15 November 2017

State candidates need to promise only on what they can deliver

Sunshine Coast Council Deputy Mayor and Finance Portfolio Councillor Tim Dwyer says State election candidates should not be making promises which are contingent on council funding or implying they have been made in conjunction with council.

Cr Dwyer said a number of election promises had been made over the past week, without any consultation with council.

LNP Buderim Candidate Brent Mickelberg has pledged \$2 million for a new library and community centre for Sippy Downs and LNP Glass House candidate Andrew Powell has pledged \$1 million for a new indoor aquatic facility at Maleny.

STATEMENT FROM MAYOR MARK JAMIESON

Today, Federal Member for Fisher Andrew Wallace and Federal Member for Fairfax Ted O'Brien have made a range of claims about the allocation of medical school places for the Sunshine Coast University Hospital and the campaign that has been implemented by Council.

Their comments are nothing more than a smokescreen to divert attention from the fact that the Government they represent has had over three years to resolve this matter – and hasn't.

In that time, myself and others in this region have been assured by Federal politicians that this would be fixed. Well the reality is that as at today, it hasn't been fixed.

Our region has already lost ground – if the medical school places had been allocated even two years ago, we could have potentially had the medical school opening this year.

As it stands, it will be at least 2019 before the medical school opens – and then only if the required additional 15 medical school places are allocated. And there is no guarantee this will occur.

The Federal Members claim that I have only initiated this campaign for political reasons. As an independent Mayor with no political affiliations, I have made it very clear to them and to our community that at the end of the day, I do not care who secures the additional 15 places for our medical school. All I want is for this region – the region that I have been elected to represent – to receive what it was promised. That is what an independent Mayor does.

It is worth noting that under section 12 of the *Local Government Act 2009*, a councillor must represent the current and future interests of the residents of the local government area. That is what I am doing. Perhaps the Federal Members should be checking their facts before they make ill-informed and inaccurate claims.

Further, the 15 February 2017 date for the allocation of medical school places to enable a medical school to open at the start of the 2019 academic year was confirmed by the State Health Minister. I am also advised that the date was nominated by Griffith University and is underpinned by the necessary accreditation process required by the Australian Medical Council (AMC) and the internal governance processes that the University will need to follow before the AMC accreditation process commences. I am also informed that Ted O'Brien was made aware of this in November last year.

I also assure the residents of the Sunshine Coast that the development of a campaign on this matter was requested by Councillors at a meeting on 30 November 2016 out of concern for the fact that the allocation of the medical school places had still not been resolved. The plan for the campaign was distributed to Councillors on 8 December 2016 and no objections to it proceeding were raised. All expenditure associated with the campaign has been undertaken lawfully, within budget and under appropriate delegations.

Finally, I would make the point again that Council would not be having to spend the money on this campaign if the Federal Government had done the job it has been elected to do and resolved this matter some time ago.

ENDS

STATEMENT FROM MICHAEL WHITTAKER, CHIEF EXECUTIVE OFFICER, SUNSHINE COAST COUNCIL

Today there have been statements made to the media to the effect that the expenditure on the OperationMedSchool campaign was not appropriately authorised.

Subject: Road Delay No Way Petition

Dear Cr Cox,

Thank you for your email with respect to the community Meridan Way Traffic Petition that I launched with the Meridan State College P & C President.

This is an important community petition. I am not sure why you are disheartened. This issue should not have come as a surprise to Council. Further, I don't make it my business to inform Council on my daily activities.

I have attended many P & C meetings over the years and the issue of road congestion has always been on the agenda. I have made representation to Council and the State over the years. From those representations we have achieved new fencing, turning lanes, new footpaths and funding for additional crossing supervisors.

The reality is Parklands Boulevard and the surrounding network are Council roads. The Mayor has publicly acknowledged that, including Council's responsibility over those roads.

The petition is certainly gaining a lot of momentum. This shows how important the issue is to residents.

One of the major issues coming through my consultation is the safety concerns of the entry and exit of the new service station. It beggars belief that a service station could be approved by Council with an entry and exit at a set of traffic lights and intersection that already struggles with congestion.

You are correct in that the Premier is due to attend the Sunshine Coast on Monday. I have, however, already asked the State Labor Government to commit funding to ease the congestion.

