

Examination of the *Holidays and Other Legislation Amendment Bill 2015*

Recommendation 1

The Committee recommends that, should the Bill pass, the Minister work with community and other groups, to alleviate any inconvenience caused by the movement of public holidays.

Government Response

Accepted.

The Government notes that the changes to public holidays made by the Bill do not commence until 2016. It is appropriate that the proposed changes do not commence until 2016 so that the community and other groups have sufficient notice and opportunity to make appropriate adjustments for events in 2016 and beyond.
