QUESTION:

MR WELLINGTON ASKED THE MINISTER FOR TRANSPORT AND MULTICULTURAL AFFAIRS (MS PALASZCZUK) —

With reference to the continuation of the duplication and upgrade of the railway line from Caboolture to Nambour—

What is the anticipated cost of completing the railway line duplication and rail upgrade?

ANSWER:

I thank the Member for Nicklin for the question.

In the *South East Queensland Infrastructure Plan and Program 2009-2026* the estimated cost for duplication of Caboolture to Landsborough is \$673 million and the estimated cost for duplication of Landsborough to Nambour is \$1.8 billion. Duplication of the section between Caboolture and Beerburrum was commissioned in April 2009.

Under the *South East Queensland Infrastructure Plan and Program 2010-2031* the expected timeframe for delivery of duplication of Beerburrum to Landsborough is by 2019-2020 and the expected timeframe for delivery of the Landsborough to Nambour duplication is by 2030-2031.