Unfortunately, the Minister for Main Roads, in an answer to a question I asked in Parliament has rejected that, on the basis that the road network around Meridan State College are

Old Regional Plan. The LGMS identified the Aroona 'Transit Oriented Community Area' as an area intended to be developed as a suburban transit oriented neighbourhood, and amendments were subsequently made to the Caloundra City Plan 2004. This designation was premised on the delivery of CAMCOS, the preferred urban rail transport proposal by the State Government at the time, which has yet to be subsequently delivered. Increases in density arising from the LGMS in the Aroona 'Transit Oriented Community Area' have ultimately been fairly minimal and are not a major factor contributing to traffic congestion. Also, it is important to note that Council had not previously anticipated a school being developed in this location.

I would draw to your attention that two weeks ago, during the recent school holidays, there were no traffic congestion issues along Parklands Boulevard. Additionally, I'm not aware of any concerns with traffic flow outside of the peak school drop-off and pick-up times. Schools are, by their nature, high traffic generating land uses and the experience of high congestion during arrival and departure periods is a phenomenon experienced at nearly every school across the Coast. Congestion from schools not only affects local roads but also upon the DTMR controlled road network, as witnessed here on the Coast as well as throughout the State. Even Page 3 of today's Courier Mail features an article on Brisbane City Council's ongoing issues with school parking. It states "The funding split for school zones has been a sore point because State Government manages public schools, but councils manage local roads".

An overwhelming contributor to the current concerns is that Meridan State College (MSC) has experienced significant growth in its student population (over 288% in the past 10 years), so it begs to question why the State Government hasn't sought to restrict the catchment area and bring forward plans for an alternate school campus? It would also be remiss of me not to point out that the vacant land at 234 Parklands Boulevard, which abuts MSC's eastern boundary, has twice been listed 'for sale' since 2012. This property would have been an ideal solution to addressing the College's car parking issues, yet I remain unaware of any representations you have made directly to Education Qld to acquire the property for such purposes, however please correct me if this is not accurate.

As you may be aware, since being elected as the Division 3 representative, I have fought hard to have the Parklands Boulevard duplication project identified and included in Council's '10 Year Capital Works Program'. With the support of the Mayor and my fellow Councillor colleagues, budget allocations have been made both this financial year and next towards finalising the detailed designs, with construction to commence the following financial year. Initial project estimates have Council forecasting a cost to ratepayers upwards of \$8 million, so any financial assistance you can attain from the State Government, as per your email, would certainly be most welcome. I'm aware that the Premier will be visiting the Coast on Monday, so this may be an opportune time to make any such appeal.

I trust this gives you an insight into my commitment in pursuing the delivery of this important infrastructure project and I'll finish with a new slogan for you to consider... "More Barking No Parking".

Regards,

Peter

I note you recently lead a ratepayer funded campaign to bring a medical school to the Sunshine Coast University Hospital. Although I said at the time, it was a given that we would have our medical school, I do congratulate my federal colleagues Andrew Wallace and Ted O'Brien for making that happen.

Knowing Mr Mayor that you are keen on community campaigns I do hope, with respect to this Road Delay No Way community petition, that Council takes it seriously and acts to deliver the necessary road upgrades.

Yours sincerely

Subject: Re: Local Community Representative - Parking Infringement Issues

Trisha

Without wanting to 'over do it' we should also invite short submissions and attendance from Unitywater, QFES, Australia Post, Energy Qld, Telstra, etc on the importance of access to the verge at all times and examples of where the community is at risk.

State members should be invited to submit their written views and given their published opposition (Bleijie & McArdle) provide details on LNP Policy and what they are doing to have the verge parking State laws repealed, if indeed they believe that is the answer.

Major developers, smaller developers and EDQ should be requested to submit their views on what wider road reserves would do to the per m2 price of land.

Any external experts you can think of who will make a meaningful contribution should be included.

This is an important issue and if we have to initially commit a whole day, so be it!

The media should be invited but they will have to work with our timetable and to get what they want and put in a full day like everyone else.

We may well need follow up meetings including Councillor only, to finalise our position going forward.

Trisha, this will require strong Management to be ready by 29/1.

Cheers

Roll this out at every hospital , making money out of the sick is wrong

32 minutes ago · Like · Reply

s.47(3)(b)

I'm not sure, but isn't this the same government MP who supported the construction of a multi-deck paid parking station at the hospital which has been operational for many months now?

Why hasn't he supported the hard working doctors, nurses and dying patients who have been paying to park since day one?

How does he feel about the cash grab by the State Government on hard working medical staff?

