 billion international OVE in 2032 |
| Events | Build a \$2 billion global Events Calendar | \$800M Events Calendar | \$2B Events Calendar |
| Marketing | Deliver cutting-edge, high-impact marketing campaigns to drive consumer demand | Return on Marketing Investment = \$32:1 | Return on Marketing Investment = \$37:1 |
| Partnerships | Use the strength and influence of Queensland destinations and industry to maximise opportunities in-market | Co-operative and collaborative funds for events, experience development and marketing = \$40 million Stakeholder Survey 70% | Co-operative and collaborative funds for events, experience development and marketing = \$80 million Stakeholder Survey 75% |

Answers to questions taken on notice at the hearing – 1 August 2023

| Answers to questions taken on notice at the hearing on 1 August 2023 | |
|----------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. | Mr Joe Kelly MP, Acting Speaker of the Legislative Assembly – Answer to questions taken on notice at the hearing for the consideration of the 2023-24 portfolio budget estimates held on 1 August 2023 |
| 2. | Hon Anastacia Palaszczuk MP, Premier and Minister for the Olympic and Paralympic Games – Answer to a question taken on notice at the hearing for the consideration of the 2023-24 portfolio budget estimates held on 1 August 2023 |

QUESTIONS ON NOTICE

- a) In relation to pre-hearing Question on Notice No. 19 which stated that 114 questions on notice responses were published late last financial year. Can the Clerk provide the amount broken down by responsible Minister?
- b) It was identified by the clerks at the table that 66 question on notice responses were returned to Ministers for re-answering prior to publication last financial year. Could you provide a breakdown of those 66 responses by responsible Minister? (And some high level information as to the reasons that a question is returned to a Minister?)

See: [2023 08 01 EstimatesEGC \(parliament.qld.gov.au\)](https://www.parliament.qld.gov.au/Estimates/2023-24/08-01-EGC)

a) Number of compliant responses to questions on notice received after the due date by Minister

In the 2022-23 financial year, 1,517 questions on notice were asked of Ministers and due to be answered within the reporting period. Of these, 114 compliant responses were published after the due date. The Parliamentary Service does not routinely collect information on why responses are received after the due date.

Table 1 below provides a breakdown of the total questions asked of each Minister and the total number of compliant responses received and published after the due date.

As noted in response to Question on Notice No. 19, 54 (approximately 47%) of the late responses were the subject of compliance issues raised by the Clerks-at-the-Table or (to a much lesser extent) the Minister appealing to the Speaker about the question asked.

Several late responses were also received from Ministers affected by changes to the Administrative Arrangement Orders in May 2023. Where this is the case, a footnote has been provided.

b) Number of responses returned by Clerks-at-the-Table

As noted in response to Question on Notice No. 19, in the 2022-23 financial year, Clerks-at-the-Table returned 66 responses to Ministers following compliance checks. Table 1 below provides a breakdown of the responses that were returned to each Minister.

As noted in response to Question on Notice No. 19, the primary reasons identified for non-compliance included:

- responses not providing the information requested by Members with no explanation as to why the information could not be provided in the terms requested by the Member;
- responses containing gratuitous political statements, not relevant to the specific question asked;
- Members being directed to a website or series of reports without specific reference to the location of the answer;
- in a smaller number of occasions, answers were returned as they contained embedded or broken hyperlinks or missing attachments.

TABLE 1 – Breakdown of questions on notice received / published after due date and number of responses returned for resubmission

| Portfolio | Minister name | Total Number of QON responses | Number of compliant responses received after due date | % | Number of responses considered non-compliant and returned for resubmission ¹ | % |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|-------------------------------|-------------------------------------------------------|-------|-----------------------------------------------------------------------------------------|-------|
| Premier and Minister for the Olympics | Hon Palaszczuk | 24 | 12 | 50.0% | 4 | 16.7% |
| Premier and Minister for the Olympic and Paralympic Games | Hon Palaszczuk | 36 | 15 | 41.7% | 4 | 11.1% |
| Deputy Premier, Minister for State Development, Infrastructure, Local Government and Planning and Minister Assisting the Premier on Olympics Infrastructure | Hon Miles | 45 | 2 | 4.4% | 3 | 6.7% |

| Minister for Treaty, Minister for Aboriginal and Torres Strait Islander Partnerships, Minister for Communities and Minister for the Arts | Hon Enoch | 2 | 0 | 0 | - | - |
| Minister for Education, Minister for Industrial Relations and Minister for Racing | Hon Grace | 107 | 1 | 0.9% | 1 | 0.9% |
| Minister for Employment and Small Business and Minister for Training and Skills Development | Hon Farmer | 25 | 2 | 8% | 1 | 4.0% |
| Minister for Employment and Small Business, Minister for Training and Skills Development and Minister for Youth Justice | Hon Farmer | 6 | 2 | 33.3% | - | - |
| Minister for Energy, Renewables and Hydrogen and Minister for Public Works and Procurement | Hon de Brenni | 62 | 0 | 0 | 1 | 1.6% |
| Minister for Health and Ambulance Services | Hon D'Ath | 218 | 31 ⁵ | 14.2% | 13 | 6.0% |
| Attorney-General and Minister for Justice and Minister for the Prevention of Domestic and Family Violence | Hon D'Ath | 5 | 0 | 0 | - | - |
| Minister for Police and Corrective Services and Minister for Fire and Emergency Services | Hon Ryan | 133 | 6 | 4.5% | 6 | 4.5% |

