Beside the river,
in QLD's civic place,
there lived a Premier
and an Education Minister.

They were a team.

And one year, when the teachers were updating their EBA, they decided to row far away from the needs of students and schools.

Do you know who sank the boat?

Was it the Premier
as he didn't want to step in,
so sat to the side
which made the boat spin?

Was it John-Paul
who sat in the middle,
and did not listen
but his Rolex he did twiddle?

Queensland Legislative Assembly