Many unanswered questions and quite the diversionary tactic by the MP to shift focus away from the real issues.

<address>

Dear <name>

As you are aware, since becoming Mayor in April 2012, I have sought to encourage a stronger collaboration between the representatives of the Sunshine Coast across the three tiers of government, in the interests of achieving greater prosperity and opportunity for our residents and our region.

I have always firmly been of the view that our region can secure much greater attention and consideration in the context of government policy, planning and investment decisions if its political representatives at all tiers are working collaboratively and within the context of an agreed plan for the region.

In many respects, that plan is the *Sunshine Coast Regional Economic Development Strategy 2013-2033*, which was developed in 2013 as a collaboration between business, industry, the University of the Sunshine Coast, the then Queensland Government and Council as the blueprint for the future of the Sunshine Coast economy. As you will recall, the Newman Government was a signatory to the Regional Economic Development Strategy through the then Minister for Local Government, David Crisafulli.

With the recent election of new representatives to the Federal Parliament and the fact that a number of the core transformational projects for the region (such as the Sunshine Coast Airport and the Maroochydore City Centre) are either underway or with approvals in place, I believe it is timely for the Federal and State members representing the Sunshine Coast and the Sunshine Coast Councillors determine a new collaborative approach to advocacy on behalf of this region.

Our Council is strongly supportive of achieving coherence in the messaging and priorities from the political leaders in this region and look to the successes of other regions where greater commitments are being achieved through a collaborative advocacy approach.

Council is planning to launch the 50th Anniversary of the Sunshine Coast celebrations on Monday 1 August 2016 and you will shortly each receive an invitation to join us and participate in that launch.

As this is not currently a scheduled sitting day for either the Federal or State Parliaments, I would like to invite you to attend a breakfast meeting with Councillors at 8.00am on Monday, 1 August 2016 to commence an initial discussion on a new collaborative approach on the priorities and advocacy for the Sunshine Coast. The meeting would take place in the Beerwah Room, Level 3 in the Caloundra Council Administration Building at 1 Omrah Avenue, Caloundra.

Caloundra	1 Omrah Avenue Caloundra Qld 4551

Subject: FW: Kawana Way - Under bridge lighting

Good afternoon Peter,

Per the below email, Jarrod has received correspondence from s.47(3)(b) regarding lighting underneath a bridge on Kawana Way.

I understand Kawana Forest residents walk along a footpath to access the eastern side of Kawana Way (local park, etc) and the lack of lighting under the bridge is of concern. I have attached a map for your reference. Whilst I know Kawana Way is a state road, I presume this request falls under Council's jurisdiction so far as it relates to the illumination of the footpath? Let me know if I've got this wrong.

s.47(3)(b) is advocating for a solar light or similar for safety and security of pedestrians and cyclists.

Would you kindly investigate this for s.47(3)(b)?

Regards

I'm hoping you can advise me on who to contact to have some lighting installed.

Many thaks

Kind regards

s.47(3)(b)

Schools are, by their nature, high traffic generating land uses and the experience of high congestion during arrival and departure periods is a phenomenon experienced at nearly every school across the Coast. Congestion from schools not only affects local roads but also upon the DTMR controlled road network, as witnessed here on the Coast as well as throughout the State. Even Page 3 of today's Courier Mail features an article on Brisbane City Council's ongoing issues with school parking. It states "The funding split for school zones has been a sore point because State Government manages public schools, but councils manage local roads".

An overwhelming contributor to the current concerns is that Meridan State College (MSC) has experienced significant growth in its student population (over 288% in the past 10 years), so it begs to question why the State Government hasn't sought to restrict the catchment area and bring forward plans for an alternate school campus? It would also be remiss of me not to point out that the vacant land at 234 Parklands Boulevard, which abuts MSC's eastern boundary, has twice been listed 'for sale' since 2012. This property would have been an ideal solution to addressing the College's car parking issues, yet I remain unaware of any representations you have made directly to Education Qld to acquire the property for such purposes, however please correct me if this is not accurate.

As you may be aware, since being elected as the Division 3 representative, I have fought hard to have the Parklands Boulevard duplication project identified and included in Council's '10 Year Capital Works Program'. With the support of the Mayor and my fellow Councillor colleagues, budget allocations have been made both this financial year and next towards finalising the detailed designs, with construction to commence the following financial year. Initial project estimates have Council forecasting a cost to ratepayers upwards of \$8 million, so any financial assistance you can attain from the State Government, as per your email, would certainly be most welcome. I'm aware that the Premier will be visiting the Coast on Monday, so this may be an opportune time to make any such appeal.

