3.2 Consideration of Auditor-General's Reports to Parliament

3.2.1 Auditor-General's Report 18: 2020-21—Education 2020

The Auditor-General's report titled *Report 18: 2020-21—Education 2020* was tabled on 27 May 2021 and referred to the committee on the same date for consideration. The report summarises the audit results of entities in Queensland's education sector, including the Department of Education, the Department of Employment, Small Business and Training (DESBT), TAFE Queensland, 7 universities, 8 grammar schools, and a number of other statutory bodies.

The Queensland Audit Office found that the financial statements of all education entities are reliable and comply with relevant reporting requirements; that the sector's entities had reacted quickly to risks arising from the COVID-19 pandemic; and that entities need to understand the cost of delivering their services and monitor the efficiency of service delivery to cope with continuing funding uncertainty. The audit also found that education entities need a good understanding of the condition of their assets and future demand for their services to plan for effective asset management. Some deficiencies were identified with entities' information systems and processes, with security of information systems continuing to be an issue.

The Auditor-General's report recommended that entities in Queensland's education sector:

⁶ *Parliament of Queensland Act 2001*, s 93(2)(a).

- strengthen the security of information systems (all entities)
- understand the cost of service delivery to make informed decisions about future services and efficiencies in operations (education entities)
- improve asset condition assessments (all entities).

The committee sought advice from the Department of Education and DESBT regarding their progress in implementing the recommendations. The advice from DESBT also covered progress by TAFE Queensland. The committee published the departments' advice.

On 30 August 2021, the Queensland Audit Office briefed the committee on this report. The transcript of that briefing, held on 30 August 2021, is available from the committee's webpage.

From the departments' advice and the briefing provided by the Queensland Audit Office, the committee is satisfied with the progress being made to implement the Auditor-General's recommendations.

This concludes the committee's consideration of the report.

The committee also received a briefing on the report from the Queensland Audit Office on 14 March 2022. The committee then sought, and received, additional advice from the Department of Education on several matters relating to the implementation of the report. On 29 April 2022, the department wrote to the committee advising:

- the department has contracted Telstra to significantly boost bandwidth in schools and communities across the State, and Telstra will deploy all infrastructure in a single build phase, which is expected to be completed by mid-2023
- the department's new *Digital Strategy 2022-2026* was published on 4 March 2022
- the second phase of this contract, expected to commence in mid-2023 and finish by 2026, will see internet speeds increase to an average of 5 Mbps for each student by 2026.

Based on the briefings that it has received, the committee is satisfied with the progress being made to implement the Auditor-General's recommendations.

This concludes the committee's consideration of the report.
