

# It's time for a change. It's time to Get Queensland Back on Track

See our plans inside:

The Liberal National Party has released over 50 policies to Get Queensland Back on Track. We have a plan to grow a four pillar economy, lower the cost of living for families, deliver better infrastructure and planning, revitalise front line services for families and restore accountability in Government. See our plans inside.

## My Commitment to You:

With an unstable world economy, it's time to better manage Queensland to make sure we get the full benefit from our natural resources, assets and the money we pay in taxes. Time's up for talking, up for excuses, it's time for action.

We need strong action now not more promises for tomorrow. Labor have had 20 years and have not delivered for the people of Queensland. We need action now to improve our roads, improve access to doctors and nurses, reduce crime, improve standards in schools, and lower the cost of living for all Queenslanders.

The Liberal National Party has a strong action plan, which is fully funded and fully costed, to Get Queensland Back on Track and take action on the basics.

Only a change of Government will ensure CANDO action is taken to Get Queensland Back on Track. You need to vote for me, **Campbell Newman**, to ensure we get a change of Government in Queensland.

Time's up for talking and for excuses, it's time for action.

**Campbell Newman**  
Liberal National Party Leader

## LOWER COST OF LIVING FOR FAMILIES

We understand that Labor's cost of living increases are hurting Queenslanders. With an unstable global economy, Queensland families need cost of living relief now more than ever. The LNP will **save Queensland families up to \$330 per year.**

Reconstruction

## DELIVER BETTER INFRASTRUCTURE & PLANNING

The LNP's Building Queensland's Future Together infrastructure strategy prioritises key infrastructure projects for Queensland in order to address Labor's long term failure to build infrastructure. We will restore the role of the Coordinator-General.

The LNP will focus on **coordinating, facilitating and delivering major**

Police, Emergency  
Services &  
Commonwealth  
Games

## COMMUNITY SAFETY

An LNP Government will deliver safer streets and communities by **recruiting 1100 additional new police to boost the fight against crime** while also moving up to 200 existing officers out from behind desks and back on the beat.

# Plans to Get Queensland Back on Track

The LNP will **abolish Labor's \$7000 tax** on the family home, **freeze family car rego** for our first term, **reform electricity tariffs** and **reduce water costs**.

We will **cut waste**, reform electricity tariffs, implement our four point plan to reduce water prices and freeze family car rego for our first term.

The LNP will grow a four pillar economy and **cut our unemployment rate to 4% in six years**.

The LNP will deliver **better planning** and establish *Infrastructure Queensland* to **fast track key infrastructure upgrades**.

**infrastructure projects** that drive economic growth for a sustainable future.

The LNP has **identified six critical priority infrastructure projects** that require fixing: Cross River Rail, Bruce Highway, Toowoomba Second Range Crossing, Eastern Busway, regional roads and dangerous open level crossings on major urban roads in Brisbane.

We will **fight crime by recruiting an additional 1100 police onto the front line** and boosting *Neighbourhood Watch* and *Crime Stoppers*.

The LNP will act to **revitalise community policing through boosting *Neighbourhood Watch* and *Crime Stoppers***. We will also establish GraffitiSTOP, a comprehensive program to wipe out graffiti across Queensland. These form part of the **LNP's Safer Streets Crime Action Plan**.

**Jann Stuckey**

Tourism,  
Manufacturing &  
Small Business

## TOURISM & SMALL BUSINESS

We will **help small business by growing a four pillar economy** as part of our plan to cut unemployment to 4% in six years.

We will return Queensland's tourism industry to Number one through our *Destination Q* initiative to double overnight visitor expenditure by 2020 and create more jobs in this sector.

The LNP will **help small business and the tourism industry by cutting taxes**.

An LNP Government will **reduce taxes for small business by cutting payroll tax and removing Labor's waste tax** imposed after a broken promise. We will **cut red tape for tourism and small business operators** by getting rid of unnecessary regulation.

The LNP will support small business through lowering the cost of doing business by cutting waste.

Transport,  
Multicultural  
Affairs & the Arts

## PUBLIC TRANSPORT

Understanding that public transport is vital to keep SEQ moving, the LNP will **reward regular commuters by making the tenth and any additional journeys free** for commuters using a go card.

Labor's price rises are doubling fares in just five years, resulting in people turning away from public transport.

The LNP will **reward regular commuters** by reintroducing **discounted weekly fares** for go card users and **fix our public transport network**.

The LNP will **review the fare structure more broadly once the State's dire budget position has been addressed**.

The LNP will address Labor's failure to fix Cross River Rail as it is critical to public transport throughout SEQ and we are **committed to delivering public transport that works for commuters** by delivering a reliable, frequent and safe network.

Watch

## A STRONGER COMMUNITY

The LNP will ensure all Queensland families are able to participate in their communities and will help those in need. We will **provide more assistance and support to community and volunteer groups**.

We will help more Queensland **children play sport and assist grassroots community sporting clubs** through our *Get in the Game*

The LNP will **build stronger communities, deliver more jobs and more support** to community and volunteer groups.

initiative. We will **help the environment** by investing in practical local action that delivers **real environmental improvement**.

The LNP will **help Queenslanders with a disability** by supporting the NDIS and **helping special needs students** learn through access to e-tablets in special schools. The LNP will **lower the cost of living for families and revitalise front line services**.

**Bruce Flegg**

Partnerships

## EDUCATION

We will make **literacy and numeracy the number one priority** for our schools by **getting the basics right** and giving schools more flexibility to deliver for our children.

The LNP will ensure our children are prepared for future success by **making literacy and numeracy the number one priority** for our education system. **We will give Principals more power** to select the best programs for their students. Under Labor our children are languishing at the bottom of the nation's literacy and numeracy results.

An LNP Government will allow up to 120 state schools to volunteer to become *Independent Public Schools* if staff and parents want more local control to **make decisions at the school level - it's about meeting the needs of students**. We will deliver real opportunities for Queenslanders through improved training and skills.

**Mark McArdle**

Health

## HEALTH

The LNP will revitalise front line health services by **improving access and giving more control back to local doctors and nurses**.

Queenslanders deserve a world class health system they can access when they need medical care. An LNP Government **will deliver better access to critical health services** and give more control back to local doctors and nurses through local health boards. This will mean **better access to emergency treatment** and action to

address Labor's 220,000 patients on the primary and secondary waiting list.

**Labor wasted \$220 million to fix their bungled health payroll system**. The LNP will cut waste in the health system to ensure **more funding reaches front line services** such as our doctors and nurses.

or improved roads and transport infrastructure, as well as revitalising our public transport system. We will establish a **Crisis Action Plan for the Bruce Highway to get it fixed in 10 years** and **establish Roads to Resources** to address Labor's neglect of roads impacted by the growing resources industry.

The LNP will also improve safety for our children by **rolling out flashing lights in school zones** to help stop motorists speeding.