I trust this gives you an insight into my commitment in pursuing the delivery of this important infrastructure project and I'll finish with a new slogan for you to consider... "More Barking No Parking".

Regards,
Peter

Subject: Road Delay No Way

Petition

For ease of reference you can view the petition by visiting www.meridantraffic.com.au

This issue is very important to my constituents who are all ratepayers and expect proper local road infrastructure to be delivered by Council.

Knowing the importance of this issue to residents, I must say, however, I am quite surprised at the speed in which the petition is gaining signatures. Within the first few hours of the petition going live hundreds of people had already signed.

I do hope that we can work together to come to a resolution of this issue. Although the roads are Council's responsibility, I am more than willing to ask the State Government to consider assisting the Council if the Council is unable or unwilling to do it.

I note you recently lead a ratepayer funded campaign to bring a medical school to the Sunshine Coast University Hospital. Although I said at the time, it was a given that we would have our medical school, I do congratulate my federal colleagues Andrew Wallace and Ted O'Brien for making that happen.

Knowing Mr Mayor that you are keen on community campaigns I do hope, with respect to this Road Delay No Way community petition, that Council takes it seriously and acts to deliver the necessary road upgrades.

Yours sincerely

I've had enough of being the nice guy and turning the other cheek Tim. Jarrod is attacking our Mayor, our council and our community.

Truth is, he is under much pressure locally and needs to make himself relevant before the next election.

I haven't seen him speak up to support anyone when paid parking was introduced at the university and I certainly haven't seen him support dying patients at the paid parking facility which was given the nod during his time as a cabinet minister.

ABC Sunshine Coast

Yesterday at 12:21 pm · 🌐

Kawana MP Jarrod Bleijie calling on the Sunshine Coast Council to scrap paid parking at new hospital precinct.

Mr Bleijie says it is a "cash grab" by council and should be free.

Residents living near the hospital have also formed an action group. They're unhappy they have to pay annual fee for two allocated street parking permits for spaces outside their homes

Member for Kawana obviously has too much time on his hands.

See tweet below, perhaps it is time we take a closer look at his local government issues and what he has raised with you or Cr Peter Cox, "seeking help on Council issues"

Nothing has been raised with me beyond issues in the media like medical school places, petitions, car parking, etc.

"And roads rates and rubbish is your job! Don't even get me started on how many of my constituents come to my office seeking help on Council issues. Your Council has forgotten the 'local' in 'local government.' I look forward to raising these issues before the next council election"

Cheers

Peter.

This is very good.

I would be inclined to leave out the detail about our planning
In the last paragraph and instead reinforce the point that
Around the coast we have similar and in some cases more
Serious congestion on other council roads but also State roads.

Let's keep the pressure on him for a solution.
Perhaps suggest he appeal to the Premier when she visits on Monday

We should also draft this as a PR to media the day after your email is sent.

Dear Mr Bleijie,

Further to your email on October 6 advising both the Mayor and myself of your Road Delay No Way petition, I remain disheartened that we weren't given the courtesy of knowing about the launch before your media release. I see this being a highly important issue which requires us all to look for constructive options as it is likely to involve a multifaceted set of short and longer term improvements.

Your email makes reference to the way in which the Sunshine Coast Council has approved development in the surrounding area, so I thought it worthwhile to properly explore the background to this, in the event you weren't aware. The original planning for this area reflects the Caloundra City Local Growth Management Strategy (LGMS) which was as a response to a requirement of the South East Regional Plan. The LGMS identified the Aroona 'Transit Oriented Community Area' as an area intended to be developed as a suburban transit oriented neighbourhood, and amendments were subsequently made to the Caloundra City Plan 2004.

This designation was premised on the delivery of CAMCOS, the preferred urban rail transport proposal by the State Government at the time, which has yet to be subsequently delivered. Increases in density arising from the LGMS in the Aroona 'Transit Oriented Community Area' have ultimately been fairly minimal and are not a major factor contributing to traffic congestion. Also, it is important to note that Council had not previously anticipated a school being developed in this location.