⁴ Of these responses, 3 were provided by Hon Farmer following changes to the Administrative Arrangements Orders in May 2023.

⁵ Of these responses, 13 were provided by Hon Fentiman following the changes to the Administrative Arrangements Orders in May 2023.

| Portfolio | Minister name | Total Number of QON responses | Number of <u>compliant</u> responses received after due date | % | Number of responses considered non-compliant and returned for resubmission ¹ | % |
|--------------------------------------------------------------------------------------------------------------------------------|----------------|-------------------------------|--------------------------------------------------------------|-------------|-----------------------------------------------------------------------------------------|-------------|
| Minister for Regional Development and Manufacturing and Minister for Water | Hon Butcher | 24 | 3 | 12.5% | 3 | 12.5% |
| Minister for Resources | Hon Stewart | 30 | 2 | 6.7% | 1 | 3.3% |
| Minister for Seniors and Disability Services and Minister for Aboriginal and Torres Strait Islander Partnerships | Hon Crawford | 12 | 0 | 0 | - | - |
| Minister for Child Safety and Minister for Seniors and Disability Services | Hon Crawford | 4 | 0 | 0 | - | - |
| Minister for the Environment and the Great Barrier Reef and Minister for Science and Youth Affairs | Hon Scanlon | 66 | 10 ⁶ | 15.2% | 6 | 9.1% |
| Minister for Housing | Hon Scanlon | 3 | 0 | 0 | - | - |
| Minister for Tourism, Innovation and Sport and Minister Assisting the Premier on Olympics and Paralympics Sport and Engagement | Hon Hinchliffe | 24 | 0 | 0 | 1 | 4.2% |
| Minister for Transport and Main Roads | Hon Bailey | 273 | 5 | 1.8% | 7 | 2.6% |
| Minister for Transport and Main Roads and Minister for Digital Services | Hon Bailey | 27 | 1 | 3.7% | 1 | 3.7% |
| TOTALS | | 1,517 | 114 | 7.5% | 66 | 4.4% |

⁶ Of these responses, 5 were provided by Hon Linard following changes to the Administrative Arrangements Orders in May 2023.

Estimates Question on Notice
Taken on notice during the Premier and Cabinet Hearing on 1 August 2023

QUESTION:

Question relating to a media release.

ANSWER:

The \$4.869 billion figure in the budget is accurate as it deals with the capital cost of building 65 trains.

My Chief-of-staff has informed me that the draft media release provided to my office contained no figure.

The \$7 billion figure was provided to me by a media officer who was ill and working from home.

I am advised the media officer was unaware the execution of the contract to build the trains would require an update to the figure in the media release to better reflect the 35-year program.

Clarifications and additional information provided following the public hearing

3 August 2023

Mr Linus Power MP
Chair
Economics and Governance Committee
Queensland Parliament
Alice Street
BRISBANE QLD 4000

Dear Mr Power

I refer to the hearing held by the Economics and Governance Committee on 1 August 2023.

In response to a question about the ownership of Brisbane Airport Corporation, I advised the Committee that it was held by the QIC Global Infrastructure Fund 1, or QGIF1. I have subsequently been advised that it is held in separately managed accounts on behalf of clients, not through QGIF1.

While this does not change the substance of my answer, which is that the investment is managed on behalf of clients through investment committees, I wanted to clarify this for the Committee.

Yours sincerely

Kylie Rampa
Chief Executive Officer
QIC

Dear Mr Power

Thank you for your letter dated 9 August 2023 regarding the Member for Coomera's question answered by my Director-General.

During the estimates hearing of the Legal Affairs and Safety Committee on 9 August 2023, the Member for Burdekin put a similar question to the Honourable Mark Ryan, Minister for Police and Corrective Services and Minister for Fire and Emergency Services.

In answering the question, I am advised, Minister Ryan addressed this matter in his Estimates Hearing, at page 45 of *Hansard (Proof)* - 9 August 2023.

Yours sincerely

ANNASTACIA PALASZCZUK MP
PREMIER OF QUEENSLAND
MINISTER FOR THE OLYMPIC AND PARALYMPIC GAMES
