Question on Notice No. 1441 Asked on 8 October 2008

MR MESSENGER asked the Minister for Tourism, Regional Development and Industry (MS BOYLE) —

QUESTION:

For each assistance package under the Queensland Industry Development Scheme in 2004-05, 2005-06, 2006-07 and 2007-08 will she detail (a) the businesses assisted, (b) the State electorate in which the business is located, and (c) if the business is located in more than one electorate, the electorate in which it has its central office (including the total expenditure for each year)?

ANSWER:

I thank the Member for Burnett for the question.

The Department of Tourism, Regional Development and Industry plays a pivotal role in achieving the Bligh Government's priorities of building Queensland's regions and creating a diverse economy that is powered by bright ideas.

The Queensland Industry Development Scheme (QIDS) was designed to enable the State Government to work with smart businesses and key industry sectors to maximise their growth by supporting projects that improve business performance. The Scheme was designed to assist successful businesses to achieve five key objectives: enhance their competitiveness, expand markets, increase investment, increase innovation and implement better environmental management practices - as we want to create a Queensland that is not only, strong but also green.

The information sought by the Member concerning the businesses assisted under the Queensland Industry Development Scheme (QIDS) and the State electorate they are located in is contained in Attachment A.

The Department of Tourism, Regional Development and Industry does not record multiple locations of the same business on its grants administration database and it is therefore not possible to provide this information.

Queensland Industry Development Scheme		
Financial Year	Total Expenditure	
2004-05	\$4,325,063	
2005-06	\$4,177,552	
2006-07	\$3,390,589	
2007-08	\$524,148	

The total expenditure for each year is provided in the table below.

It is evident from the information contained in Attachment A that over the years, the Government has provided financial assistance under the QIDS scheme to a wide range of businesses across Queensland's regions. To provide a detailed overview of all the businesses assisted individually would not be practical due to the very large number of these businesses, however, I take this opportunity to highlight some of our successes.

In 2004/2005 financial year, the department awarded just over \$15,000 funding to a Bundaberg company, Snapfresh Australia Pty Ltd to develop production in marketing clusters in order to improve the productivity of the business and long term viability of horticultural production in the Wide Bay Burnett region. A Townsville company, TREC Inc received \$80,000 to appoint a Market Development Manager to assist local engineering companies with securing additional contracts. Furthermore, Innovative Design and Manufacturing Pty Ltd located in the Cunningham Electorate received just over \$31,000 for product development purposes. With the help of \$80, 000 of DTRDI funds, Tooowoomba based CMI Operations Pty Ltd acquired a new melt facility to improve manufacturing processes.

In 2005/2006, Inglewood Farms Pty Ltd in Southern Downs Electorate was awarded \$60,000 to undertake systems development and integrate the company's manufacturing and financial systems and improve performance. In the same year, a Far North business, Utamic Software Pty Ltd, received \$11,750 to develop and execute their marketing strategy. Furthermore, Plasvacc Pty Ltd in the Beaudesert Electorate was able to implement a sale monitoring and development system to improve sales capacity in both domestic and international markets.

Amongst the many businesses assisted in the 2006/2007 financial year were Bundaberg's Brewed Drinks Pty Ltd and Seabird Aviation Australia which is located the Hervey Bay Electorate. They received respective funding amounts of \$45,000 and \$49,000 and both companies used the money to make technical improvements to their products and processes.

In the last financial year, Oceanis Australia from Maroochydore, Conveyor and General Engineering from Logan and John Calleija Jewellers from Surfers Paradise Electorate all benefited from the Bligh Government's QIDS program. They received respective amounts of \$49,700, \$98,300 and \$47,500 for product and market development purposes, technological improvements and to fund international marketing efforts.

Listed above are some examples only. However, there are many more businesses statewide which as a result of my department's support have been able to make wonderful improvements to their business such as adopt new technologies, invest in supply chain development or become more environmentally friendly, to name just a few. As part of its Q2 initiative to build on Queensland's current economic strengths, the Bligh Government is making ongoing investments into our business sector.

In order to maximise the outcomes for Queensland businesses, while getting the best value for the taxpayer dollar, my department has refocussed our funding to provide larger grants targeted at projects of strategic significance to Queensland. In September last year QID's was replaced by the new Businesss and Industry Transformation Incentive (BITI) Scheme. This program was developed following feedback from business and provides higher levels of assistance than was previously available.

The Bligh Government will continue to invest in an economy that is powered by bright ideas in order to ensure that tomorrow's Queensland is strong and that our businesses continue to thrive for the benefit of future generations of Queenslanders.