I would draw to your attention that two weeks ago, during the recent school holidays, there were no traffic congestion issues along Parklands Boulevard. Additionally, I'm not aware of any concerns with traffic flow outside of the peak school drop-off and pick-up times. Schools are, by their nature, high traffic generating land uses and the experience of high congestion during arrival and departure periods is a phenomenon experienced at nearly every school across the Coast and elsewhere throughout the State.

behalf of the residents of Aroona, Currimundi, Little Mountain and Meridan Plains requiring the Sunshine Coast Council to immediately upgrade Parklands Boulevard to deal with the major traffic congestion owing to the population growth in the area and inadequate infrastructure.

Hi Jarrod, Thanks for your letter.
Could I please ask that you supply
the contact details of the
concerned residents and council
will go to them directly.
As we're being asked to provide
information let's use taxpayer funds
efficiently and go direct the the
people wanting information.
As the use of dollars is important in
the context of your letter I'm sure
you'll see the logic in my request.
Additionally, we see it is as an
opportunity to accurately and
properly advise residents without
any 3rd party commentary on local
government business.
We are an independent council and
are not beholden to a political party
agenda as state and federal
politicians are.

s.47(3)(b)

I'm not sure, but isn't this the same government MP who supported the construction of a multi-deck paid parking station at the hospital which has been operational for many months now?

Why hasn't he supported the hard working doctors, nurses and dying patients who have been paying to park since day one?

How does he feel about the cash grab by the State Government on hard working medical staff?

Many unanswered questions and quite the diversionary tactic by the MP to shift focus away from the real issues.

IP Act RELEASE
Sunshine Coast Council

Linda Gray

From: Cr Christian Dickson
Sent: Thursday, 19 October 2017 6:27 AM
To: Cr Mark Jamieson
Cc: Michael Whittaker; Cr Jason O'Pray; SCC - Councillors; Chris Allan; Denis Shaw; Ashleigh Roberson; Belinda Warren; Sharyn Eyles
Subject: Re: We let Jarrod have a win by letting this all occur in the first place. He's right, we need to stop giving away opportunities for him and others to belt us over the head

Morning all.

I would absolutely take the opportunity given by the Mayor to participate and share my views on all matters more regularly and should've ignored the officers advice and followed my gut instinct by sharing my strong level of dissatisfaction with the way the matter was being handled by the organisation.

As you know I've been extremely critical of our state members in a very public manner. I will certainly play a more active role in this regard as suggested.

All in all, I'm glad there was a level of intervention to put the matter behind us and focus on other more important regional issues.

Kind regards,

Christian

Michael,

Thank you for the explanation

Jason and Christian, please feel free to enter the fray on behalf of Council whenever it suits.

Despite being away from the Coast on LGAQ business Tim, Mike and I, have been in regular dialogue on this issue.

I am sorry if you are disappointed or feel the member for Kawana has taken advantage of the situation but you could have at any point proposed a solution.

If you had a solution, why not share it with us, all!

The pathetic efforts of the State member to achieve an outcome with another 'petition' should be recognised for what it is, All talk No action!

Please don't get to caught up in State politics but focus on our less than successful State members and what they have delivered in the last three years.

I am unaware of any comments from Jarrod and he has not made any representations to myself (to be clear - no State or Federal MP has contacted me about this issue).

The staff are doing an amazing job in difficult conditions on an unsavoury task.

A report to council will be presented at the November OM meeting that explains the emergency and the action taken.

Any feedback on how these unique situations can be handled better is welcome.

Im sorry for any convenience this matter has caused you.

Regards

Mike

Hi Jarrod,

I am happy for the list to be supplied, unless you don't have the list you speak of.

The list would be to hand as the list is recent, topical and a factor in your request for information.

Which of course would require you to duplicate to residents the provision of information we could provide directly.

So I'm just trying to save you time in remitting local government information from your office.

In fact, it's not duplication as you would have people believe, as it would cut out the work you'd have to do as the middleman. Thus saving ratepayer and taxpayer dollars that is of such concern.

I look forward to you assisting with this sensible request to reduce the burden on ratepayers/taxpayers.

Thanks Jarrod. Tim.

IP Act RELEASE
Sunshine Coast Council

Jarrold Bleijie MP shared 7 News Sunshine Coast's video.

