Office of the
Minister for Transport

Your ref: Petitions

9 JUL 2010

Mr Neil Laurie
The Clerk of the Parliament
Parliament House
Corner Alice and George Streets
Brisbane Qld 4000

Dear Mr Laurie *Neil*

I refer to a petition number 1337-10 lodged with the Legislative Assembly by Ms Ros Bates MP, Member for Mudgeraba, on 9 May 2010 about the improvement of bus services on the Gold Coast.

The Bligh Government is committed to public transport on the Gold Coast and has vastly improved rail and bus services in recent years.

In 1980, Surfside Bus Lines operated five bus routes and carried approximately 300 000 people per year. Today, Surfside Bus Lines operates 53 bus routes on the TransLink network and moves 15 million passengers per year. In the last five years the Bligh Government has purchased 117 new buses and 77 replacement buses on the Gold Coast network. Also in this time over \$15 million has been spent on bus service improvements, an increase of 95%.

Most recently, a bus service improvement package totalling \$740 000 per annum for the Southern Gold Coast commenced on 28 June 2010. The service improvement package includes the following:

- faster travel time and more direct service to the heavy rail network for passengers travelling from south of The Pines
- increased number of feeder bus routes to Varsity Lakes rail station
- increased feeder bus services on the western side of the station to Varsity Lakes rail station
- improved access to the Gold Coast Airport at Coolangatta (new route 761), including connections between the heavy rail network and airport, inducing demand and instigating travel patterns to replicate a future heavy rail extension to Elanora and eventually Coolangatta
- six new low-floor air-conditioned buses, funded by the Queensland Government
- an additional 238 services per week capable of carrying up to 15 470 passengers per week (13 000 seated and 2470 standing passengers)

TransLink has also released a new timetable for route 702 operating to the Gold Coast Hospital. These services will operate every 30 minutes Monday to Sunday. I have enclosed a copy of the timetable for route 702 for your information.

The Bligh Government has also massively increased the frequency of services on the Gold Coast rail line to deliver approximately a 15 minute level of service across the peak period. This has been enabled by \$700 million worth of investment including:

- Helensvale to Robina duplication (\$72 million) - completed 2008/09.
- Salisbury to Kuraby third track (\$256 million) - completed 2008/09.
- Ormeau to Coomera duplication (\$22 million) - completed 2006/07.
- Robina to Varsity Lakes (\$342 million) - opened on Monday, 14 December 2009.

This is in addition to nearly \$1 billion being invested to purchase 64 new three carriage trains, which are rolling off the production line at a rate of one per month.

This enormous investment has delivered for the Gold Coast.

In 2005 there were five services in the AM Peak period, including four 6-car services and one 3-car service. In 2010 this has increased to eight services, all of which are 6-car services. This represents approximately an 80% increase in AM peak capacity on the Gold Coast line between 2005 and 2010.

In 2005 there were five services in the PM Peak period, including four 6-car services and one 3-car service. In 2010 this has increased to nine services, all of which are 6-car services. This represents a doubling (100% increase) of PM peak capacity on the Gold Coast line between 2005 and 2010.

Finally, the Bligh Government is investing \$1 billion to construct the Gold Coast Rapid Transit Project. This will transform public transport on the Gold Coast.

I trust this information is of assistance.

Yours sincerely

RACHEL NOLAN MP
Minister for Transport
