

Appropriation Bill 2011

Explanatory Notes

General Outline

Policy Objectives of the Bill

Section 27(a) of the *Financial Accountability Act 2009* provides that, for each financial year, the Treasurer must present to the Legislative Assembly a Bill for an ordinary Annual Appropriation Act.

The policy objectives of the Bill, the reasons for those objectives and the ways in which the policy objectives will be achieved by the Bill are detailed in the Budget Speech and the accompanying Budget Papers.

This Bill provides for:

- Appropriation for 2011-12 to fund the cost of delivering departmental services, administered items and equity adjustment in that year and certain services, equity adjustment and administered items delivered in the previous year but not previously funded;
- Supply for 2012-13 to allow the normal operations of government to continue until the Appropriation Bill for 2012-13 receives assent; and
- Supplementary appropriation for unforeseen expenditure that occurred in the 2009-10 financial year.

The supplementary appropriation sought is based on the Consolidated Fund Financial Report, noting unforeseen expenditure to be appropriated, which has been prepared by the Treasurer and reported upon by the Auditor-General in accordance with Section 23 of the *Financial Accountability Act 2009*. Brief explanations of departmental unforeseen expenditure requirements have been provided as part of the Consolidated Fund Financial Report 2009-10.