5 hrs ·

I have been saying for a while that the Sunshine Coast Council is arrogant and out of touch. They just keep attacking residents. Look how they treated the Buderim people with the street gardens, Sippy Downs people with threats of paid parking, Birtinya folk with threats of paid parking, now trialled regulated parking, the farmer at Kenilworth, the whale carcass mess, now the speed at which they are fining people who park in their own street or their own driveways and let's not mention the poor tradies who were targeted last week for parking their vehicles on construction sites. This is absolute madness and is getting way out of hand. The Mayor, Mark Jamieson recently responded to my public complaints by name calling me 'Boy Wonder'. Doesn't bother me. My late Nanna taught me 'sticks and stones may break my bones but names will never hurt me'. The Council is responsible for this mess and the Councillors should fix it. Thankfully one Sunshine Coast Councillor has spoken out against his own Council and the direction of Council. Hopefully more will follow.

Thanks Tim.

This continues to confirm the modus operandi of successive state governments across Australia who continue to drive growth without the necessary infrastructure or personal accountability.

A good recent example was the Member for Kawana's attempt to blame the Mayor for a lack of supporting infrastructure around a state run school whilst also having a crack at him for the population growth in the region. Go figure.

Cheers,

Christian

On 2 Oct 2015, at 3:01 PM, Craig Matheson <Craig.Matheson@sunshinecoast.qld.gov.au> wrote:

Councillors, Warren and Ron

The Mayor has been approached by representatives of HATCH in Australia who are working as part of a consortium that is looking to put together a market led (ie. unsolicited) proposal to the Queensland Government on the delivery of the Sunshine Coast Light rail project.

The Mayor has agreed to meet with them and to hear their presentation and he asked if each of yourselves might be available to participate in this meeting. The CEO will also be involved. The Mayor is also inviting Fiona Simpson, Jarrod Bleijie and Mark McArdle to sit in on the briefing (given their electorates are traversed by the Light Rail corridor).

The briefing is planned to take place from 3.00pm to 4.00pm next Friday, 9 October at the Level 5 Boardroom at Maroochy on First.

Hi Cr Pete and Deb,

The Councillor Only(CO) sessions are booked in advance and difficult to schedule with 11 diaries to consider. So to reschedule 11 diaries to cater for an event that is not of significance to all councillors is not a practice I'd want to support.

The CO sessions serve to build relationships, understanding and collegiality and I'd prefer they be given priority, rather than localised events/awards.

I've cc'd this all councillors so that this matter can be discussed, if/as required, at one of our CO sessions.

Thanks. Tim.

Subject: CEO Commencement Update
Attachments: CEO Calendar.pdf; Welcome Event Invite List updated 10 September 2015.pdf; CEO Welcome Invitation PDF.pdf

Good afternoon Councillors

Just a quick update for you regarding Mike Whittaker's commencement on 21 September.

- The orientation program has been updated to make the most of some opportunities that have arisen over the past couple of weeks. A copy of the arrangements as they currently stand is attached for your information.
- As you will see from the program, day one predominantly provides time together for Council and the CEO. Arrangements are also in hand for a communication from Mike to all staff on the morning of his commencement and for a media interview at midday.
- Individual meetings have also been organised with portfolio Councillors and relevant Directors during Mike's first fortnight. Meeting wizards have previously been sent for these meetings.
- Further to previous communications, the orientation program includes a CEO Welcome Event on 8 October at The Events Centre, Caloundra. Council is hosting the night with invitations to go to a range of its community, business and government partners from across the region (invitation and list attached). The evening will include introductions and a brief SCC presentation by the Mayor, followed by a relaxed meet and greet with those in attendance. The timings are 5:30pm arrive, brief formalities at 6:00pm followed by drinks and nibbles to 7:30pm. The invitation for the event is to be sent out from the Office of the Mayor and CEO on Monday. The date is already reserved in your calendars, however you will also receive the official invitation - this is just an advance note for your information.

If you have any questions about the above or related, please call or email at your convenience.

Regards

Ray Turner
Acting Chief Executive Officer
Office of Mayor & CEO | Sunshine Coast Council

Sent: Wednesday, 1 February 2017 6:20 PM
To: SCC - Councillors <SCC-Councillors@sunshinecoast.qld.gov.au>
Subject: Sunshine Coast University Hospital Medical School places

Councillors

Yesterday the Mayor received the attached correspondence from the Member for Kawana. The Kawana Electorate Office also copied the correspondence to Councillors Baberowski, Dwyer, Cox, Connolly and Dickson.

Councillor Connolly responded to the Member for Kawana and his response is below. Councillor Connolly has requested that I forward this response to all Councillors on his behalf for your information.

Kind regards

Craig
