LNP plan to bring back Mining Warden

📅 October 11, 2024   🏷️ iQ Industry News (https://industryqld.com.au/category/main/)
iQ By Industry Queensland

The LNP plans to re-establish and increase the powers of the Mining Warden's Court if elected to power in Queensland. The Mining Warden's Court would investigate fatal accidents on the state's mine and quarry sites, with the Mining Warden appointed in both a magistrate and a coroner role, to empower full and fair investigations, the [...]

Cement Australia partnership backs AusPozz advances (https://industryqld.com.au/cement-australia-throws-its-weight-behind-auspozz-advances/)

Zeotech has executed a non-binding memorandum of understanding with Cement Australia that will see the companies collaborate and advance AusPozz high-reactivity metakaolin manufacturing and use. AusPozz – a low-carbon alternative to traditional cement – is produced using kaolin from Zeotech's Toondoon project, about 200km south-west of Bundaberg. Related: Commercial-scale pour

Quick fire – industry news briefs (https://industryqld.com.au/quick-fire-industry-news-briefs-197/)

Caterpillar has entered into an agreement to acquire Australian-based software company RPMGlobal Holdings. Headquartered in Brisbane, RPMGlobal has deep domain expertise in mining technology enablement. Caterpillar Resource Industries group president Denise Johnson said RPMGlobal's software solutions complemented Caterpillar's existing technologies, especially in areas such as asset management, fleet management and
