Responding to COVID-19

Queensland's hospitals have performed above expectations given the unprecedented challenge the COVID-19 pandemic has had on our health system.

Between February and June 2020, as part of our response to increase capacity and manage the impact, Queensland followed the National directive to suspend public hospital performance reporting considering the suspension of non-urgent procedures in public hospitals and the need to preserve personal protective equipment (PPE).

As outlined in the Quarterly Performance Report, since restoring planned care we have seen an increase in activity. It's important we do this right and continue to balance the reintroduction of services whilst ensuring Queensland has the capacity to respond quickly to the ongoing COVID-19 pandemic.

The number of people waiting longer than clinically recommended for their surgery increased during the COVID-19 pandemic.

Positively, category one surgeries – elective procedures for Queenslanders needing urgent care – remained steady during the COVID-19 pandemic, with approximately 4,000 category one patients seen each month – the same volume we undertook during the same period last year.

Queensland Hospital and Health Services have recommenced non-urgent surgery and strategies are now being implemented to bring elective surgery activity back up to pre-COVID levels.

Some health services will be able to get back to pre-COVID levels of elective surgery activity sooner than others, as they each consider their current demand, capacity and availability of personal protective equipment.

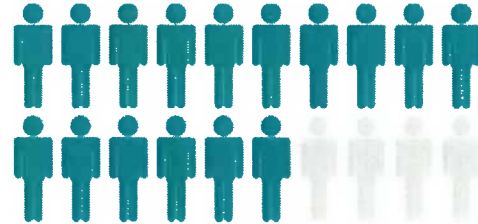

System performance during COVID-19

Key achievements

469,763

emergency department attendances

80% of patients were treated within 4 hours

10 minutes median wait time at Queensland's emergency departments

26,983 people received elective surgery (of those, 11,823 were Category 1)

April – June 2020

HHS of Residence

Total

Cairns and Hinerland	26,949
Central Queensland	23,315
Central West	778
Darling Downs	23,107
Gold Coast	69,459
Interstate/Overseas	12,194
Mackay	10,308
Metro North	134,602
Metro South	160,374
North West	2,589
South West	1,725
Sunshine Coast	40,444
Torres and Cape	2,267
Townsville	20,513
West Moreton	37,328
Wide Bay	17,021

582,973 COVID-19 tests completed at 4 August 2020

At 1 July 2020, 94.4% of patients ready for surgery are within the clinically recommended wait time.

Emergency Departments – Statewide quarterly performance comparison (June 2020 v June 2019)
